

ROADRUNNER™

RoadRunner Recycling is on a mission to improve and provide sustainable waste stream management. We do this through our dedication to creating unprecedented value for our customers, employees, and communities as well as by leveraging our proprietary technology to boost cost savings, improve waste & recycling rates, and deliver an unparalleled customer experience.

THE VALUE OF ROADRUNNER

-  Offer advisory services such as program awareness, education, and implementation to improve sustainability initiatives and drive corporate social responsibility initiatives
-  Provide a single point of contact for day-to-day customer service and account management support to consolidate and manage waste and recycling for each location
-  Procure wholesale rates and preferred pricing with our added buying power
-  Provide contracted cost savings in a three-year agreement

HOW WE CONTRACT COST SAVINGS

- ✓ RoadRunner performs a complimentary waste audit to validate guaranteed, recurring cost savings that will be included in an actionable proposal
- ✓ The average cost savings varies by industry, ranging from 10-25%
- ✓ Savings will be guaranteed in a three-year contract where there is no price change for the first 12 months with competitive, capped annual increases of 3% thereafter

PROVIDERS WE TRUST

At RoadRunner, our unparalleled service and expertise is bolstered by our relationships with a network of over **1000+** providers across the country. These industry relationships help expand our service offerings, improve efficiency, increase buying power, and ensure the flexibility necessary for unmatched waste & recycling services.

WHO WE PROUDLY SERVE

At RoadRunner, we pride ourselves on providing unparalleled and dependable waste & recycling services to customers in 20 industries across **6,000+** locations. Industries include, but are not limited to: healthcare, manufacturing, distribution, education, multi-family housing, retail, commercial office real estate, restaurants, and more.
