- Track lock cylinders including length and type
- Track Key ID number and associated cylinder
- Synch cylinder pin and key number for key cutting
- Upload floor plan drawings
- Map lock locations (doors)
- Create custom Key Issuance Form
- Set key return deadlines and notifications
- Complete activity logs and audit trail
- Secure, role-based permissions
- Also on iOS Apple and Droid phones and tablets

Secure. Flexible. Easy to Use.

Keeping track of the many keys and locks in a facility can be a handful for maintenance organizations. Yet this is a vital component to the safety and security of the building and your tenants.

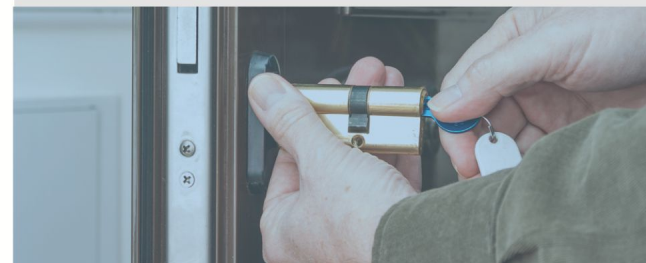

The NetFacilities platform allows you to assign keys to specific doors and employees, or implement comprehensive mapping of the entire key system. You choose what data you want to track.

Track and Manage:

- Lock types
- Lock cylinders
- Cabinets; row and hook
- Key holder assignments
- Key groups or rings
- By Areas or Departments
- Past due notifications

Results:

- Improved Efficiency
- Improved Security
- Reduced costs
- Better Service
