

App-in-a-Day Engagement

Get Started!

Customize a professional, mobile-friendly app to help streamline productivity and collaboration for your organization!

\$2,500

Companies looking to get rid of manual processes.

< 24 hrs

Features & Benefits

Increase employee productivity

by reducing time-consuming manual tasks within your organization.

A mobile-friendly app

that streamlines productivity and collaboration for your organization.

Receive a fully customized solution in one day

so that you can get up and running in less than 24 hours.

Deliverables

Run a whiteboarding session

to discuss business workflows that your organization is currently doing manually, then decide on the one that makes the most sense to automate.

Create the new app

and test to make sure it's working as requested.

Provide end-user guidance

to help your end-users install the app on their devices and begin using it.
