Get Started!

Increase security awareness through Microsoft Office 365 Exchange Online Security Hardening!

\$5k – \$15k

Orgs w/ Office 365 Exchange Online

8 - 11 days

## Features & Benefits

### Lock Down Corporate Data

Harden & lock down access to corporate data where incursions are most likely to occur, and improve overall password hygiene within your organization.

### Prioritize Improvement Actions

Improve your organization's security posture by setting a security baseline for reducing overall security risks & gaps.

### Enterprise-Grade Security

Protect your organization against modern-day threats, like spoofing, phishing, malware, ransomware, and email data exfiltration.

## Deliverables

### Run a Discovery Session

and design meetings to gather information about your Office 365 environment.

### Deployment of Security Measures

like MFA, Exchange Online Protection policies and more to strengthen your organization's security posture.

### Provide Communication Plans

for your end-users, to help them understand the changes that are happening and what they can expect.
