

Escape 19

ABOUT THE ESCAPE E19

The Escape 19 has two floor plans to choose from.

The E19 F1 has a permanent bed in the rear and a four-person dinette/two-person bed in the front. The E19 F2 offers two dinettes that convert to a two-person bed at the front and at the rear of the trailer. The larger rear dinette can be changed to a U-Shaped Dinette and with the Cot option the E19 will sleep 5 comfortably

The frame is constructed with box steel and a rubber ride torsion axle suspension creating a solid foundation and smooth ride. The interior is professionally finished and offers your choice of Maple, Contemporary, or nine upgraded cabinetry options. It features large windows, durable high-grade vinyl flooring, and a distinctive insulated

vinyl headliner and wall covering for added comfort and style. Every Escape trailer includes a long list of standard features and an extensive options list available for even more personalization. Every trailer also comes with a limited two-year warranty. The body of the trailer is constructed from top and bottom of fiberglass shells which are bonded together with glass reinforced fiber to create a true one-piece unit.

The roof has a raised dome allowing water to run off rather than pooling. This greatly reduces any chance of water penetration while maintaining a strong, long-lasting lightweight trailer.

The Escape's aerodynamic and lightweight design eliminates the need to invest in a large towing vehicle in contrast to a conventional RV trailer. Most minivans and SUV's are capable of towing smaller Escape trailers without a noticeable increase in gas consumption, helping to keep the investment for travel to a minimum.

Our customers are pleased that Escape trailers offer abundant interior storage space, especially in the large overhead cabinets. Light-colored hygienic wall coverings and large windows throughout each unit creates the feel of a more roomy, bright space.

Escape trailers utilize real wood for the cabinet doors along with plywood for tables, countertops, and the floor. The Escape 19 is a perfect blend of high-quality, design and function both inside and out.

E19 BASE FEATURES

CHASSIS

- x2 3500 lb Torsion Rubber Ride Suspension
- Safety Chains & Ride Suspension Break-Away Switch
- 4 Balanced 15" Radial Tires & Steel Rims (8 ply)*
