Model Number Legend

POSITION 1 (followed by dash)

Width of cabinet base in inches for Counter Type Convection steamers, Floor Model Convection steamers, Convection Pros $^{\mathbb{R}}$ and SteamPros $^{\mathbb{R}}$. (Not used for Kettles, Skillets, or Combi-Oven)

POSITION 2

Type of equipment:

C = **C**onvection Steamer

CK = Convection Steamer and Kettle combined

K = **K**ettle

C = **C**onvection Steamer

S = **S**killet

P = **P**ressure Steamer

PC = Pressure / Convection Steamer

MFS = **M**etering **F**illing **S**tation

MK = **M**ixer **K**ettle
TMK = **T**win **M**ixer **K**ettle

HA-MK = Horizontal Agitator Mixer Kettle

POSITION 3

Type of power or energy source:

E = **E**lectricity

G = Gas - natural - other, if specifically identified

D = **D**irect steam (connected to a separate source)

S = **S**team Coil Generator – use where steam available from another source is not clean enough to use on food.

(Only one size exists).

POSITION 4

Type of mount or generator:

L = Legs, open stand or frame

P = **P**ressure generator

M = **M**odular; cabinetized; enclosed

T = **T**able top mounted on stand cabinet, table, counter, etc.

A = Atmospheric generator (stainless steel)

POSITION 5

Designation of capacity or input. For kettles, it will indicate "Gallons." For electric or gas steam generators, it will indicate input of energy in either "KW" or "M BTU." (Number is preceded by a dash). For SteamCraft Series this number will indicate the pan capacity for 21/2" steam table pans.

POSITION 6 (following last dash)

Additional detailed information or action.

F = Indicates a **F**ull steam jacket on a kettle.

T = Indicates a **T**ilting kettle, either manual or power pour.

Examples of Model Number usage:

36-CGM-200 is a 36 inch wide base, Convection Steamer, Gas powered, Modular cabinet mounted, 200M BTU. or:

TMKEL-100-T is a Twin Mixer-Kettle, Electric, Leg mounted, 100 Gallon, Tilting. But, being a twin kettle model, it has two 100 Gallon kettles.

NOTE: Model Number Legend not valid for Options and Accessories.

Steamcraft® 3, 5, 10 & Gemini™ Convection Steamers

Generator Style, Ideal for High Volume A La Carte and Batch Type

SteamCraft®

Series High Speed Convection Steamers

"When you need a lot and need it fast".

Easy-access descaling port... if it's easy to do, it's more likely to get done.

Compartment interior has coved corners for better steam circulation and easy cleaning.

Free-floating inner door makes a positive seal every time, will never leak and isolates the outer door, keeping it cool to touch.

Reversible door gasket lasts twice as long.

Heavy gauge stainless steel door and cooking compartment.

4" adjustable legs are standard.

Steamcraft® 5

Additional heating element above the waterline dries the steam to reduce condensation on foods and speeds cooking.

Water level control located outside boiler, (where scale forms), preventing scale related control failure.

Power flush system not only drains the boiler automatically when the power is off, but actually flushes the water down the drain to ensure it never plugs with scale.

Electronic timer with load compensating feature automatically adjusts cook time to the load size for consistent results every time.

Manual by-pass switch for constant steaming.

- Cooking Capacity for up to ten 12 $^{''}$ x 20 $^{''}$ x 2 1/2 $^{''}$ deep Cafeteria Pans, five each compartment.
- Totally independent cooking compartments, each has its' own generator, gas valve and water level controls - no shared components
- Exclusive High Efficiency Gas Power Burner (forced air) Generator: Produces more steam for faster cooking while lowering operating costs (72M BTU's per compartment)
- Easy Access Cleaning Port: Each generator has a deliming port located on the outside, top of the unit
- Generator Cleaning Light for each compartment warns the operator to delime generator
- Generator Steam Standby Mode: Holds generator at a steaming temperature, allows unit to start cooking quickly
- Each compartment has one, 60-Minute Electro-Mechanical Timer with "SureCook" load compensating feature. Manual Bypass Switch for constant steaming.
- Durable Heavy Gauge, 304 Stainless Steel construction for compartment door, cooking cavity and steam generator
- Exclusive Two-Piece Compartment door: Slammable, selfadjusting door provides and airtight seal, reversable door gasket for extended life
- Exclusive Gemini™ Drain/Power Control System: Simple, reliable 1/2" ball valve style drain automatically turns power ON/OFF
- Exclusive Brass Steam Jets distribute even, high velocity steam throughout cooking compartment for faster cooking times
- Easy, Front -Access Generator Controls comes with a pullout drawer for simple servicing of unit
- Compartment Steam Shut-Off Switch when compartment door is opened

SteamCraft® Gemini™ 10

SteamChef 3 & 6 - Boilerless Convection Steamers

Connected Electric Models 22CET3.1 22CET6.1

Connected Gas Models 22CGT3.1 22CGT6.1

Easy as 3-2-1...

3-YEAR COMPARTMENT DOOR WARRANTY STANDARD

- Rugged 14-gauge stainless steel holds up to abuse.
- Heavy gauge door hinges maintains tight leak proof seal.

2-PIECE EXCLUSIVE COMPARTMENT DOOR DESIGN

- "Free Floating" inner door is self adjustable, maintains steam tight seal.
- Removeable for easy cleaning and sanitizing, stays "Cool to the Touch".

1-YEAR DOOR GASKET WARRANTY STANDARD

 Door gasket last "4-Times Longer" than competitive models.

... Plus

PATENTED KLEANSHIELD COOKING COMPARTMENT DESIGN

- Provides "Clean Steam" eliminates foaming and cross contamination.
- Eliminates flavor transfer, easy to clean and sanitize.

EXCLUSIVE CONVECTION STYLE BAFFLE SYSTEM

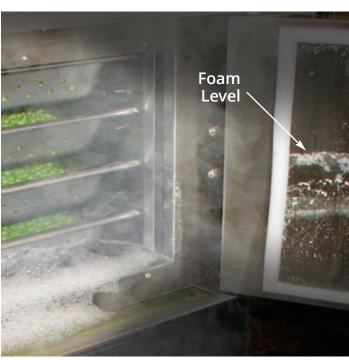

- High velocity "Convection Steam" for even energy distribution.
- Faster cooking and recovery times for superior performance.

