Security Mindset

wizer-training.com

Wizer

1

FIND A PLACE AND MAKE IT YOUR OFFICE

Do not share it with others while you
are working.

— wizer —

2

**DON'T LEAVE
CONFIDENTIAL
INFORMATION LAYING
AROUND**

And lock your work device when you
are not next to it!

— wizer —

3

DON'T EMAIL YOUR PRINTER

Don't email documents to your home printer or to your personal email just to make it easy to print.

Wizer

4

**DON'T USE WHATSAPP,
FACEBOOK, LINKEDIN, OR
ANY OTHER PERSONAL APP
TO COMMUNICATE**

Only use the tools approved by your
organization.

— wizer —

5

ALWAYS, CALL AND VERIFY!

Your colleagues are not sitting next to you anymore, so call them and verify any request to share confidential data or transfer funds even if they sent it from their email.

— wizer —

6

ALEXA: I'M LISTENING...

Don't have work sensitive conversations near IOT devices like Siri, Alexa, or Google Home in case they're listening.

Wizer

7

DO NOT SHARE DEVICES OR PASSWORDS

Devices are not to be shared with other family members and they must have a unique password and a lock screen timeout.

Wizer

YOU ARE NOT TECHNICAL SUPPORT

Don't try to resolve technical issues yourself, that could lead to even greater risk; Instead call your Helpdesk.

— wizer —

9

DON'T LET THE BROWSER REMEMBER YOUR PASSWORDS

If you save passwords to your browser, stop immediately. Use long and complex pass-phrases and don't reuse them.

TECHNOLOGY

Some of the next steps are technical,
so ask your IT team for assistance,
don't try to do yourself, that could lead
to even greater risk.

Wizer

1

DON'T USE PERSONAL COMPUTER FOR WORK

If your company provided you with a dedicated computer or a virtual desktop, use it only for work.

Wizer

2

WIRED NETWORK IS BETTER

If possible, connect your work computer to a wired network instead of Wifi.

— wizer —

3

USING WIFI? SECURE IT!

If you are using Wifi it needs be encrypted using WPA2 or WPA3 and your Wifi Name should be hidden.

Wizer

4

SEPARATE YOUR WORK COMPUTER FROM ALL OTHER DEVICES

Create a guest network to separate your work computer from all other devices.

Wizer

5

**USE A VPN THAT YOUR
ORGANIZATION HAS
PROVIDED OR APPROVED**

Wizer

6

**ALWAYS USE
MULTI FACTOR
AUTHENTICATION TO
LOGIN**

Use on all Apps, Computers and
Network Devices.

Wizer

7

**APPLY THE LATEST
SECURITY PATCHES AND
ENABLE AUTOMATIC
UPDATES**

Wizer

WINDOWS 7/XP? TIME TO UPGRADE!

If you are using an outdated operating system like Windows 7 or XP, ask your IT team to help you upgrade.

— wizer —

9

ANTI-VIRUS, FIREWALL, ENCRYPTION

Make sure you have anti-virus installed, your built-in firewall is enabled, and sensitive files are encrypted.

Wizer

10

BACKUP

Consult with your IT team on how and where to backup your data.
