

LINCOLN NEWARK GAINSBOROUGH

LAINSBOROUGH

A young woman with blonde hair and a nose ring smiles at the camera. The background is bright blue with white hand-drawn doodles including stars, swirls, a heart, a smartphone, and a spool of thread. Large, stylized white text with black outlines reads "YOUR FUTURE IS INSIDE". In the bottom left corner, there is a yellow and orange graphic element.

SPECIALIST COURSES

32

Air and Defence College

Available at Lincoln College, this programme provides specialist training for RAF and wider defence sector careers in engineering, ICT and catering.

35

The Care College

Specialist training in conjunction with major care home employers, including the industry recognised Care Certificate qualification.

36

Policing College

Training in partnership with Lincolnshire Police and G4S, providing career pathways into police support apprenticeships, along with PCSO and police officer jobs.

39

The Construction College

Operating across Lincoln and Gainsborough Colleges, this programme, which has been designed by construction employers leads to careers in the construction industry in brickwork, plumbing, painting and decorating. The programme included the industry recognised health and safety CSCS card.

43

Gainsborough College

Gainsborough College is a centre of excellence for construction and engineering courses. For engineering it is the home of Made in Gainsborough, a specialist two-year apprenticeship programme for careers in manufacturing in the West Lindsey area.

Look out for our Specialist Training Colleges

40

Risual Microsoft Academy

Digital apprenticeships for IT Infrastructure Technicians, Digital Marketing, Software Development and Information Analysts in a state-of-the-art Microsoft Showcase Classroom.

Check out our Specialist Apprenticeship Scheme!

Team KnowHow

In partnership with Team KnowHow at Newark – here students take part in paid work experience while they complete their IT software course at Newark College

COLLEGE LIFE

1

THIS ISN'T SIXTH FORM

It's more like university. You'll be treated like a young professional if you act like one and our facilities are designed to reflect the workplace.

2

FREEDOM TO MANAGE YOUR TIME

You will have more freedom to manage your time, you'll be able to express your individuality and you'll have a more professional working relationship with your tutors.

3

SAFE PLACE TO STUDY

You will be in a safe and inclusive environment where our students tell us they are bullied less and accepted for who they are more.

4

GET YOU CAREER-READY

These freedoms are balanced with our aim to get you ready for the career of your choice.

5

HIGH QUALITY WORK EXPERIENCE

You will not just be taking a course with us – you will be enrolling onto a Study Programme, which will further develop your maths and English skills and ensure you get high quality work experience with one of the 1,200 local firms we have a relationship with.

6

ACCESS AMAZING LEISURE & SPORTS FACILITIES

Our training spaces replicate the workplace and you'll have access to amazing leisure and sports facilities, along with great places to study, relax and eat.

7

YEARS OF INDUSTRY EXPERIENCE

Many of your tutors will have years of industry experience to pass on to make sure you are career-ready.

8

SUPPORT YOU NEED

We also have a team focused on giving you the financial, emotional, psychological and career development support you need to succeed.

*If we work hard together
you will go on to a lucrative
and rewarding career.*

YOUR FUTURE
LOOKS BRIGHT

COVID-19

SAFETY FIRST

We are no different to any other business or organisation in that we found 2020 the lockdown and social distancing restrictions hugely challenging.

Thankfully our amazing staff and students rose to those challenges and we managed to shift our entire teaching and learning operation online in a matter of days.

We continued to teach and train throughout the lockdown period and our engagement rates were fantastic.

As the restrictions eased we managed to safely allow several hundred students back on site to complete essential vocational assessments.

And in September we opened our campuses up to our new intake, with a blended approach, but predominantly with face-to-face teaching and learning in our colleges.

Since then we have invested in a new virtual learning platform for our students that will make our online teaching even more engaging.

We don't know what 2021 will bring, but we want to reassure you that we have the capability, capacity and experience to keep our students safe in all circumstances.

Can't wait to see you!

UNRIVALLED FACILITIES

Our campuses are designed to support your learning, inspire you to improve and keep you safe and healthy.

Our workshops, studios and study zones are equipped to industry standards to replicate real working environments and prepare you for your career.

Many sixth forms now offer technical qualifications in construction and engineering, but they cannot match our amazing workshop environments. If you choose us you'll be using trade-standard machinery and tools in an environment that truly reflects the workplace – and that means you'll be ready to hit the ground running when you start your career.

You'll also have access to well-stocked, modern library facilities with extensive online research and study tools. You'll be able to book out study areas to work on team projects or just to secure a quiet space for yourself.

You can also benefit from workshops designed to improve your study and revision skills, use the library more effectively and learn how to do referencing for your assignments.