SteamChef 3 & 6 - Feturing Patented KleanShield

SteamChef's patented
KleanShield compartment
design eliminates foaming,
flavor transfer and cross
contamination caused by the
water reservoir typically found
in connectionless steamers.

Typical Connectionless Steamer

Steam generating water from SteamChef with **KleanShield** (left) and typical connectionless steam water (right) after 3 loads of potatoes.

SteamCraft 3 & 5 Convection Gas & Electric Steamers

Heavy Gauge Stainless Steel Generators

When You Need A Lot and Need it Fast!

Maintenance Free "Steam Jets" for high velocity steam.

 No fans needed, superior temperature distribution, fast cooking, instant recovery and maintenance free.

Self Cleaning Firebar Style element

Shed's off scale and improves energy efficiency

Exclusive "drying element" for moisture-free steam

• No flavor transfer or cross contamination

Two-piece compartment door

- Self adjusting free floating inner for air-tight seal
- Reversible door gasket, quadruples the life of the gasket.

Best Overall Warranty Program

- 5 Year prorated generator warranty
- 3 Year Exclusive Steamer Door Warranty
 - Full 3-years parts and labor coverage on 3, 5, 6 & 10 Pan Models.

3 - Year K-12 School Warranty on Steamer with Filter

- 2-Year K-12 standard warranty Steamers, Kettles, Skillets.
- 2 Year Steamer Warranty with Filter
 - Full 2-years parts and labor coverage.
- 1 Year Steamer Door Gaskets and Adjustments
 - 3, 5, and 6 compartment steamers.

Free Performance Start Up included

· Water Quality Lab Analysis available for 'FREE".

Gemini 10 Convection Steamers

Heavy Gauge Stainless Steel Generators

10-Pan Models:

24CGA10.2 - Twin systems 24CGA10.2ES - Energy Star

24CGA10 – Single generator system

24CEA10 – Electric model

Twin Independent Cooking Compartments

 Separate generator, gas combustion system, water level control and cooking controls for each compartment.

High Efficiency "Turbo-Charged" Gas Power Burner Design

- For increased steam production, cooking speed and recovery.
- Approved for use over combustible floors.

Single Frame Unibody Construction Design

 Heavy gauge stainless steel single frame construction holds up to abuse, allows for proper airflow, reducing downtime.

Maintenance Free "Steam Jets" for High Velocity Steam

 No fans needed, superior temperature distribution, fast cooking and instant recovery.

Remote Water Level Controls

 Located outside the generator for simplified maintenance and service.

Two-Piece Compartment Door

- Self adjusting free floating inner for air-tight seal
- Reversible door gasket, quadruples the life of the gasket.

5 - Year Prorated Generator Warranty

3 - Year Exclusive Steamer Door Warranty

• Full 3-years parts and labor coverage.

3 - Year K-12 School Warranty on Steamer with Filter

 2-Year K-12 standard warranty Steamers, Kettles, Skillets.

1 - Year Steamer Door Gaskets and Adjustments

• 3, 5, and 6 compartment steamers.

Free Performance Start Up Included

Water Quality Lab Analysis available for "FREE".

Classic Series Steamers

15 PSI Boilers, Gas & Electric Models

Industry's Best Warranty

- 5 year prorated boiler warranty featuring nickelguard boiler protection.
- 3 year 100% k-12 school warranty with filter.
- 3 year door warranty.
- 1 year door gasket warranty.

Exclusive TWO-PIECE Door Design

- Two-piece compartment door with free floating inner door provides air-tight, leak proof seal.
- Reversible, rotatable door gasket extends life
 4 times longer than competitors.
- Cool to the touch, won't burn operators.

Heavy 14-Gauge Stainless Steel Construction

 Build for life design with heavy duty 14-gauge stainless construction for cooking compartment, door and base frame.

Easier Maintenance

 Optional boiler descaling pump system simplifies descaling, saving time while providing improved safety and superior cleaning results.

Steamer Warranty Offers More Value & Added Benefits*

5 - Year Prorated Boilers and Generator Warranty

• 100% covered for first 2 years with filter purchase.

3 - Year Exclusive Steamer Door Warranty

• Full 3-years parts and labor coverage on 3,5,6, 10 Pan Models.

3 - Year K-12 School Warranty on Steamer with Filter

 2-Year K-12 standard warranty Steamers, Kettles, Skillets.

2 -Year Steamer Warranty with Filter Purchase

• Full 2-years parts and labor coverage.

1 - Year Steamer Door Gaskets and Adjustments

• 3, 5, and 6 compartment steamers.

Free Performance Start Up included

· Water Quality Lab Analysis available for 'FREE".

Electric, Gas & Direct Steam Kettles -

50 Psi High Pressure Steam Jacket Rating (3.5 Bar Boiling Pans)

Cleveland Steam Jacketed Kettles

Set the Standard for Comparison.

Gas Kettles

Rotateable, domed cover with spring assist for easy cleaning.

Sealed roller bearing pivot for easy tilting and longer life than brass bushings.

50 PSI (3.5 Bar) Steam Jacket Rating for higher temperatures and faster cooking and superior browning.

Easy to replace O-ring gasket on tangent stem.

High-efficiency power burner (on Gas models), provides efficient heat transfer, making for extremely fast heat-up and recovery with economical gas consumption.

Water resistant controls and splash-proof design prevent water damage from spillage or cleaning.

Solid State Temperature controls are accurate to within 1°C, and do not wander; perfect for delicate products and tightly controlled simmering.

Additional leg, (4 total) on electric models with 80 gallon+ capacity for greater stability (all gas models come standard with 4 legs.

Electric Kettles

Direct Steam Kettles

Rotateable, domed cover with spring assist for easy cleaning.

Sealed roller bearing pivot for easy tilting and longer life than brass bushings.

50 PSI (3.5 Bar) Steam Jacket Rating for higher temperatures and faster cooking and superior browning.

Easy to replace O-ring gasket on tangent stem.

