

# Preventive Maintenance

Ensure equipment care and scheduled maintenance are on point.

Track and manage the scheduled and recurring maintenance of your assets and equipment - all on a secure centralized work hub.

## The new way to manage Preventive Maintenance

Assign work automatically or dispatch via flexible individual, team, or vendor rules, with notifications + Mobile access.

- Immediate ROI by preventing equipment failures
- Can be tied to an asset and a specific schedule
- Specific steps for each maintenance event
- View entire work history with attached documents
- Set recurring tasks with scheduled intervals
- Automatic reminder notifications
- Cost tracking for specific assets
- Barcode asset verification
- Load asset-specific files like images and documents
- Calculate completion ratios and performance
- Tracking vendor or employee performance
- Following up with interactive discussions
- Full audit trail, analytics, and reporting
- Available on Apple iOS and Droid Mobile App

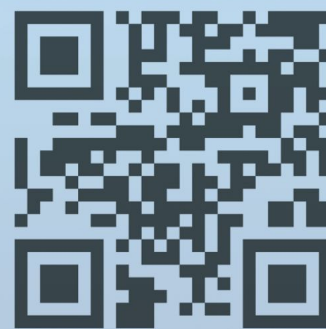

**Flexible Setup. Easy to use. Full Accountability.**

Make tracking and managing your preventive maintenance easy whether you are a facilities manager, property manager, technician, engineer, administrator, or other role.

The NetFacilities platform provides access to the information you need to do your job and protect your assets. Configurable tools deployed for your business processes.

## Integrates with:

- Asset Management
- Work Orders
- Labor Tracking
- Inventory and Materials
- Inspections
- Vendor Control
- Barcode Scanning
- Internal Communication
