

# Inventory Management

Ensure parts & materials are accounted with efficient reordering.

## Easily link Inventory & parts to facilities management

Parts and supplies are critical to maintaining buildings, facilities, plants, and manufacturing lines. Quick, flexible access and full accounting of parts use are what you get with NetFacilities. Inventory tracking ties in seamlessly with the rest of the operations platform, including Mobile access. Designed for the way you really work.

- Associate parts used with Work Orders
- Associate with Preventive Maintenance
- Set multiple storage areas (warehouses)
- Set re-order levels to maintain stock levels
- Deplete stock in real-time on work orders
- Set auto ordering when stock is low
- Purchase and receive parts
- Easily locate parts and supplies
- Search parts locally or across multiple sites
- Attach files & MSDS to parts/supplies
- Inventory specific reporting & analytics
- See parts/supplies consumption & costs
- Available on Apple iOS & Droid MobileFacilities App

**Flexible Setup. Easy to Use. Full Accountability.**

Easily track and manage your inventory and spare parts. Whether you are using parts in the field, or accounting for them in the office, the NetFacilities platform provides access to the information you need to do your job efficiently. Configurable tools deployed for the way you really work.

## Integrates With:

- Work Orders
- Preventive Maintenance
- Asset Management
- Labor Tracking
- Inspections
- Vendor Control
- Invoicing
- Mobile App

## Results:

- Increase productivity
- Cost Tracking & Control
- Reduce parts spending
- Easy oversight