Gas

Kettles

IPX6 rated controls and splash-proof design prevent water damage from spillage or cleaning.

Solid State
Temperature controls
are accurate to within
1°C, and do not
wander; perfect for
delicate products and
tightly controlled
simmering.

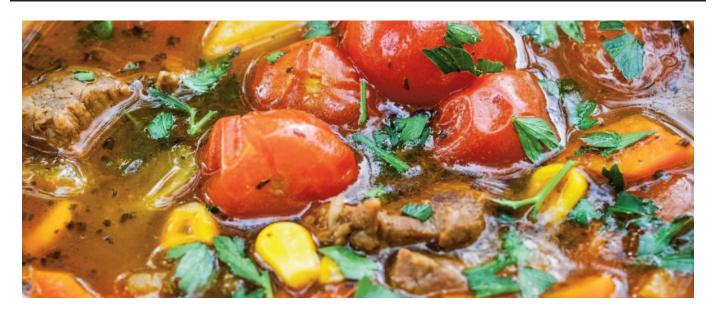

Hardened, adjustable tilt gears for long life and easy tilting.

Additional leg, (4 total) on models with 80 gallon+ capacity for greater stability.

Steam Jacketed Kettle Benefits

50 Psi High Pressure Steam Jacket Rating (3.5 Bar Boiling Pans)

Stow Away your Stock Pots and Get Cooking with Steam

Cleveland steam jacketed kettles offer ultra efficient heat transfer, uniform heating and superior product handling. Steam jacketed kettles offer faster cooking times because two thirds of the cooking surface comes into contact with the product at a much lower temperature, compared to stock pots that use a much higher temperature only at the bottom of the pot. In addition, accurate temperature controls eliminate constant monitoring and resetting. Foods won't burn or scorch and you can hold product at a simmer without over cooking. Tilting models makes product handling simple. Clean up is easy since food isn't burned or over cooked like stock pots.

Ideal For:

Soups, delicate sauces, pasta, gravies, desserts, stews, braising meats, rice, reheating dishes and holding them until serving.

Increases Quality and Productivity:

- ✔ Heats from all sides and has 3-4 times larger heat surface than stock pots.
- ✓ Gentle uniform cooking.
- ✓ Faster cooking times using high energy steam.
- ✔ Precision temperature controls from a simmer to a rolling boil.
- ✓ No hot spots.
- ✓ Eliminates pot watching, constant stirring and large stock pots.

Improves Operator's Profits By:

- ✔ Reduces food waste due to over cooking and burning.
- ✔ Reheat meals without over cooking.
- ✓ Simmer food all day without over cooking.
- ✓ Simplifies and standardizes recipe and enhances recipe development.

Improves Worker Safety:

- ✓ Tilting models make pouring safe.
- ✓ Eliminates heavy lifting and carrying hot stock pots.

Saves Energy:

Kettles use 35% less energy than stock pots on an open burner.

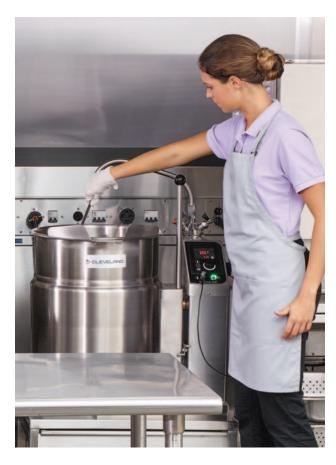

Keeps kitchens cooler.

Saves Time:

- ✓ Eliminates scrubbing of messy stock pots.
- ✔ Butterfly shaped pouring lip accurately pours product into containers for serving.

KET Series Countertop Electric Kettles

KET-3-T TKET-3-T KET-6-T KET-6-TGB TKET-6-T KET-12-T KET-12-TGB TKET-12-T

Meets IPX6 Water Rating Protection Guidelines

- Meets IPX6 for both standard and easyDial controls models.
- Prevents downtime and expensive water related damages.

Built In Self Diagnostics Standard

- 6 diagnostic error codes continuously monitors internal functions.
- Easy to service, promotes first time fix rates.

Energy Efficienct Low Watt Denisty Heating Elements

- Low watt density element extends element life longer
- 100% vacuum sealed, no gaskets requires, leaks eliminated, no element failures.

Color Coded Pressure Vaccum Gauge

- Green zone allows operators to easily identify kettle vacuum for optimum performance.
- Vent air zone easily identifies when vacuum is lost.

"Marine Style" Safety Latch Standard

• Built in safety latch prevents accidental spills.

Solid State Temperature Controls

 Less than 5° F (1° C) temperature variance for superior cooking control from simmering to rapid boil, no burning or scorching.

New easyDial[™] Control Option

- Digital time and temperature control and indicator.
- Three cooking modes -Cook/Simmer, Cook/Off, Cook/Cook.
- Meets IPX6 water rating protection guideline.
- Six built in diagnostic indicator readouts.
- Optional core temperature probe.
- Available on KET, KGT Series countertop self contained kettles.

KGL Series Gas Floor Model Kettles

Most Powerful Gas Kettle Available*

- 160,000 Btu's on 40-gallon models.
- 190,000 Btu's on 60, 80, 100-gallon models.
- 50 PSI steam jacket rating achieves high temperatures.

Patented "Turbo Charged" Gas Heating Design

- High efficiency patented forced air gas combustion system.
- Fastest in cooking speed and recovery.
- Boils up to 40% faster than competitors.
- Certified for use over combustible floors.

Built-In Self Diagnostics Standard

- 6 diagnostic error codes continuously monitors internal functions
- Easy to service, promotes first time fix rates

Color Coded Pressure Vaccum Gauge

- Green zone allows operators to easily identify kettle vacuum for optimum performance.
- Vent air zone easily identifies when vacuum is lost.

Solid State Temperature Controls

 Less than 5° F (1° C) temperature variance for superior cooking control from simmering to rapid boil, no burning or scorching.

