

JR. SALESFORCE ENGINEER

MISSION :	Accelerating the Impact of Veterans on Our Communities
VALUES :	Resilience Innovation Integrity Inclusivity Service
REPORTS TO :	Systems Director
SALARY :	\$53,000 - \$78,000 based on experience
BENEFITS :	Full-Medical & Dental with 50% for household members

Combined Arms is a dynamic, ever-evolving collaborative impact organization that is using an innovative approach to technology and service delivery to disrupt the veteran and military family transition experience; streamlining the connection between veterans and their families from all branches of the military with organizations that serve them.

As a bridge to the community we aim to quickly connect veterans and military families to the holistic ecosystem of support that accelerates their life's transitions and connects them back to the community.

POSITION SUMMARY :

The Jr. Salesforce Engineer will work with a team of experienced Salesforce Engineers/Architects to improve and sustain a national platform by which service members, veterans, and their families connect to best-in-class resources.
