

Alluma™ Advantage Formulary - Jan to Mar 2022

This document provides an alphabetical listing of medications covered on the Alluma™ Advantage Formulary. Inclusion on this list does not guarantee coverage. Individual plans may vary and medications that do not appear on this abbreviated list may be covered. Agents listed are primarily oral, self-injected, inhaled or topical pharmaceutical formulations. Medications requiring provider administration are generally covered under the medical benefit and may not appear on this list.

PLEASE NOTE: Certain specialty medications may only be available through your plan's preferred specialty pharmacy. Some medications may be subject to the Affordable Care Act (ACA) provisions or your plan's preventive benefit and covered by your plan at 100%. Individual plans may vary. For questions regarding plan-specific restrictions, coverage criteria, cost sharing information, or information about drugs that do not appear on this abbreviated list, please log into your member portal and use the "Price a Medication" feature or call the phone number printed on your member ID card.

Each medication may have specific coverage requirements not reflected in this document. The key below explains common coverage indicators present on this file. Medications shown in *lower-case* are generically available and typically covered at the lowest member cost share.

T1: Tier 1 Medication: typically generics or medications available at lowest member cost share.

T2: Tier 2 Medication: typically preferred or formulary brand medication.

T3: Tier 3 Medication: typically non-preferred or non-formulary medication.

EXC: Excluded Medication

BP: Brand Penalty: Member may be responsible for the cost difference between brand and generic.

LA: Limited Availability: This medication may only be available through Mayo Clinic Specialty Pharmacy. For more information, please call Mayo Clinic Specialty Pharmacy at 800-337-3736.

PA: Prior Authorization: Medication requires prior authorization to confirm medical necessity prior to coverage.

QL: Quantity Limit: For certain medications, the formulary limits the amount of the medication that will be covered.

SP: Specialty Medication: This medication may only be available at the plan's preferred specialty pharmacy.

ST: Step Therapy: In some cases, the formulary requires you to first try certain medications to treat your medical condition before another medication will be covered. For example, if Medication A and Medication B can both be used to treat a medical condition, Medication B may not be covered unless you try Medication A first. If Medication A does not work, we may then allow coverage of Medication B.

Drug Name	Drug Tier	Requirements/ Limits
2TEK GLUCOSE/BLO OD PRESSURE KIT	EXC	QL; Preferred Alternatives: (FREESTYLE FREEDOM, FREESTYLE INSULINX, FREESTYLE LITE METER, PRECISION XTRA, ONE TOUCH ULTRAMINI, ONE TOUCH VERIO, ONETOUCH VERIO FLEX)