We believe in working hard and playing hard so we have ensured that our campuses have great leisure facilities including canteens, coffee shops and Sessions House, a top restaurant staffed by our students.

Our sports facilities are second-to-none with a high-tech gym and performance lab, spa pool and steam rooms, outdoor gym, squash and basketball courts and much more.

Lincoln College is now also home to Escape Lincoln, the best escape rooms in the City. You'll be able to play amazing games like Sherlock, The Games, The Magic Emporium and Contagion at a discounted rate.

Above all you will be safe at our Colleges. Health and safety is a top priority and our security teams are always on hand to reassure and prevent disruption to college life.

OUR FACILITIES ARE EQUIPPED TO INDUSTRY STANDARDS TO REPLICATE REAL *WORKING* ENVIRONMENTS!

*That means you'll be ready to
hit the ground running when you
start your career.*

OFSTED: GOOD

Lincoln College, including its campuses at Newark and Gainsborough, is graded as Ofsted Good.

Inspectors said the College was meeting the needs of local employers, learners and the wider community, with students progressing to positive career destinations.

Also the industry expertise of teachers motivated students to make good progress and develop the skills they need in the workplace.

The three campuses were assessed by a team of inspectors in March 2018.

Inspectors also commented that leaders at the Colleges have created a culture where staff are “focused on the craft of teaching” and that learners received “very effective support”.

Lincoln College strives to maintain and improve on its standards and to offer the very highest levels of support to its students. The College’s mission is to be; ‘employer-led; producing a highly skilled and productive local workforce’.

Being employer-led means we listen to employers and involve them in the planning and design of our curriculum.

By doing this we can be confident that the education and training we provide is giving our students the skills and knowledge they need to succeed when they start their careers.

STUDENT SUPPORT YOU TO SUCCEED

ADDITIONAL LEARNING SUPPORT

We offer support to learners with a learning difficulty, disability, medical condition or a mental health difficulty, including:

- Hearing and visual impairment
- Mental health problems
- Specific learning difficulties related to Dyslexia
- Autistic Spectrum Disorder/Asperger Syndrome
- Physical disability
- Learning difficulties/emotional and behavioural difficulties

To find out more contact the Assessment Team on: **(01522) 876225** or **assessmentofficer@lincolncollege.ac.uk**

COUNSELLING AND PASTORAL SUPPORT

Support can be provided for any emotional or personal difficulties learners might encounter. Confidential appointments can be arranged with a Counsellor. To find out more contact Student Services on **(01522) 876220**, or email **studentservices@lincolncollege.ac.uk**

If learners need spiritual guidance, the Chaplains can offer support to people of all faiths and denominations. To find out more please email: **chaplancy@lincolncollege.ac.uk**

We aim to remove any barriers that get in your way when it comes to landing the career of your dreams.

MENTAL HEALTH SUPPORT

The College has a named Mental Health Coordinator who works alongside the Assessment and Support Team. Fran Oxley provides mental health support to students and staff, and also liaises with external agencies when required.

MONEY MATTERS

Financial support is available for eligible full time study programme learners. Contact **welfare@lincolncollege.ac.uk** for further information.

16-18 EXTENDED BURSARY

This is worth up to £1,200. To be eligible, learners must be aged 16-18 and either a Local Authority Care Leaver, in Local Authority Care, in receipt of Income Support or Universal Credit, in receipt of Employment Support Allowance or Universal Credit and Disability Living Allowance or Personal Independence Payments. Other rules may apply. Contact **welfare@lincolncollege.ac.uk** for further information.

HOME TO COLLEGE TRANSPORT SUPPORT

Learners travelling to College to study may be eligible for financial assistance. The Welfare Team can also offer advice about Lincolnshire and Nottinghamshire County Council post 16 transport support. Contact **welfare@lincolncollege.ac.uk** for further information.

19+ FE FEE SUPPORT

Information can be offered about help with fees for courses up to and including Level 2, through the Lincoln College Fee Remission Policy. Email **enquiries@lincolncollege.ac.uk** Contact **welfare@lincolncollege.ac.uk** for further information.

FREE COLLEGE MEALS

Learners who come to College to further their education may be able to access free meals (subject to eligibility), just as they would at a school sixth form. Contact **welfare@lincolncollege.ac.uk** for further information.

CHILDCARE SUPPORT

For those students who require childcare whilst they study, there may be financial support available (eligibility criteria apply). Contact **welfare@lincolncollege.ac.uk** for further information.

ADVANCE LEARNERS LOANS

These are available to FE students aged 19+ studying at Level 3 or above. They help with the cost of course fees. For more Advanced Learner Loan information contact us at **advancedlearnerloans@lincolncollege.ac.uk**

FURTHER EDUCATION (FE) LEARNER SUPPORT FUNDS

We can also help with other course-related costs such as uniform and equipment, childcare fees, UCAS fees and travel (subject to eligibility). Contact **welfare@lincolncollege.ac.uk** for further information.

