RE: **Freight Programs for Welbilt Brands**

As of November 1, 2021, all new orders with freight programs as part of our Select Program or other qualifying agreements is being suspended. The suspension of these freight programs will remain in effect until further notice.

The 2021 Select Program qualifying dealers will be grandfathered into the 2022 calendar year, however it will be on discount levels only, there will not be a freight element as part of that program.

We apologize, but with the current freight cost escalation coupled with the volatility in commodity costs makes it too volatile to manage at this time.

Best,
