Benefits Without Compromise

Quality & Compatibility

Our end-to-end testing guarantees an industry-leading 99.98% reliability rating and full OEM compatibility.

Custom Solutions

ProLabs' expert engineers can custom code your optics to support all the features on the OEM switch.

Cost Savings

With ProLabs optics, you can avoid the OEM markup and enjoy significant savings of up to 70%.

Trade Compliancy

Most of ProLabs' optics are TAA compliant, ready to fulfill any government contract. We also adhere to NEBS, ISO and more to ensure our products are safe and reliable.

Widest Selection of Optics

From legacy 100BASE to cutting-edge 400G, enjoy our deep inventory of transceivers, cables, and much more.

Lifetime Warranty

In the rare case you need it, leverage our lifetime warranty to make sure your network is fully covered.

24-Hour Drop Ship

ProLabs is readily-stocked with the optics you need, and we offer same day shipping if you order today.

Advance Replacement RMAs

With ProLabs' lifetime warranty, expedite your replacement parts through our rapid RMA system.

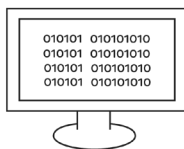

24/7 Expert Support

From purchase to implementation, get peace of mind with our worldwide 24/7/365 expert engineering support.

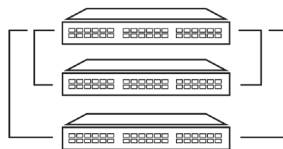

Learn about our proprietary part tracking and serialization process.

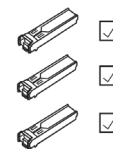

1. OEM Spec Testing

Every unit is custom coded for full feature compatibility.

2. Environment Testing

Each part tested within intended environment to guarantee performance.

3. Quality Control

All orders checked and verified as accurate before shipment.

ProLabs is a leading provider of optical networking solutions. For over two decades, we have delivered optical connectivity solutions that give our customers freedom, choice, and seamless interoperability. We serve a diverse range of industries including enterprise, government, and global service providers.

By championing higher standards for technology, service, and cost, ProLabs is changing the mindset of data centers and service providers the world over. We supply solutions that are 100% compatible in form and functionality across 100 OEM environments, covering more than and 20,000 systems and platforms.

At ProLabs we invest in people, R&D, equipment, and processes to ensure our optics are second to none. Our mission is to provide certified optical connectivity solutions across all networks. This means meeting MSA specifications, undergoing rigorous compliance measures to achieve TAA, RoHS, NEBS Level 3, and more.