BE EXTRAORDINARY

IT'S NOT JUST A COURSE

Education is
Progress

DETERMINATION
TO SUCCEED

BE COURAGEOUS

IT'S GETTING YOU READY FOR A CAREER

We have strong links to around 1,200 regional employers, from FTSE 100 companies to smaller businesses.

We are led by those employers in the way we design our programmes. We listen to them constantly and change to reflect their needs. That means you're better prepared for the working world.

Without fail, employers tell us that more work is needed to improve the communications skills, confidence and maths skills of new recruits – that's why we teach Study Programmes – not courses.

Your Study Programme will consist of your qualification, plus a requirement that you improve your maths and English skills while you are with us. If you didn't pass your GCSE in these subjects you will do a resit or a functional skills exam. If you did pass we'll still work with you to improve your literacy and numeracy even more.

We do this to ensure you have a better chance in interviews for the career of your choice.

Your Study Programme also consists of as much high quality work experience related to your course as possible.

You must take some responsibility for making this happen, but we will support you all the way with advice, guidance and practical help.

CLOSER TO THE ACTION

*I've made so many new friends
here who I would never have met
if I'd stayed at school*

One of the main benefits of coming to Lincoln, Newark and Gainsborough Colleges is the fact that they're on the doorstep of the City and town centres.

You'll have a lot more free time than you're used to. It's up to you whether you get a part time job close by or just enjoy yourself and relax.

Lincoln is a beautiful, buzzing City with a great mix of heritage and modern living. You'll be a five-minute walk from top high street shops and great independent traders, coffee shops, restaurants, bars, a multiplex cinema and places to hang out.

Whatever your passion, from music, film and literature to sport, gaming, shopping, beauty or eating, there's something for you.

Newark College is a stones-throw from the Market Place, with similar shopping and leisure facilities, great coffee shops, places to eat and parks to hang out.

Gainsborough College is a short walk from the Town Centre and Marshall's Yard with plenty to keep you occupied in downtime. All of our Colleges are easily accessible by car, bus or train.

THE LEVELS GUIDE

This information should help you understand the right choice for you, but if you're still unsure, get in touch!

Understanding the different levels and qualifications you might study after your GCSEs can be confusing.

Degree Apprenticeship

ALL ABOUT APPRENTICESHIPS

The qualifications can take you up to the same level as a degree... and you get paid too!

Apprenticeships are simple. You start working straight away and study towards a qualification on-the-job. An assessor will visit you in your workplace to support you with training; and for some qualifications you may need to also come into college.

Apprenticeships are great if you want to get straight into the workplace and start earning some money while you build up the qualifications you need for your career. If your employer supports you it's possible to train to the highest degree-level qualifications through apprenticeships.

And that means they're not just for young new recruits. For example you might study Level 2 and 3 courses with us before hooking up with an employer and doing a Level 4 or 5 apprenticeship.

IMPORTANT INFORMATION FOR SCHOOL LEAVERS:

To start an apprenticeship you need to find a company that's prepared to employ you as an apprentice. This might not always be possible by the start of term after you have finished your GCSEs.

It is a legal requirement to be in full time education, employment or training before the age of 18, so our advice is to apply for a full time course that is related to the apprenticeship you want to do.

On your application form tick the box that asks you if you are interested in an

apprenticeship. We will try to match you to a vacancy before the start of term in College, but if that's not possible you will still have an offer of a College place to fall back on in September.

Don't worry, if you still want to be an apprentice you can, still attend special tutorials to help you find a vacancy, work on your applications and prepare you for interviews. Our aim will be to find you an apprenticeship while you study.

To check the latest vacancies visit www.lincolncollege.ac.uk

“ I love having the chance to train in a salon and gain work experience too. I am really enjoying my apprenticeship. ”

Ellie Johnson

“ An apprenticeship was a great way for me to learn a new skill as a mature student. It opens up opportunities for the future. ”

Andrew Wood

“ Apprenticeships are pretty flexible, you get lots of help from tutors. The company I work for are really supportive too. ”

Johnny Watson

YOUR JOURNEY WITH US

Find out about us

Search to find the course you want or browse our Career Choices to help you make your mind up. If you're stuck, call for careers advice and we'll make an appointment for you to come and talk to someone.

Open Days

Look at the 'Open Days' section of the website to get dates of when you can come and see us. You can tour the campus, chat to tutors and get careers advice here too.

Apply Online

When you've decided on a course or apprenticeship fill in your online application. On your application you'll be asked to pick a date to come in for a Welcome Day. It's really important that you do this.