New easyDial $^{\text{\tiny TM}}$ Control Option

(For Tilting Models Only)

- Digital time and temperature control and indicator.
- Three cooking modes -Cook/Simmer, Cook/Off, Cook/Cook.
- Meets IPX6 water rating protection guideline.
- Six built in diagnostic indicator readouts.
- Optional core temperature probe.
- Available on KET, KGT Series countertop self contained kettles.

Guide To Kettle Drain Valves and Pumpable Options

TANGENT DRAW OFF VALVE

- · Comes out the front of the kettle.
- 2" or 3" diameter size outlets.
- GOOD for pumping, only way to pump on electric models since Butterfly and Air Piston Valve not available on electric kettles.

3" BUTTERFLY VALVE

- · Comes out the bottom of the kettle.
- BETTER for pumping since locate on bottom of kettle.
- Available on gas and direct steam, not available on electric kettle.

3" AIR PISTON VALVE

- Air operated piston opens/closes on the bottom of the kettle, flush mounted at the bottom for Air-Tight Seal.
- · BEST method for pumping.
- Available on gas and direct steam, not available on electric kettles.

TYPES OF CONNECTIONS FOR PUMPING

- 1.Sani Clamp (Tri Clover Clamp): Drain Valve is flanged on the bottom, Tri-Clover clamp used to connect hose to valve, easiest of the connections to attached and clean, accepted in USDA facilities.
- 2. Acme Thread: Large threads on end of valve to screw on hoses. Very cleanable and accepted in USDA facilities
- When pumping, specify Sani Clamp or Acme Thread options, must be built on at factory.

Tangent Draw-Off with Acme Thread

3" Air Piston Valve with Acme Thread (Kettle bottom with valve in closed position)

Sani Style (Tri Clover) Clamp

Swing Drain Funnels for Kettles without a Floor Trough

MODEL SF3 FOR TILTING KETTLES

- For Use With Kettles With a 2" Tangent Draw Off Valve.
- Swivel Style Drain Cup Swings Under Or Away from Tangent Draw Off Valve Opening.
- Includes Drain Screen.
- Mounts To Leg Of The Kettle.
- Can Hard Piped to Floor Drain.
- Heavy Stainless Steel Construction.

SF3 Swing Drain Funnel for Tilting Kettles

MODEL SF4 FOR STATIONARY KETTLES

- For Use With Kettles With a 2" Tangent Draw Off Valve.
- Swivel Style Drain Cup swings Under Or Away from Tangent Draw Off Valve Opening.
- Includes Drain Screen.
- Mounts To Leg Of The Kettle.
- · Can Be Hard Piped to a Floor Drain.
- Heavy Stainless Steel Construction.

SF4 Swing Drain Funnel for Stationary Kettles

Pan Carriers and Flow Diverter for Tilting Kettles

PAN CARRIER - MODEL PCK

- Made from heavy gauge stainless steel.
- Bracket under pour spout connects Pan Carrier, for all Cleveland floor model tilting kettles.
- Stays level when kettle is tilted, allows the product to be poured directly in 12" x 20" pans.

Model PCK Pan Carrier when tilted

FLOW DIVERTER- MODEL FD

- · Made from heavy gauge stainless steel.
- Bracket under pour spout connects Flow Diverter, for all Cleveland floor model tilting kettles.
- Hinged style diverter allows operator to accurately direct pour when tilting with to minimize splashing.

Model FD Pan Flow Diverter when tilted

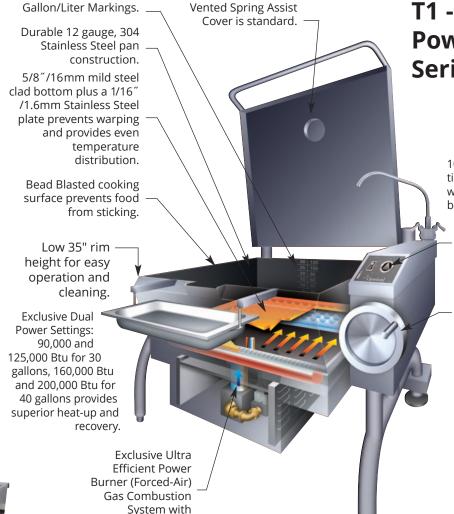

Gas & Electric Tilting Braising Pans -

High Productivity, Unmatched Performance - The Workhorse of the Kitchen

Cleveland Braising Pans

Value-Added Features Built Into Every Model.

Power Pan™ Series

> 10° Cooking Feature, tilt unit up to 10° without the power being turned off.

Add IPX6 Water Rated Controls and construction.

Easy-to-turn manual hand tilt, optional power tilt with manual override available.

Supplied with Cord & Plug for 115-volt controls.

Open base design for easy cleaning and maintenance.

Automatic Ignition.

TR - DuraPan Series Tilt SkilletsSEL-TR & SGL-TR SERIES

Superior Temperature Control

Imbedded Temperature Sensors

 Imbedded" temperature sensors drilled into pan bottom for precise even cooking (see comparison below).

Multiple Stainless-Steel Burner Design

- Large stainless-steel burners with "multiple rows of rosette's.
- Evenly spaced throughout the pan bottom for quick response and greater temperature control and even browning pattern.

Hydralic Hand Tilt With Quick Lowering Feature

- Easy to turn hydraulic hand tilt requires fewer turn.
- Quick Lowering feature eliminates hand tilting down.

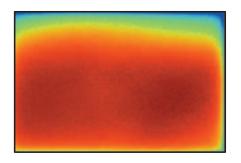

Meets IPX6 Water Rating Protection Guidelines

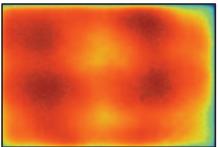

- Meets IPX6 for both standard and easyDial controls.
- Prevents downtime and expensive water related repairs.

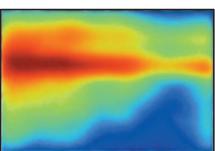

Reinforced Rolled Rim

 Eliminates warping of skillet pan allowing skillet cover to close properly.

Cleveland **SGL40TR**

Competitor A

Competitor B

Results of thermal imaging testing on three leading tilt skillets surfaces heated to 350°F.

