

# How Emmet, Marvin & Martin Safeguarded Employee Health and Privacy

edenhealth +

**EMMET**  
EMMET, MARVIN & MARTIN, LLP

## CHALLENGE

Emmet, Marvin & Martin LLP, one of the nation's oldest law firms, wanted to provide the best healthcare benefits possible during a pandemic, while also ensuring that all of their partner and client operations remained HIPAA compliant.

## SOLUTION

The law firm used Eden's COVID-19 Daily Screener for employees and visitors to gain clearance to their offices, relied on convenient testing offered at Eden's nearby medical office, and tracked vaccination status through a compliant dashboard. Beyond pandemic support, employees take full advantage of the in-person and virtual healthcare offerings, including primary care, mental health services, healthcare navigation, and more.

### 3 WAYS EDEN MADE AN IMPACT

- 1 Expertise for HR:**  
A team that navigated compliance issues and provided medical guidance as state regulations evolved
- 2 High utilization:**  
60.42% of eligible employees actively engaged
- 3 Outstanding patient feedback:**  
4.93 out of 5 stars

## INSIDE EMMET, MARVIN & MARTIN LLP

1805

**Headquarters:**  
New York, NY

### Serving clients in:

- Financial institutions
- Corporations
- Partnerships
- Limited liability companies
- Fiduciaries
- Not-for-profit organizations

## Care Episodes Breakdown

## AN ALL-IN-ONE SOLUTION

Having one point solution streamlined access to healthcare for Emmet's employees and helped Rose Hirsch, the firm's Director of Administration, save on resources. "Eden just saves a lot of time for me. It makes a difference because it's just one solution. I don't have to bounce from one benefit to the other."

Eden Health integrates primary care, mental health, pediatrics, healthcare navigation, COVID-19 support, and more through one seamless app. Employees can message their Care Team 24/7 through the app with any health concerns or questions about their insurance. As Hirsch explained, "I think it's great for employees to know that they have everything on their phone."

The team also organizes pop-up clinics onsite, which helps eliminate administrative burdens typically shouldered by HR teams. "I've always had someone come and do the flu shot for us because it just makes it easier for a lot of employees. But now that it's part of Eden, I don't even have to think about it because I just speak to my account manager who can take care of it for me," said Hirsch.

## CLIENT UTILIZATION

Now, Hirsch can direct employees to the app when they have questions that would typically fall on her lap. "I would have had a lot more work on my plate if I didn't have Eden."

Emmet employees rely on their Eden Care Team for their preventative health. Virtual visits are included in their membership, so they can access care without the stress of cost. "They don't have to worry about getting charged a copay every time they go to a doctor now. With Eden, they don't have to show a card, they don't have to swipe anything. It's just getting on your phone and asking a question." The more that Emmet relies on Eden for preventative care, the more the firm and their employees can save on medical costs.

Because we're a law firm, we have to make sure that we follow any laws or guidelines that are implemented by the state, which Eden's COVID-19 task force has been helping me do...with Eden, I knew that I would be compliant and that took one big worry away from me.

*Rose Hirsch, Director of Administration*