Offer of acceptance

You will receive an email offer which you must accept to secure your College place. We'll then send you an email to complete the first stage of your enrolment online. Details will follow on when you come into College to collect your student ID.

Welcome Day

Once we've processed your application you'll be asked to attend your Welcome Day. On the day you'll have a tour, chat to tutors, have an interview and do some basic maths and English tests. Don't worry you don't need to prepare for them and the results won't count against your application – we use them so we know your literacy and numeracy starting level when you come to us. You'll be made a conditional offer (subject to your GCSE results) on the day.

Check your email

We'll communicate with you and your parent, guardian or nominated responsible adult via text and email so keep an eye out for these messages.

**Lincoln College works in partnership with
The Royal Air Force and a raft of top aerospace
industry firms to provide this unique training model.**

Our carefully designed study programmes, which now runs at Lincoln College, have been shaped by our industry partners, offer a unique blend of academic education and technical training, infused with an additional focus on leadership, communication and team building.

Our students will get involved with industry-set projects, co-designed by employers equipping them to enter their career of choice, ahead of the game and ready to progress. College students will spend a significant proportion of time experiencing industry environments firsthand through an extensive programme of work experience, and industry experts will join their tutors at College to pass on their knowledge and expertise.

Core academic study areas like Maths, English and Science will be contextualised to the specialism of the College and digital skills development will be a major priority.

Our Air & Defence College is an amazing opportunity to pursue a career with the RAF or the wider aerospace industry. It enables students to complete their core academic studies, alongside full time technical training, creating a clear pathway to an exciting, rewarding future.

Graduates are guaranteed a place on RAF Basic Recruit Training (subject to RAF entry criteria) and will be well equipped to pass first time. If students decide not to enter the RAF, they can progress to employment, an apprenticeship or further study for a career in the aerospace industry.

COURSE INFORMATION:

- Studied in Lincoln at the Air & Defence College site, including practical workshops at Lincoln College
- Programme includes employability skills (attitudinal goals) or GCSEs in English and Maths (dependent upon existing qualifications)
- Approximately 30 hours per week in College / employer-setting
- A blend of practical and theory with a range of assessment methods
- A minimum of 2 hours per week of personal training to develop physical fitness
- Progression to Level 3, employment or an apprenticeship
- Courses offered: Computing L3, Engineering L2 & 3, Catering L 1, 2 & 3, Hospitality L1 & 2 (Fast Track Option)

HOW TO APPLY:

Find the course on lincolncollege.ac.uk and click the 'Apply Now' button to submit your application form online.

THE CARE COLLEGE

*Be part of a family that
supports families*

The Care College, based at Lincoln and Newark Colleges, is a unique training experience which has been designed by our industry partners to give 16 to 19-year-olds the technical knowledge, values and experience needed to build hugely rewarding careers in the care sector.

Industry experts from the Orders of St John Care Trust (OSJCT), The Priory, LinCA, Walnut Care, Home from Home Care and Wispington House have designed an industry-led curriculum and provide unique levels of on-the-job training in care home settings.

Our values-based recruitment process reflects industry in selecting intelligent, compassionate, empathetic and practically-minded young students who are suitable to care for and protect some of the most vulnerable people in our communities.

This is the only further education care course in the UK that enables students to complete the Care Certificate, a sought-after industry qualification that traditionally could only be completed once someone had started working in the sector. This makes our graduates significantly more employable on completion of their course.

Our Lincoln Care College has now been up and running for a year with excellent recruitment rates and great outcomes for our students, who have spent a significant amount of time with our industry partners.

Our Newark College Care College opened in September and is now working with more local industry partners to shape the learner experience and facilitate students gaining their Care Certificate.

HOW TO APPLY:

Find the course on lincolncollege.ac.uk and click the 'Apply Now' button to submit your application form online.

HOW TO APPLY:

Find the course on lincolncollege.ac.uk and click the 'Apply Now' button to submit your application form online.

The Policing College is the first of its kind in the UK. It offers an exciting opportunity to train for vital roles with Lincolnshire Police and its strategic partner, G4S.

The College has been designed to train school leavers to prepare them for apprenticeships and jobs in police support roles and to provide a pathway for students to study a Professional Policing Degree and join up as police officers.

All students will spend a significant amount of time in police environments, training with officers and hearing from expert guest speakers from the Police and G4S.

The Study Programme will also have a focus on physical fitness, health and well-being, resilience, problem solving and leadership. Students will continue English and Maths studies to improve their literacy and numeracy.

THIS COURSE PREPARES STUDENTS FOR POLICE STAFF JOBS AND APPRENTICESHIPS:

- Emergency Call Handlers
- Custody Officers
- Police IT Support workers
- Police Analysts
- Police HR Officers
- Police Business Administrators

Many police staff in these roles progress into PCSO and police officer roles.

