

Agile with Jira Essentials (Cloud)

1 Day

Classroom, Webinar

Clearvision's Agile with Atlassian Jira Cloud training course gets you to grips with project management within Jira. Make it a 2-day course by combining with Jira Software Administration - simply enquire.

About this course

Is this course right for me?

This course is perfect for anyone in an agile team who is new to Jira Software. It covers topics on agile methodologies and provides a complete end-to-end overview.

Objectives and outcomes

By the end of this course, attendees will have a strong understanding of key Atlassian Jira concepts. They will be able to use Jira to work with issues and provide change tracking control for software development projects using agile methodologies.

Prerequisites

- Access to a laptop
- Internet connection
