

FIXED ENERGY PRODUCTS

WELCOME

PUTTING ENERGY TO WORK

HELLO

We are delighted to welcome you to Total Gas & Power!
From this point onwards, you and your business will be supported by the energy industry's leading gas and electricity supplier to UK businesses.

To get you up and running, please check that your details are correct in the attached forms. Please also send us important information relating to your VAT & CCL. You'll then be all set for a great experience with us.

Our Vision

To become the UK's most trusted energy supplier.

Combined, our values are our strength:

- Safety
- Respect for each other
- Pioneer spirit
- Stand together
- Performance-minded

Our customers rate us as “Great” on Trustpilot – and we know you will too.

GETTING STARTED

As business energy specialists, we want to ensure you enjoy the best possible experience with us. To enable us to achieve this, we will contact you to discuss any individual requirements you may have. We have been busy preparing for your arrival and we're looking forward to getting to know you and your business.

Your previous supplier, Ørsted, has given us lots of information about your account. However, there's some details that they were unable to share with us. Ørsted will be sending us your information relating to VAT & CCL however, HMRC requires you to complete a new form. Please therefore complete and return to us any necessary VAT & CCL forms at the soonest opportunity.

**Over 200,000
business sites
across the UK are
supplied with energy
by Total Gas & Power.**

If you believe we may not have your correct contact details, please email us on WelcomeMB@totalgp.com. Include your title, name, position within your organisation, phone number, company name and site postcode(s).

In the meantime, please take a meter reading unless you have an AMR or Smart Meter (SMETS1 or SMETS2 that are DCC active). Please send us your first meter reading to:

WelcomeMB@totalgp.com

and include the corresponding MPRs and/or MPANs for each reading. This will help us to identify your account.

We look forward to speaking to you very soon.

INVOICING OPTIONS

Total Gas & Power Account Details

Bank Name
HSBC Bank plc

Account Name
Total Gas & Power EBE Collections

Account Number
81403346

Sort Code
40-02-50

Branch
Regional Serv Centre Europe

Please ensure that the remittance advice clearly states the invoice number, the amount paid and your energy account number once you have it. This should be marked for the attention of 'The Treasury Department' at Total Gas & Power or emailed to remittances@totalgp.com

From day one, we want to bill you in the way that best suits your requirements. Therefore, please ensure that your preferred billing options are made known to us.

Here are some of our most popular options. However, if you have bespoke requirements, please let us know.

Online Paperless Billing

You will have access to online bills and email reminders via our customer portal. You can request to either view online, receive reminders or receive PDFs of your invoices via email. This is the standard option. If we have your email address you will shortly receive your logon details from:
customer.portal@totalgp.com

Consolidated Billing

Consolidated billing provides a single tax invoice per month whilst also providing an electronic summary output with individual site charges detailed in an excel format. This is typically beneficial to customers who have multisite portfolios.

EDI Billing

Electronic data interface (EDI) sends your billing data in an encrypted text and can be uploaded into EDI friendly systems. Large multisite customers often choose this. If EDI is your preferred option, please let us know:
WelcomeMB@totalgp.com

Please ensure we have your email address by emailing: WelcomeMB@totalgp.com along with your company name and site(s) address postcode(s).

WE ARE HERE TO HELP

We have created a dedicated team of energy experts to assist with the smooth transition from Ørsted to Total Gas & Power.

Our dedicated team are here to help you with any questions you may have about your account and to make sure you can easily access all the information you need to manage your accounts effectively.

Total Gas & Power Customer Support

Email
WelcomeMB@totalgp.com

Telephone
01737 275587

When we speak to you, we will advise you of the name and contact details of your dedicated account manager.