All students will complete work experience focused on community service, in line with the Lincolnshire Police values of Policing with PRIDE, which stands for Professionalism, Respect, Integrity, Dedication and Empathy.

Level 3 students will also have the opportunity to progress onto a new Professional Policing Degree which started in September 2020 (subject to validation by the University of Derby).

This enables students to study a degree that will qualify them to join Lincolnshire Police as a serving Police Officer, subject to the Force's recruitment policies and procedures. If appropriate and possible our degree students will also serve as Lincolnshire Police Specials.

COURSE INFORMATION:

- Courses offered: L4, L5 and L6
BA (Hons) Professional Policing,
(subject to validation)

#CONSTRUCTIONCOLLEGE

THE CONSTRUCTION
College

Lincoln College's Construction College provides employer-led, career focused education and technical training for 16 to 19-year-olds.

Our employer supporters work closely with us to provide this unique and innovative model, which is designed to create secure career paths for young people and address growing skills gaps in Lincolnshire.

Our carefully designed study programmes, which have been shaped by our industry partners, offer a unique blend of academic education and technical training, infused with additional focus on enterprise, communication and team-building.

Our students will get involved with industry-set projects, co-designed by employers - equipping them to enter their career of choice, ahead of the game and ready to progress.

Construction College students will spend a significant proportion of time experiencing industry environments first hand through an extensive programme of work experience, and industry experts will join their tutors at College to pass on their knowledge and experience.

LEVEL 1 CERTIFICATE:

- Trade options at Gainsborough include Brickwork and Carpentry & Joinery
- Programme includes employability skills and Functional Skills or GCSEs in English and Maths (dependent upon existing qualifications)
- Approximately 30 hours per week in College/Work
- A blend of practical and theory sessions
- Progression to Year 2, employment or an apprenticeship

LEVEL 2 DIPLOMA:

- Trade options at Gainsborough include Brickwork and Carpentry & Joinery
- Programme includes employability skills and Functional Skills or GCSEs in English and Maths (dependent upon existing qualifications)
- Approximately 30 hours per week in College/Work
- A blend of practical and theory sessions
- Progression to appropriate Level 3 programme, employment or an apprenticeship

HOW TO APPLY:

Find the course on **lincolncollege.ac.uk** and click the 'Apply Now' button to submit your application form online.

RISUAL MICROSOFT ACADEMY

Our Digital Academy, run in partnership with Microsoft and Risual Education Ltd, boosts digital skills through apprenticeship training in IT, digital marketing, software development and cyber security.

Apprentices train in a custom-designed, state-of-the-art Microsoft Showcase classroom on Microsoft Surface Pros, with an 84-inch Microsoft Surface Hub used as a teaching aide.

The Academy has been launched as a direct response to skills shortages identified by Greater Lincolnshire employers and will offer secure and lucrative careers for apprentices of all ages.

The apprenticeships are flexibly designed to meet employer needs and linked to industry recognised vendor qualifications (Microsoft MOS, MTA, MCP).

SPECIALISMS:

- Level 3 IT Infrastructure Technician
- Level 4 Software Developer
- Level 3 Digital Marketer
- Cyber Security Specialist
- Information Analyst

#CONSTRUCTION

GAINSBOROUGH COLLEGE

THE CONSTRUCTION
College

MADE IN GAINSBOROUGH
Engineering Excellence

BY GAINSBOROUGH COLLEGE

A Centre of Excellence for engineering and construction training

Gainsborough College works with local employers to secure careers for people in the construction and engineering sectors

Our tutors have all worked in industry and have the knowledge and experience to help you succeed.

Our workshops have industry standard equipment and we have strong relationships with local employers who help to design our courses, take students on work experience and hire them as apprentices.

Gainsborough College is home to Made in Gainsborough, which specialises in apprenticeships and courses designed by major local manufacturing firms. It is also home to the Construction College, which runs brickwork and carpentry and joinery courses designed by construction firms to meet their needs.

Both of these Centres of Excellence provide opportunities for students to spend significant amounts of time in the workplace with employers – preparing them for their future careers.

MADE IN GAINSBOROUGH

Made in Gainsborough is a unique opportunity to build a career in engineering in Gainsborough through an apprenticeship with some of the town's best-known firms.

Our Made in Gainsborough partners; AMP Rose, EminoX, Wefco, Regal, Trepko, Clean Tech, A Schulman and Hooton Engineering are all looking for school-leaver and adult apprentices to work for them.

These firms worked with Gainsborough College to build this new Centre of Excellence as they were finding it difficult to fill their job vacancies with highly skilled local people.

Our apprentices will earn money from day one and successful candidates, who complete their two to three year Level 3 apprenticeship, will secure a long-term career in engineering.