Compare The Difference

Cleveland solid state temperature control sensors are "drilled" into the skillet's surface and provides an even temperature across entire pan surface, eliminating hot and cold spots for better browning pattern. Competitors clamped on version has a wider temperature variance which causes greater uneven temperatures across the pan surface.

T1 - PowerPan Series Tilt SkilletsSGLT-1, SEL-T1 Series

More Power, Speed And Recovery MOST POWERFUL TILT SKILLET AVAILABLE*

- Up to 60% more power on 30 gallon models.
- Up to 100% more power on 40 gallon models.

PATENTED "TURBO CHARGED" GAS HEATING DESIGN

- High efficiency forced air gas combustion system.
- · Fastest in cooking speed and recovery.

EXCLUSIVE "DUAL POWER" SETTINGS

- High/Low power setting for speed and energy savings.
- 200,000/160,000 btu's for 40 gallon models.
- 125,000/90,000 btu's for 30 gallon models.

Low 35" Rim Height

Easier to safely handle food and cleaning process.

Reinforced Rolled Rim

 Eliminates warping of skillet pan allowing skillet cover to close properly.

Solid State Temperature Controls

- "Imbedded" temperature sensors for precise cooking.
- 10° tilt cooking feature.

*Cleveland gas models SGL30T1, SGL40T1. Based on competitors spec sheets. SEL30T1, SEL40T1 electric models.

New easyDial[™] Control Option

- Digital time and temperature control and indicator.
- Three cooking modes -Cook/Simmer, Cook/Off, Cook/Cook.
- Meets IPX6 water rating protection guideline.
- Six built in diagnostic indicator readouts.
- Optional core temperature probe.

Cook Chill Mixer Kettles

Horizontal (HA) Series C/C Mixer Kettles Tilting & Stationary

Ideal for all applications, especially heavier foods like ground beef, meat sauces, mashed potatoes that requires superior mixing capabilities.

Exclusive Horizontal Agitator Design

Lifts and folds heavy, delicate, chunky, thick or thin products.

Totally Enclosed Spring Loaded Agitator Blades

Hold tight against kettle surface for effective scraping.

No Cold Zones

Continuously scoops and folds the center of the product for faster cooking.

Variable Speed Control and Indicator

Adjustable from 5-24 RPM for a variety of applications.

Superior Temperature Probe Design

Located at the bottom of the kettle for accuracy down to the final emptying of the product.

Designed for Easy Cleaning

Easy to rotate and remove agitator paddles without tools.

Single Piece Dome Hinged Cover

Increases productivity by retaining heat, improves food quality by keeping air out and steam in, improves safety because kettle cover is closed during cooking.

Sweep & Fold Series Tilting & Stationary C/C Mixer Kettles

Standard with 3" air operated flush piston valve for pumping, 316 stainless steel, console mounted Digital
Time/Temperature Control, Chart Recorder and Automatic Water Meter.

Ideal for soups, sauces, gravies, salad dressings, pie fillings.

C₃ / SC System "New Self-Contained Cook System"

Completely Self - Contained Cook Chill System
Featuring a 60, 80 or 100 Gal. Self Contain Gas Horizontal Mixer Kettle and Self Container Product Chiller

Cleveland Cook Chill Systems can now be designed for smaller to mid-size operators looking to start a USDA and FDA cook chill food processing operation. Cleveland HA-G Self Contained Cook Chill Systems cooks food to a "just done state" packaged in heavy duty casings at pasteurization temperature, then rapidly chilling to 40°F in less than one hour, enabling the "Fresh" product to be stored in a refrigerated food bank at 28°F to 32°F up to 4 weeks. No external steam boiler or ice builder is required for the HA-G Cook Chill System.

1. Mixing / Cooking

HA SERIES MIXER KETTLES (HAMKGLTCC)

Cleveland's self-contain high efficiency gas fired horizontal mixer kettles eliminates the need for an expensive large industrial boiler. Available in 60, 80 & 100 gallon models, tilting or stationary. Cleveland's patented HA series horizontal agitator lifts and folds heavy, delicate, chunky, thin or thin products.

2. Packaging

FOOD PUMP (MFS)

Cleveland' MFS model food pump provides a gentle but efficient transfer of hot and cold food from the mixer kettle into heavy duty casing pouches at the desired set amount, then safety seals the casing for chilling. The MFS-U100 model food pump can also fill retail cups and jars.

3. Chilling

PRODUCT CHILLER (HBC075, HBC100 & HBC200)

Cleveland HBC series Product Chiller has built in direct - expansion refrigeration that rapidly reduces the temperature of the filled casings. <u>No</u> ice builder is required. Turbulent circulated flow provides full agitation to provide the most optimum rapid cooling. Available in 75, 100 & 200 gallon tank sizes.

SUPPORT REQUIREMENTS

The Cleveland Self Contained Cook Chill system requires <u>no</u> lce Builder refrigeration or remote boilers, only a condensing unit for the product chiller. Compressed air is required for pumping from the kettle to the food pump. Leasing program available estimated payback is 18 - 24 months based on labor and food cost savings

easyDial -

Optional Controls with Advanced Features for World Class Performance

Cleveland **standard controls** for tabletop kettles and T1 skillets offer simple precise, consistent solid state temperature controls with minimal temperature variance and superior cooking times.

Marine Options for Kettles & Skillets

Self-Contained Electric Tabletop Model Kettles

- 23, 45, 80 Liters (6, 12, 20 U.S. Gallons)
- Models KET6TMV, KET12TMV, KET20TMV with Marine Options
- 440-480-volt, 60 Hz. 3 Phase
- Safety Tilt Lock prevents accidental spills
- 50 PSI Steam Jacket Rating, 2/3rd Steam Jacketed

Self-Contained Electric Floor Models Kettles

- 100, 150, 225, 300, 380, Liters (25, 40, 60, 80, 100, U.S. Gallons)
- Models KEL- (40, 60, 80, 100)
 -TMV with Marine Options
- Electric 440-480-volt, 60 Hz. 3 Phase
- Self-Locking Manual Worm Gear Style Tilt,
 2/3rd steam jacketed
- 50 PSI Steam Jacket Rating

Direct Steam Floor Models Kettles

- 150, 225, 300, 380, 475, Liters (25, 40, 60, 80, 100, 125 U.S. Gallons)
- Models KDL- (40, 60, 80, 100, 125)
 -TMV with Marine Options
- · Direct Steam, no electric required
- Self-Locking Manual Worm Gear Style Tilt, 2/3rd steam jacketed
- 50 PSI Steam Jacket Rating up to 100-gallon models, 35 PSI on 125 gallons.