Customer Service Account Managers

- Account set-up for billing
- First point of contact
- Read management
- Billing creation and delivery
- Query resolution
- COO management
- Billing discrepancies
- Complaint handling
- Management information reporting
- Access online portals

Credit Controllers

- Overdue invoice management
- Account statements & debt reports
- Copy invoices

Sales Support

- Supply additions
- Pricing queries
- Registration management

Sales Account Managers

- Contract management
- Escalation points
- Customer relationship management
- Contract KPI
- Management information reporting
- Development
- Innovation
- Ancillary services

METER READINGS

We have requested for a representative to collect a meter reading around the date of your transfer. However, we understand that the visit may not be convenient for you, so we strongly recommend that you send us your meter reading today to WelcomeMB@totalgp.com to ensure your bills are as accurate as possible.

If you do not have an AMR or Smart Meter, please submit your future meter readings to us between the 24th and the end of the month here: totalgp.com/meter-reads

Please note that if you have an AMR or Smart Meter (only SMETS1 or SMETS2 that are DCC active) you will not need to send us meter readings.

Text Reminder Service

Sending us an actual meter reading means you'll only be invoiced for the energy you've used.

So why not register for our free reminder service that'll ping you a handy text reminder straight to your mobile when the time is right - so you'll have one less thing to remember!

We will never pass your number on to any third parties and you can always turn off this service by following the instructions in the text message.

Register now:
www.totalgp.com/reminder

Please note this service is not necessary if you have an AMR or Smart Meter.

24 HR GAS EMERGENCIES

If you can smell gas and believe there is a gas leak, please call National Grid's 24 hour gas emergency service:

0800 111 999

Smell Gas?

What do I do in the event of a possible gas escape?

- Report the gas escape on **0800 111 999**.
- If you are calling from a mobile phone, then go outside first.
- Turn the gas off at the meter/emergency control and leave it off until the escape has been repaired.
- Extinguish all naked flames.
- Open doors and windows for ventilation.
- Keep people away from the area affected.
- Do not turn any electrical switches on or off.
- If an electrical security entry lock/phone is fitted, then this must not be operated. The door must be opened manually when the engineer arrives.
- Immediate access by the National Grid engineer is required.
- Do not smoke or strike matches.
- **Underground advice:**
Do not re-enter the area, even to turn off the meter. Turn off all other appliances above ground, evacuate the building and inform the site manager.

24 HR ELECTRICITY EMERGENCIES

In the event of an electricity
emergency or power cut, call:

105

This national emergency number is free of charge and will put you through to your local electricity network operator who can give you help and advice.

Please report to us or to your area operator if any of the following incidents occur:

- Electricity meters and associated equipment that are not secure or waterproof.
- Overhead lines that are on the ground or have become low enough for the public or vehicles to come into contact with.
- Sparking overhead wires that have become damaged or caught up by broken tree branches.
- Damage to equipment or lines.
- Broken substation fences or damaged electricity manhole covers in the road or pavement which leave live equipment exposed.

If there are cables on or near the ground, please keep clear of them and stop anyone else approaching them.

The cables may still be alive and able to conduct electricity through damp ground or metallic objects. If these cables are on the public highway or footpaths, dial 999, and report the matter to the police. In the meantime you can help by keeping the public/passers-by away from the area.

If you require the name and postal address of your licensed distributor you can find them on our website www.gas-power.total.co.uk/information-centre/emergency-essentials or you can call our Customer Services Team on **0333 003 7874**.

FREQUENTLY ASKED QUESTIONS

1 / 2

What will happen when I transfer?

We have requested for a representative to collect a meter reading around the date of your transfer. However, we understand that the visit may not be convenient for you, so we strongly recommend that you send us your meter reading today to ensure your bills are as accurate as possible.

The transfer of energy provider will not cause any interruption to your supply and will not affect the standard of service you receive.

If you have any questions, please email us at: WelcomeMB@totalgp.com

What should my VAT rate be?

A valid exemption certificate must be received by Total Gas & Power at the soonest opportunity. To find out if you qualify, please contact HM Customs & Excise. You will be charged 5% VAT if your site consumes below 4,397 kWh (gas) or 1,000 kWh (electricity) in any given month. This is automatically calculated on your bill and a completed VAT Declaration form is not required. 20% VAT - this is the standard VAT rate that will be applied to the account if you are not exempt or at the lower rate.

