

AVD with Nerdio Proof of Concept

[Book a Call](#)

Give your users easy and secure access to their desktops and apps, regardless of where they're working, with Azure Virtual Desktop (AVD) and Nerdio!

\$15,000+
(various ECIF Funding available)

SMB's & Enterprise

8 weeks

Features & Benefits

Test-Drive AVD

Validate the end-user experience with 25 users to see if you'd like to deploy it organization-wide.

Nerdio's Manager for AVD

Receive a 90-day trial subscription to Nerdio's Manager for AVD, an all-PaaS Azure application that helps you automate and manage large AVD deployments in just a few clicks.

Easy Management

No need to manage the Remote Desktop roles like you do with Remote Desktop Services, just the virtual machines in your Azure subscription.

Deliverables:

Planning & Design Sessions

To identify your unique business needs and requirements.

Implementation / Deployment

Of up to 3 MSIX-based applications and validation of the deployed environment.

Full Deployment Roadmap

For migrating the rest of your users over to AVD and knowledge transfer.