Self-Contained Electric Tilt Skillets (Braising Pans)

- 100, 150 Liters (30, 40 U.S. Gallons)
- Models SEL- (30, 40) -T1MV with Marine Options
- Electric 440-480-volt, 60 Hz., 3 Phase
- Self-Locking Manual Worm Gear Style Tilt

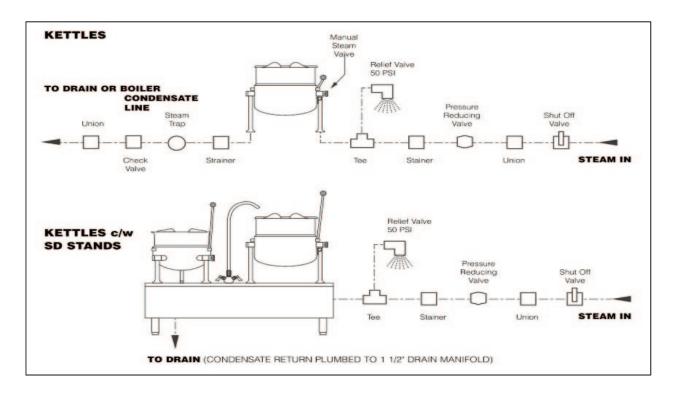

Recommended Pipe Capacity

The figures below are based on 100 feet of clean iron pipe, allowing 10% pressure drop. The presence of valves, elbows, etc. was not considered in calculating the values shown. If the length of pipe is less than 100 ft., the pressure drop will be proportionately less than 10%. If the rate of flow shown for a given pressure and pipe size is increased, the pressure drop will be greater. If the rate of flow is decreased, the pressure drop will be less. The pressure drops to use depends on the circumstance

	MAX	MAXIMUM FLOW RATE OF DRY STEAM IN LBS. PER HOUR										
		Standard Pipe Sizes										
Supply Pressure	1/2"	1/2" 3/4" 1" 1-1/4" 1-1/2" 2"										
5	20	40	70	140	210	380						
10	30	60	110	220	320	600						
15	40	80	150	290	430							
20	50	100	180	360	530							
25	60	120	220	430								
30	70	140	250	500								
35	80	160	290	570								
50	100	210	380	760								

Recommended Piping Schematic for Direct Steam Kettles

Steam Requirement Data, Boiler Sizing Information

Use the following information to determine the steam flow rate requirements for any combination OF Cleveland kettles or any combination of Cleveland steamers and kettles.

Example: First, determine the total steam flow requirement using the charts below. Cleveland boilers operate at 8-10 PSI, a 40-gallon kettle will require 70 lbs. of steam per hour, a 2-compartment steamer will require 60 lbs. of steam per hour. Total steam required is 130 lbs. of steam per hour.

Using the Steam Flow Rate of Cleveland Steam Generators, a 300,000 Btu generator will product 180 lbs. of steam per hour, and the 24CGP10 also produces 180 lbs. of stem per hour, enough to run both the 2-compartment steamer and 40-gallon kettle.

STEAM FLOW OF CLEVELAND STEAM GENERATORS										
Gas Input BTU per Hour	(lbs. per Hour)	Steam Generator								
200,000	125	3.6 BHP								
300,000	180	5.2 BHP								
	Electric KW Input									
24	70	2.0 BHP								
36	120	3.5 BHP								
48	150	4.4 BHP								
	SteamCraft Power 10									
240,000	180	5.2 BHP								

STEAM FLOW RATE REQUIREMENT FOR CLEVELAND STEAMERS (lbs. per hour, per compartment)									
STEAM FLOW RATE	RATE REQUIRED AT START UP	RATE REQUIRED DURING COOKING							
Convection Steamers	30	30							
Pressure Steamers	30	15							
ConvectionPro	75	75							
SteamCraft 10 (24CGP10)	45	45

Cleveland Range - Statement of Policy

STATEMENT OF POLICY

Cleveland Steam Cooking Equipment is intended for Commercial use only by professionally trained personnel.

Cleveland Steam Cooking Equipment is built to comply with applicable standards of manufacturers. Included among these approval agencies are: U.L., N.S.F., A.S.M.E./Ntl. Bd., C.S.A., A.G.A., C.G.A., E.T.L., C.E., and others. Many local codes exist, and it is the responsibility of the Owner and Installer to comply with these codes. Constant product improvement makes it necessary for new or improved models to be suited for testing by these various agencies. Therefore, not all models may always have all agency approvals. Cleveland Steam Boilers (Steam Generators) and Kettles are National Board registered and carry the approved stampings and listing of the American Society of Mechanical Engineers (A.S.M.E.).

Cleveland Steam Cooking Equipment, when properly installed according to instructions, complies with the intent of the O.S.H.A. Act.

SALES POLICIES

All orders are subject to acceptance at Cleveland Range's Home Office.

All quotations are subject to acceptance within 60 days unless otherwise noted at the time of quotation.

All shipments must be made within 90 days from date of quotation or may be subject to increase in price, unless price is protected in writing by the Factory.

All damaged shipments should be inspected immediately upon receipt and, any damage should be reported to carrier. All claims must be filed by consignee with carrier, not by or with Cleveland Range, LLC.

Payment Terms: Net 30 days only.

ORDERING INFORMATION

All orders must have the Dealer's name and address; shipping address; and installation location, including name, address and phone number before the order can be processed.

All orders should indicate model number, electrical characteristics, type of gas, altitude (if installation is over 2000 feet) and, when required, the incoming steam pressure.

Approved drawings, when required, and firm shipping date must be received before equipment can be scheduled for production.

Specify left or right door hinging for cooking compartments on Convection and SteamCraft® Steamers.

