| <b>Other</b>                              | <input checked="" type="checkbox"/> |

**Question or Issue- please give your question or issue briefly here with any points that you specifically would like answered.**

**At the last meeting reference was made to IC2 being a post commissioning requirement in the Permit to produce data on the size distribution of particulate matter. And it was requested that a link be provided to this when this has been completed, to which the answer was in the affirmative.**

**My question is: as there are a number of Improvement Conditions to be completed at or after commissioning and a number of Pre-operational measures that must be completed could links be provided to this Committee on a similar basis that Mary is currently providing on planning changes.**
