

MobileFacilities App

Operate, execute, and manage from anywhere.

The ability to work and manage from anywhere will change your business. Keep everyone connected and provide access to essential building and job-site activity information at all times. You can do all this and more with the MobileFacilities App.

Mobility is essential for today's Facilities Management

The value of information is being able to have it whenever and wherever you need it. Capture and enter important information on site, from the field, in real-time for maximum efficiency.

- Apple iOS and Droid Mobile devices SmartPhone or Tablet
- See, capture, and enter data in real-time
- Communicate interactively
- Enter, manage, and track work orders
- Enter, manage, and track Preventive Maintenance
- See, track, and manage assets & equipment
- See specific steps for each maintenance event
- View entire work history, images & attached documents
- Automatic reminder notifications
- Scan asset barcodes
- Access vital attached files
- Dashboard view for quick workload assessment
- Real-time inventory tracking and updates

Flexible. Easy to use. From Anywhere.
