Education Applications

Schools and educational institutions have specific needs, users, and workflows in maintenance and service operations. Having many existing customers and years of industry experience, NetFacilities is used by faculty, student housing, facilities, administrators, vendors, and all departments. With the NetFacilities platform and the MobileFacilities app we configure the application to meet your specific needs.

The system provides fingertip access to the information you need to do your job.

Integrated Workflows:
- Work Orders
- Preventive Maintenance
- Inspections
- Asset Management
- Parts and Inventory
- Labor tracking
- Vendor Management
- Key and Lock Management
- Risk Management
- Contract Management
- Reports and analytics
- Announcements & Alerts