MADE IN GAINSBOROUGH
Engineering Excellence

COURSE DETAIL:

In year one apprentices will develop their general engineering knowledge, predominantly at Gainsborough College in an environment that reflects real-life industry settings.

One day a week will be spent with their employer, either at College or in the workplace. This year is focused on getting apprentices career-ready, so they can safely transition into their company workshops.

In year two the model reverses and apprentices spend four days a week with their engineering employer and one-day a week at College.

At the end of the training programme an independent assessment will take place and those who pass will secure regular jobs on great salaries with their firms.

SPECIALISMS CAN INCLUDE:

- Mechanical Engineering
- Manufacturing Engineering
- Fabrication & Welding
- Mechanical & Electrical Maintenance

TEAM KNOWHOW

Newark College has teamed up with Team KnowHow to form a unique collaboration, providing young people with paid work experience for Europe's leading specialist electrical and telecommunications retailer and services company.

Top performing Level 3 candidates are selected and employed by Team KnowHow on a part time basis to carry out IT hardware repairs, while they study for their IT Software qualifications. All Level 3 candidates can undertake 30 hours work experience with Team KnowHow specialists.

Once students graduate they will either leave fully qualified with a line on their CV that proves they are a top candidate for employment, be offered a permanent position with Team KnowHow, or a place on an IT apprenticeship with the firm – securing a bright future in the IT industry and enabling them to build their lives in the Newark area.

COURSE DETAIL:

The purpose of this micro-college, based at our Newark Campus, is to train highly skilled technicians for Team KnowHow. The top Level 3 students will be in paid employment at the firm's Newark plant, working two days a week. While at College they will study in the state-of-the-art Team KnowHow suite, wear a Team KnowHow uniform and benefit from immersion in an industry environment.

These courses offer unrivalled career opportunities in the Newark area and spaces are limited so please express an early interest.

SPECIALISMS:

- Business
- Electronic Maintenance
- Warehousing

A LEVELS & ACCESS TO HE

Is Higher Education the route for you?

A levels are a great option for those who want to pursue academic learning and go on to Higher Education with a Lincoln College Career Degree (see page 106).

For Adults over 19 looking to progress to higher education, our Access to HE Pathways may be more appropriate, as they are one year not two, and you can use an Advanced Learner Loan which will be waived once you graduate from your degree.

And don't worry if you haven't done GCSEs or you don't quite get the grades you were expecting.

We can help you with that too via our Pathway programme or adult evening classes, that will enable you to sit or resit GCSEs to get you onto the A Level courses or Access to HE programme you're after.

ANIMAL & EQUINE CARE

Do you have a passion for looking after animals/horses? Our courses in Animal Care and Equine Care are a great place to start your career.

Whether you want to work in a livery yard, rescue centre, kennels or even a zoo, we can help you on the path to an exciting future.

There are lots of interesting jobs caring for animals and horses, ranging from Animal Care Worker to Veterinary Nurse and Pet Shop Assistant to Dog Handler.

For Animal Care you'll be studying at Rand Farm Park and for Equine Care you'll be studying at Brook House Farm at Scamblesby. Both are top industry-standard sites and great learning environments.

The courses are so different to anything I'd done in school and will help in my future career

BUSINESS

*Do you want to be the
next Alan Sugar?*

Employers look for **exceptional people**
to help build their company; we will
prepare you for an exciting career in the
fast-paced world of business.

If you are organised, good at
communicating and problem-solving,
and work well as part of a team, we offer
a range of courses and apprenticeships to
start your career.

CATERING & HOSPITALITY

Our tutors are chefs who've worked in the industry

Fancy being the next Jamie or Nigella? Our courses are taught by industry-trained chefs, giving you expert guidance on making it in this fast-paced career.

We know how important practical, on-the-job experience is, so you will work in our on-campus Sessions Restaurant which is **open to the public.**

If you are passionate about food, can work in a busy environment and communicate well as part of a team, our courses will lead you to a rewarding career in Catering and Hospitality.

Our hospitality courses offer great opportunities that could lead to careers as bar managers, cocktail mixologists or master baristas in coffee houses.

We have also launched the first Air & Defence College in the UK at Lincoln, backed by the RAF, Thales, Raytheon and AAR. Here, the catering curriculum is designed by the employers and you spend a significant amount of time training in the workplace and take part in industry-set challenges. Please request an Air & Defence College brochure if you're interested.

CARE SERVICES

If you're a caring person who enjoys working with adults and children, then a career in Health and Social Care or in Early Years will give you the chance to really make a difference.

Whether you want to be a Nurse, Occupational Therapist or Social Worker, our courses will give you a route into employment or further study.

