## Metro Foodservice Freight Promotion

We are pleased to announce that we will continue to offer the Foodservice Freight Promotion. This promotion, as you can imagine, comes at a high cost to Metro. The current \$329 maximum freight charge has been in place for several years. Over that time, gasoline, diesel and overall freight costs have significantly increased. Metro has worked diligently to manage these costs and will continue to do so.

At this time, we find it necessary to adjust this promotion slightly to reflect the reality of today's freight costs. We believe the increase is fair, and still considerably less than the costs we have absorbed. Effective March 1, 2021, the maximum fax freight charge on any non-expedited order will be \$379. Please keep in mind that depending upon the size of your order and the mode of transportation, you will pay up to a maximum of \$379, and will be charged a lesser amount in all instances that are applicable.

Metro's Fax/E-mail Freight Promotion remains as absolutely one of the best bargains available in the Foodservice Industry. We will continue to dedicate ourselves to deliver quality products and quality service at a superior value. We sincerely appreciate your understanding and support and we look forward to a mutually successful future.
