Caser Expat Insurance counts with special packages oriented towards young people and expanding families, so it covers fertility treatments if you want to have children. We know that being a parent is important, so we want you to have the chance of trying. With Caser, you will have insurance options which cover up to 3 attempts to artificial insemination and one attempt to in-vitro fertilization, so that you have the opportunity of trying different options. The most important thing is to pursue your dream of having your own family.
