Non Profit Organizations

Understanding the maintenance needs of nonprofits.

Food Donations

Nonprofit organizations have a special very important mission. At NetFacilities we have years of experience helping such maintenance and service operations run efficiently.

Whether you are a facilities manager, property manager, technician, engineer, administrator or other, you will have fingertip access to the information to do your job. The system is designed and deployed to meet your specific needs.

NetFacilitites: Configurable tools deployed for your business processes.

Integrated Workflows:
• Work Orders
• Asset Management
• Preventive Maintenance
• Labor Tracking
• Inventory and Materials
• Inspections
• Vendor Management
• Key management
• Mobile App

Results:
• Improved Efficiency
• Improved communications
• Easier oversight

Service, Compliance, and Record Keeping, all in one.

Can assign work automatically or dispatch via flexible individual, team, or vendor notifications.

• The at-risk people you serve, and your cause, depend on you
• Great for churches, youth organizations, developmentally disabled outreach, community services, treatment facilities, residential housing units, and more
• Protect and maintain facilities, assets, and supplies
• Track and control inventory
• Meet operational budgets and improve asset lifecycle
• Preventive maintenance and streamlined facilities operations
• Work can be tied to an asset schedule or as a recurring task
• View Entire work history, attached documents
• Collect cost for work items
• Calculate completion ratios and performance
• Follow up with interactive discussions
• Communications and alerts
• Verify user and requester satisfaction...And much more
• Available on iOS Apple and Droid phones and tablets

Easy to use.   Flexible.   Full records and reporting.