Many of our programmes offer the chance to gain valuable experience in a working environment.

If your future lies in working with children our experienced childcare tutors will give you the skills you need, with a range of full time courses and apprenticeships.

With work placements in nurseries and primary schools, you will have the practical experience to get a head start in your career.

I always knew I was passionate about enhancing the lives of others from a very young age

Get a career in a cutting-edge, fast-paced and ever-evolving industry.

Computing is growing across almost all industry sectors, leading to lots of new and exciting careers in computing, coding and game design. Our courses blend practical work with theory to give you an in-depth understanding of different aspects of computing.

An amazing new collaboration with tech-giant Team KnowHow means our Level 3 Newark based Computing and Hardware courses benefit from unique industry links.

Students will study three days a week at Newark College. Students can complete 30 hours work experience at Team KnowHow as part of their course and the top Level 3 students will be paid by Team KnowHow to work two days a week on IT Hardware repairs at its state-of-the-art service centre.

At the end of the course there could be a job with Team KnowHow, starting on £18,000 a year, an apprenticeship, or a great line on your CV to say you've worked for one of the UK's biggest firms.

We have also launched the first Air & Defence College in the UK at Lincoln, backed by the RAF, Thales, Raytheon and AAR. Here, the computing curriculum is designed by the employers; you spend a significant amount of time training in the workplace and take part in industry-set challenges. Please request an Air & Defence College brochure if you're interested.

Level 3 students have progression opportunities to BSc Computer Science within the computing department.

CONSTRUCTION

The skills I have learned here will help me progress in the future

Building on the success of our employer-led Construction College at Gainsborough, this approach has now been expanded across all construction trades at Lincoln.

Our course are being redesigned and enhanced by local construction employers and supplier firms. We already have the Dulux and Bell Group Academies training students and staff in painting and decorating and this year we are opening the Gusto Homes ECoNstruction Centre of Excellence, where trade experts will teach our students about eco-friendly and sustainable building materials and techniques.

We have big ambitions for the development of our construction training and our aim to see our students working on real-life renovation and house building projects as they develop their skills.

Our close relationships with employers dramatically increases employment opportunities for our students and we also run skills competitions that can lead to exciting apprenticeship opportunities.

MUSIC

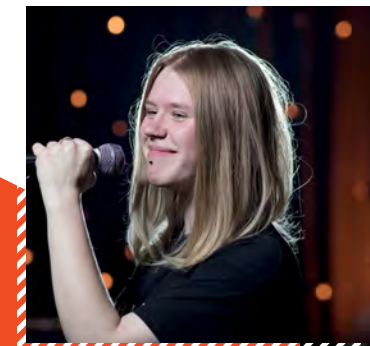

Whether you want to be behind the mic or behind the glass in the studio, our courses offer the perfect grounding to enter the music industry as a performer, musician or sound engineer.

You'll learn all the skills you need to go on to higher education, or break into the music industry, under the watchful eyes of our tutors, who've done both.

Our courses are designed to suit a wide range of musicians from drummers and guitarists, to vocalists and brass players. You will learn about the history of popular music, the music industry, music theory and music production, whilst being encouraged to compose and perform in genres of your choosing.

The Lincoln College music course has a very high acceptance rate into music colleges such as BIMM, Goldsmiths and Leeds College of Music. Past students are currently pursuing a multitude of successful careers including session work, touring, journalism and production.

You will be based in our own dedicated performance space which has a 180-seater theatre, dressing rooms, dance studios, rehearsal rooms, recording studio, MAC suite and technical theatre workshop.

(A) Apprenticeship

MUSICAL INSTRUMENT CRAFT

Our School of Musical Instrument Craft has a **worldwide reputation** of excellence.

If you have a passion for traditional crafts and enjoy working with musical instruments these courses will prepare you well for our degree courses in Musical Instrument Crafts:

- Violin making
- Guitar making
- Piano tuning & restoration
- Woodwind instrument making & repairing

Become a highly specialised craftsperson by training 'at the bench' with tutors that are recognised around the world.

The tutors have worked in the industry and really know their stuff!

PERFORMING ARTS & DANCE

If a career in theatre, film, or dance is your destiny then our courses are a great launchpad to a successful career.

Our Performing Arts courses provide you with the experience and knowledge to develop a range of performance skills including acting, dancing and singing.

You will gain practical experience in musical theatre, dance, classical theatre, modern drama, technical theatre and multi-media performance.

You will take part in several performances during the year, keeping a reflective journal of your progress, attend workshops with visiting professional actors and learn from various trips to the West End and touring professional shows.

Upon successful completion you may seek employment within a range of Performing Arts occupations or progress onto Higher Education or Drama /Dance Schools.

