

PRESS RELEASE

Teleios Collaborative Network ranked as one of the Best Places to Work in 2021

September 17, 2021

Flat Rock, NC – Teleios Collaborative Network (TCN) has been ranked No. 2 among healthcare suppliers in Modern Healthcare’s 2021 Best Places to Work award program. The complete list of this year’s winner rankings is available at ModernHealthcare.com/bestplacestowork. Modern Healthcare will publish a special supplement featuring the ranked list of all winners along with the September 20 issue of MH magazine.

“We are humbled and grateful to be acknowledged by Modern Healthcare Best Places to work as the No. 2 best place to work in America in the supplier category. Our entire organization including our Board of Directors, staff and our TCN Members strive to make each other better every day in our interactions and in our work. Our team is humbled to be named to such a prestigious list of organizations, many of which have been in existence for decades, during our fourth year of service. What an incredible accomplishment to debut at No. 2. We are early on our journey, and this is a great milestone and a confirmation that keeping our mission, vision, and values front and center along with hiring very talented people is the foundation for great things to happen,” said Chris Comeaux, TCN’s President and CEO.

Modern Healthcare partnered with the Best Companies Group on the assessment process, which includes an extensive employee survey. While this program has evolved over the years, its mission remains the same: recognizing workplaces that empower employees to provide patients and customers the best possible care, products and services.

As the healthcare industry sits squarely on the frontlines of this pandemic, the mission of the Best Places to Work program has only become more important. Healthcare leaders have proven that creating nurturing, supportive workplaces for their most valuable asset, their employees, is vital.

“The healthcare workforce has undergone a true test in the past year and a half, oftentimes pitting employees against employers. So how best to keep harmony in a workplace that is inherently stressful? This year’s winners have an easy tip to incorporate: show respect. In high-performing and successful teams, regard for employees’ well-being, acknowledgment of their contributions, and deference to their experience and dedication all helped maintain professionalism and productivity,” said Aurora Aguilar, Editor of Modern Healthcare. “We congratulate all of the Best Places to Work in Healthcare for emphasizing that compassion and respect are essential to an engaged and productive workforce.”

Teleios Collaborative Network was honored at the 2021 Best Places to Work Gala on Thursday, September 16. This is the 1st year that Teleios Collaborative Network has made the list.
