

Flexible Workflow

Best Process is Best Practice

NetFacilities optimizes work order assignments and notifications by offering the following methods in any combination:

1. Automatic Assignment

- Individual Staff
- Maintenance Team
- Outside Vendor

Work order is created and automatically assigned according to the service type.

2. Managed Assignment

- Individual Staff
- Maintenance Team
- Outside Vendor

A person reviews the work orders to approve and assign, or deny, as needed.

3. Prescheduled Assignment

- Individual Staff
- Maintenance Team
- Outside Vendor

Work order assignment is predetermined and automatically sent out for recurring & scheduled P.M.

4. Mobile Assignment

- Individual Staff
- Maintenance Team
- Outside Vendor

Work order is created or received and then assigned all within the Mobile Facilities App.

Work order assignment notifications can be sent via email, text, fax, or in app mobile (push) notification.