Certification is awarded by the prestigious UAL Awarding Body, widely regarded as the best university for the Creative Arts in Europe.

PRODUCTION ARTS

If you want to pursue a career in theatre production, run an events company or produce live performances for top bands, this is the course for you.

You'll learn the underpinning skills and knowledge to progress through the levels of theatre production, gaining great practical experience in industry settings.

You will work as part of a crew to realise small and large-scale productions, including music gigs, pantomimes, plays, musicals, exhibitions, public and corporate events. You'll also gain an understanding of the history of the performing arts business. Certification is awarded by the prestigious UAL Awarding Body, widely regarded as the best university for the Creative Arts in Europe.

SUPPORTED EDUCATION

We offer a wide range of Pre-Entry, Entry Level and Level 1 courses that provide support and learning to prepare you for your chosen career. Students will follow an individualised study programme moving on to further learning, greater independence or employment.

All full time 'Skills for' programmes will include a future work focus in Catering, Construction, Creative and Performing Arts, Customer Service and Retail, Health and Social Care or Sport to develop practical skills in your chosen subject area. Functional skills, tutorial, enrichment and personal development opportunities, employability skills and work experience will also be included in all courses.

We also offer a Skills for Independence programme, which allows individuals to develop independent living, decision making and problem solving skills.

Supported Internships is an employment-based programme for learners under 25 years of age with an Education and Health Care Plan (EHCP). The ultimate aim is paid employment, so you will need to be ready for work with the appropriate guidance and support.

Skills for Independence

Levels: Pre-Entry, Entry 3 (L, N)

Skills for Industry

Levels: Entry 3, 1 (N)

Skills for Catering

Levels: Entry 3, 1 (Q, N)

TRAVEL AND TOURISM

I've been on great trips and have had some amazing work experience as part of my course.

Start a rewarding career in Tourism and the world is your oyster!

With so many new places to discover, a career in tourism can be truly exciting. We have a wide range of courses to kick-start your globe-trotting career.

Train for a career as a travel rep or air crew – working all over the world, or deal with excited, happy and engaged customers every day booking their holidays as a travel agent.

Expected salary (up to):
£16,000 A YEAR
as a Non-Graduate Army Officer Cadet

£21,000 A YEAR
as a Trainee Fire Fighter

PLAN YOUR
FUTURE

Think
Big!

LIFELONG LEARNING!

LIFELONG LEARNING

Your relationship with us doesn't end when you finish your course. You will be invited to join Lincoln College Alumni and Friends.

This is a digital portal, supported by a LinkedIn Group that will keep you in touch with your fellow alumni and create career opportunities for you.

You'll be entitled to some **great benefits** like significant discounts on our leisure facilities and discounted training for the rest of your life.

We have a team of experts that run our alumni blog, which offers careers development advice and interviews with top business leaders in what they are looking for from their staff.

You'll also get the chance to give something back if you want to when you're in the career of your choice. You might be able to offer students work experience yourself or come in and give a motivational talk.

For more information visit
alumni.lincolncollege.ac.uk

My advice to current students is to think big, because thinking small is not going to get you anywhere!

CAREER DEGREES

Career Degrees offer you the chance to build on your existing qualifications with additional industry recognised qualifications and certificates.

Lincoln College is making £500 bursaries available every year to students for the duration of your studies. Your £500 allocation per year means that, by working with your tutors, you can identify courses that will enhance your employability when you graduate.

At the end of your studies, you will walk away with a degree and a raft of qualifications that will mean you have the competitive edge over students graduating from other Higher Education providers.

When you apply for jobs you will be able to demonstrate that you are ready to hit the ground running and that you are not only academically prepared, but also industry qualified for your new career. This will reduce the additional training costs for your prospective employer – making you a much more attractive candidate.

Career Degrees give you that little bit extra to help you get a job once you graduate.

NOTES

OPEN DAYS

Due to COVID-19 social distancing restrictions it may now be possible to run physical open days at our colleges in 2021.

But don't worry, we ran successful live virtual open days throughout lockdown and you will still get the chance to listen to our tutors and ask them questions about your course.

As soon as we can invite large groups back into college for our usual open days we will do.

Keep an eye on our website for details of virtual and physical open days:
lincolncollege.ac.uk

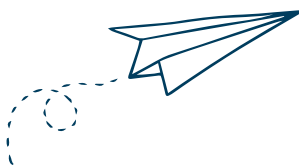

VIRTUAL OPEN DAYS

- Live Zoom webinar with tutors
- Q&A sessions
- Support and finances advice
- Careers advice
- Live-stream to Facebook

PHYSICAL OPEN DAYS

- Tour the college
- Chat to your tutors
- Talk to careers advisors
- Apply on the spot and pick up a free gift

There has never been a better time to explore your future!