Do I qualify for VAT De Minimis?

In accordance with HMRC guidelines on how to calculate VAT for your invoice, if you have more than one gas meter at a set of premises owned or occupied by you then the combined consumption of all meters needs to be considered when we calculate the correct rate of VAT. Using data provided to us by Ørsted, we have already grouped meters at the same premises together, details of which you will find in your customer information form. If you wish to change this, please email us as soon as possible.

FREQUENTLY ASKED QUESTIONS

2 / 2

Can my meter be read remotely?

If you already have an Automated Meter Reading (AMR) or Smart Meter (only SMETS1 or SMETS2 that are DCC active), we aim to take responsibility for this upon the transfer of your account to us. If you don't already have one, we offer a remote meter reading solution as well as Smart Meters. If you would like to upgrade the meter to the Smart (SMETS2) or AMR equipment at your site, request your installation upgrade at:

www.gas-power.total.co.uk/meterupgrade

Can I receive my invoices online?

Yes, you can. If we have your email address you will shortly receive your login details from: customer.portal@totalgp.com

If you've received this information via post, please send us an email to: WelcomeMB@totalgp.com including your contact details, company name and the meter point references you'd like to view online.

Can't find the answer to your question here?

In the first instance please email:
WelcomeMB@totalgp.com

Alternatively, please visit our website:
www.totalgp.com

We will endeavour to get back to you within 48 hours.

ABOUT TOTAL GAS & POWER

Total Gas & Power, part of the Total Group of businesses, is one of the leading energy suppliers to industrial, commercial and business customers within the UK. We're business energy experts, and have supplied gas to businesses since 1987 and electricity since 2001.

We understand that being one of the world's largest energy companies brings with it enormous environmental, social and cultural responsibilities and as such, have committed to becoming Carbon Net Zero across the Total Group by 2050.

We also play an active role in both the immediate local areas in which we are based, and in the wider UK, including involvement in a wide variety of community projects focused on the priority areas set out across our Group of Road Safety, Forest & Climate Change, Youth Inclusion and Education and Cultural Dialogue & Heritage:
www.foundation.total/en/who-are-we

Our Customer Charter

Our Customer Charter sets out the standards that you can expect from us. From partnering with you or your energy broker to being there for you and doing the right thing. We currently supply more than 200,000 sites across the UK with energy and have a continuous focus on becoming the UK's most trusted energy provider.

Partner With You

Our business is built on our commitment to delivering excellent customer service. Whether you're looking for a new supplier, reducing your carbon footprint or managing your day-to-day accounts, your needs are at the heart of what we do. What else would you expect from a supplier with more than 30 years' experience in the UK energy market?

Be There For You

We offer a variety of ways for you to get in touch with us to make your life as easy as possible. From our sales and servicing experts who are always on hand to pick up your call, to email, webforms and webchat, our team will always deal with you politely and respectfully, and respond to your request promptly. We will admit when things go wrong and do our best to put them right quickly.

Do The Right Thing

We're committed to better energy, which means being carbon net zero ourselves and helping you achieve your own carbon neutrality goals through a range of pure green, renewable, carbon offsetting, on-site generation, EV charging and solar products. Whatever your challenges are and however big or small your business is, we'll manage your business energy from beginning to end.

CARBON NET ZERO

Total aims to become carbon net zero by 2050 and has outlined three major steps to meet this ambition:

For our gas and electricity customers in the UK, that means access to products that will help you achieve your own carbon neutrality goals. Read more here: www.totalgp.com

Renewable Energy

Certificates are used to prove that your energy has come from a renewable source.

Carbon Neutral Energy

Carbon offset certificates help you to decarbonise your energy.

Pure Green

For those who want renewable electricity certificates from various sources excluding biomass.

Solar

An end-to-end service. Solar PV solutions using industry-leading Sunpower panels.

EV Charging

We work with ChargePoint to bring world-leading EV networked EV charging technology to the UK.