RETURN POLICY

- 1. All returned product must have an RMA number from Customer Service prior to sending the product back.
- 2. The product must be standard product, still crated and within 90 days from date invoiced. Standard products are defined as product configurations that are saleable to the general market. Custom Products are product configurations that are unique to a specific customer and cannot be sold to other customers. Obsolete/discontinued products cannot be returned.
- 3. If return is approved for standard product, the standard restock charge is 30% or 20% if a replacement order is made.
- 4. Custom product is non-returnable.
- 5. Applicable freight charges and recrating will be the customer's responsibility.
- 6. RMA number must be clearly written on all shipping paperwork to factory/warehouse.
- 7. RMA will be valid for 45 days from date of issue.

Cleveland Range: Limited Warranty

CLEVELAND RANGE products are warranted to the original purchaser to be free from defects in materials and work-manship under normal use and service for the standard warranty period of one year from date of installation or 18 months from date of shipment, whichever comes first.

CLEVELAND RANGE agrees to repair or replace, at its option, f.o.b. factory, any part which proves to be defective due to defects in material or workmanship during the warranty period, providing the equipment has been unaltered, and has been PROPERLY INSTALLED, MAINTAINED, AND OPERATED IN ACCORDANCE WITH THE CONVOTHERM BY CLEVELAND OWNER'S MANUAL.

CLEVELAND RANGE agrees to pay any FACTORY AUTHORIZED SERVICE (FAS) AGENCY (within the continental United States, and Hawaii) for reasonable labor required to repair or replace, at our option, f.o.b. factory, any part which proves to be defective due to defects in material or workmanship, during the labor warranty period. This warranty includes travel time not to exceed two hours and mileage not to exceed 50 miles (100 miles round-trip), BUT DOES NOT INCLUDE POST START-UP, TIGHTING LOOSE FITTINGS, MAINTENANCE, CLEANING OR DESCALING.

The standard labor warranty allows factory payment of reasonable labor required to repair or replace such defective parts. CLEVELAND RANGE will not reimburse the expense of labor required for the repair or replacement of parts after the standard warranty period, unless an Extended Labor Warranty Contract has been purchased to cover the equipment for the balance of the warranty period from the date of equipment installation, start-up, or demonstration.

PROPER INSTALLATION IS THE RESPONSIBILITY OF THE DEALER, THE OWNER-USER, OR INSTALLING CONTRACTOR, AND IS NOT COVERED BY THIS WARRANTY. Many local codes exist, and it is the responsibility of the owner and installer to comply with these codes. CLEVELAND equipment is built to comply with applicable standards for manufacturers, including UL, AGA, NSF, ASNE/Ntl. Bd, CSA, CGA, ETL and others.

PRESSURE BOILER AND STEAM GENERATOR MAINTENANCE IS THE RESPONSIBILITY OF THE OWNER-USER AND IS NOT COVERED BY THIS WARRANTY. The use of good quality feed water is the responsibility of the Owner-User (see Water Quality Recommendations below). THE USE OF POOR QUALITY FEED WATER WILL VOID EQUIPMENT WARRANTIES. Boiler maintenance supplies, including boiler hand gaskets, are not warranted beyond the first 90 days after the date the equipment is placed into service. Preventive maintenance records must be available showing descaling per applicable Cleveland Operator Manual for Boiler Proration Program considerations.

WATER QUALITY RECOMMENDATIONS

Total Dissolved Solids (TDS)	50 – 250 ppm	SiO42 (sulfate)	max 150 ppm
Hardness	50 – 200 ppm (3-12 gpg)	NH2Cl (mono-chloramine)	max 0.1 ppm
pH Value	7.0 – 8.5	Total Alkalinity	50 – 100 ppm
CL (Chloride)	max 50 ppm	Water Pressure	35 – 80 PSI
Cl2 (free Chlorine)	max 0.1 ppm	Water Temperature	max 104oF.

The foregoing shall constitute the sole and exclusive remedy of original purchaser and the full liability of Cleveland Range for any breach of warranty. THE FOREGOING IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, WHETHER WRITTEN, ORAL. OR IMPLIED, INCLUDING ANY WARRANTY OF PERFORMANCE, MERCHANTABILITY, OR FITNESS FOR PURPOSE, AND SUPERSEDES AND EXCLUDES ANY ORAL WARRANTIES OR REPRESENTATIONS, OR WRITTEN WARRANTIES OR REPRESENTATIONS, NOT EXPRESSLY DESIGNATED IN WRITING AS A "WARRANTY" OR "GUARANTEE" OF CLEVELAND RANGE MADE OR IMPLIED IN ANY MANUAL, LITERATURE, ADVERTISING BROCHURE OR OTHER MATERIALS.

CLEVELAND RANGE'S liability on any claim of any kind, including negligence, with respect to the goods or services covered hereunder, shall in no case exceed the price of the goods or services, or part thereof, which gives rise to the claim. IN NO EVENT SHALL CLEVELAND RANGE BE LIABLE FOR SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, OR ANY DAMAGES IN THE NATURE OF PENALTIES.

Limited Warranty (Continued)

PRESSURE BOILER - STEAM GENERATOR WARRANTY

All Pressure boilers and steam generators will receive an additional 4 year prorated limited parts warranty after one year from effective warranty date. The user shall pay a prorated share of the selling price based on number of months in service. Prorated Coverage: 1 Year 100% - 2 Year 80% (100% with purchase of filter) - 3 Year 60% - 4 Year 40% - 5 year 20%.

PERFORMANCE START UP & DEMONSTRATION

Performance Start up by Factory Authorized Servicer included at customer request after equipment is installed to ensure equipment is installed properly and performing as designed. Included in the startup is a Free Water Quality Check. (Contact Cleveland sales representative for details).

TWO YEAR WARRANTY K-12 SCHOOL WARRANTY

For K-12 Schools, extended two-year limited warranty at no additional charge, not to exceed 24 months from date of installation. 3rd Year Water Filter Warranty included, see details below.

3-YEAR STEAMER DOOR WARRANTY, DOOR GASKETS AND ADJUSTMENTS

3-year limited parts warranty on 3, 5, 6 compartment steamer doors (Gaskets covered under 1-year limited warranty). Non part replacement adjustments on steamers, kettles and tilt skillets (lose wires, clamps, leaks) covered under 1-year limited warranty.

EXTENDED WATER FILTER WARRANTY

When purchasing a steamer and Cleveland specified water filter from Cleveland Ranged at the same time, a second year limited extended warranty on will be included at no charge, must include a completed Performance Start-Up and water quality check. Must maintain equipment and filter replacements.

Extended Warranty

The purchase of a Limited Extended Warranty Contract extends the standard warranty coverage to the purchased period demonstration, or 18 months from date of shipment, whichever comes first. Individual warranties may vary by model, part or application. Major components have labor extended an additional year with the purchase of an extended warranty, but not parts. Extended warranties are non-transferable. Only available in the 48 contiguous US states (Hawaii and Alaska are excluded).

- Performance Start up required for extended warranty coverage.
- Extended Warranty must be purchased at the same time the equipment is purchased.
- Extended Warranty has the same exclusions as stated in our standard warranty.

Prices for Extended Warranty are net prices

- 10% off net prices when purchased with Welbilt Kitchencare Installation
- 20% off net prices when purchased with Welbilt Kitchen Preventative Maintenance (PM) Program
- 30% off net prices when purchased with Welbilt Kitchencare Installation and PM Program

Steamers -Cleveland Certified Installation Program and Kits

Cleveland's Factory Authorized Servicer (FAS) will arrange and oversee the complete installation and start-up process to ensure proper operation.

Standard Installation Pricing Includes:

- Travel to and from installation location by Factory Authorized Servicer (FAS) – up to 200 miles round trip
- Professionally reviewed and managed install process
- Delivery of purchased equipment
- Uncrating of purchased equipment
- Inspection of purchased equipment prior to install
- Assembly of purchased equipment
- Stacking of purchased equipment
- Placement of unit
- Leveling of unit
- Connection of existing utilities within 3 feet of unit
- Operational/functional test
- Disposal of new equipment packaging and dunnage
- Operator functional training on day of installation
- Equipment startup

Standard installation pricing does not Include:

- Pre-installation site survey (required)
- Installation kit (recommended)
- Installation of water filtration, additional charges as shown below
- FAS travel over 200 miles round trip
- Special licensing and permits
- Installation outside normal business hours
- Site modifications
- Some installation locations will require additional materials to be purchased by customer
- In the event the pre-installation site survey or installation visit is aborted due to the site not being ready, the customer will be required to pay the FAS directly for any additional labor and travel charges for subsequent visits.
- Disposal of old equipment, additional charge as shown below.

Available Cleveland Installation Programs (see page 7 for pricing)

Installation of First Unit*

Part Number	Description
11000115896	Tabletop Steamers: 22CET3/6, 22CGT3/6, 21CET, 21CGA5 Series
11000115898	Floor Model Steamers: 24CGA10, 24CEA10, 24CGA6.2, 24CGA10.2
11000115900	Floor Model Steamer: 24CGP10

Installation of Second Unit Same Location, Same Time*

11000115897	Tabletop Steamers: 22CET, 22CGT, 21CET, 21CGA5 Series
11000115899	Floor Model Steamers: 24CGA10, 24CEA10, 24CGA6.2, 24CGA10.2
11000115901	Floor Model Steamer: 24CGP10

Additional Installation Program Service Prices*

11000115830	Pre installation Site Survey (Required)
11000115833	Water Filter Installation – standard system, only for filters include in
	Cleveland Price List
11000115837	Disposal of Old Equipment

Installation Kits* *Installation Kits* contain the necessary parts to connect utilities to the equipment. Installation of the equipment requires common tools that are not included in the kits, one per unit.

INSTKITCET1	Install Kit for 22CET, 21CET 208, 220/240 Volt, 3 Phase
INSTKITCET2	Install Kit for 22CET, 21CET 440/480 Volt, 3 Phase
INSTKITCET3	Install Kit for 21CET16, 208,220, 240 Volt Series
INSTKITCET4	Install Kit for 24CEA10, 208,240, 480 Volt Series
INSTKITCGA5	Install Kit for 21CGA5, 22CGT3/6 Series
INSTRITCGA6	Install Kit for 24CGA 24CGP Series

Water Treatment Selection Guidelines

STEP 1 - Understand the basic water characteristics of your water

Compare water quality at your location to the Cleveland Water Quality Requirements listed here.

- Contact your water company for information about the quality of your water.
- · Cleveland can provide a complete water analysis through an independent laboratory

WATER QUALITY REQUIREMENTS

CLEVELAND WATER QUALITY REQUIREMENT					
TDS:	50-250 ppm	Cl2 (free chlorine):	max 0.1 ppm		
Hardness:	50 - 200 ppm (3 - 12 gpg)	Fe (iron):	max 0.1 ppm		
pH value:	7.0 - 8.5	SiO2 (silica):	max 13 ppm		
CL (Chloride):	max 50 ppm	NH2Cl (monochloramine):	max 0.1 ppm		

STEP 2 - Selecting the right system for your equipment

• Determine if your water meets or does not meet Cleveland water quality requirements and select the right system for your applications.

		WATER QUALITY			
CLEVELAND STEAMER MODEL	MEETS ST	MEETS STANDARD			
	ALL APPLICATIONS	HARDNESS ABOVE 170 PPM, pH IS below 8.5 ph.	ALL APPLICATIONS

Optipure OP Series systems utilize reverse osmosis (RO) to remove total dissolved solids (TDS) from water, including chlorides and hardness mineral. Then balance of minerals is introduced into the pure water to provide desirable "Optimized" water with a stable, non -aggressive nature that can significantly reduce water-related equipment problems including corrosion and scale.

Optipure QTI1-CR recommended for Cleveland steamers with steam generators reduces chlorine/chloramines and takes out sediment down to ½ micro and includes IsoNetTM scale inhibitor.

Optipure QTSX2-PG recommended for use with steam generators, reduces chlorine and takes out sediment down to ½ micron. ScaleX2 uses "template assisted crystallization" to effectively minimize scale formation at high.

Water Quality Test Kit Part No: 1150360

Cleveland Range Quickship
