VIDA

VIDA BY MARTEL INSTRUMENTS

REVOLUTIONARY DATA COLLECTION TECHNOLOGY

A secure and seamless flow of data throughout your lab

VIDA is a revolutionary data collection technology that tracks, records and stores instrument measurement results and metadata. Electronic and paperless, VIDA helps you better meet regulatory and compliance standards, with the option to instantly and accurately transfer scientific data from your lab equipment to any LIMS or ELN systems.

Benefits

- Saves time, staff resources and equipment costs
- 100% accuracy
- Improves workflow
- Track samples and users
- Job traceability
- Maximise investment in LIMS or ELN systems
- No paper records
- Maintain and schedule calibrations
- Audit logs and session records for QC
- Custom programmed software
- Configured to your laboratory

COMPLIANT TO 21CFR PART 11

"This has been a research project which has a real and practical significance, early feedback from our students and technical staff certainly indicates that VIDA will be a welcome addition within any laboratory – helping to streamline and manage their activity, plus massively reducing manual data processing requirement."

Dr. Garry M Weeks PhD MSc BSc (Hons) MCIEH
Teesside University

Paper-free, secure data transfer

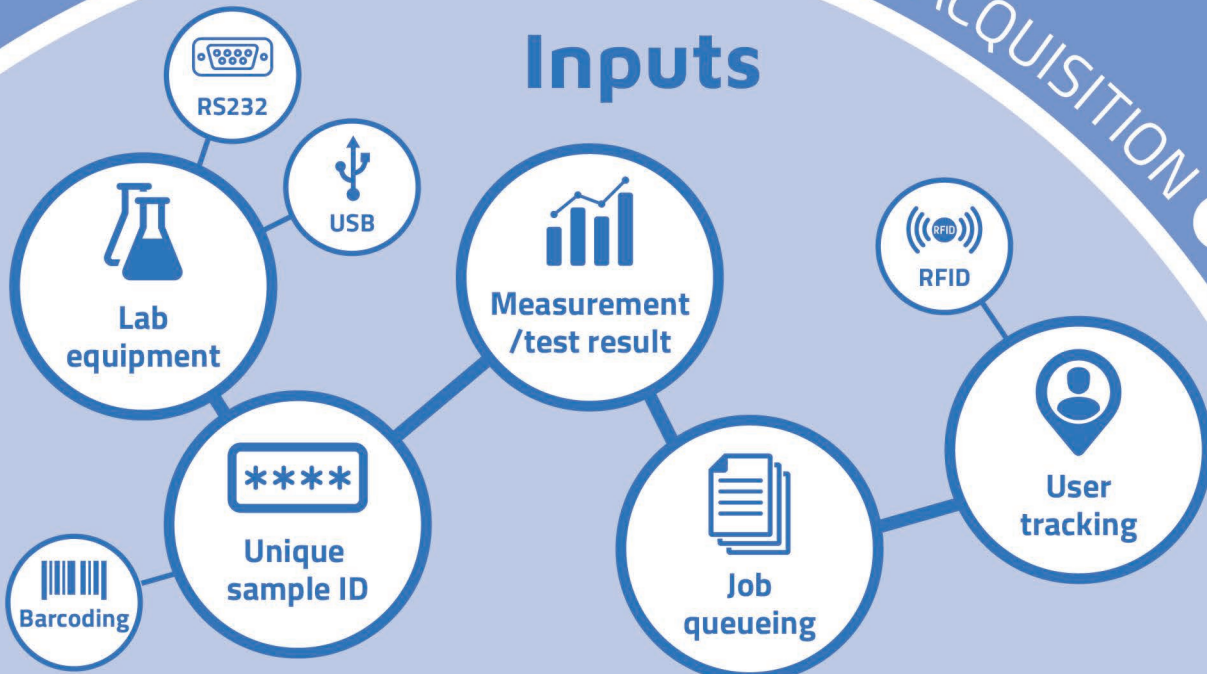

VIDA transmits your data automatically from your lab equipment, with space to store 50 million sample records with its 8GB of memory that can be expanded as much as you require. VIDA can create CSVs and PDFs, and integrates with databases, LIMS and ELN systems.

VIDA has an ethernet and WiFi network interface with a built-in WiFi hotspot to make connection as seamless as the flow of data. VIDA is easy to use, responsive and secure.

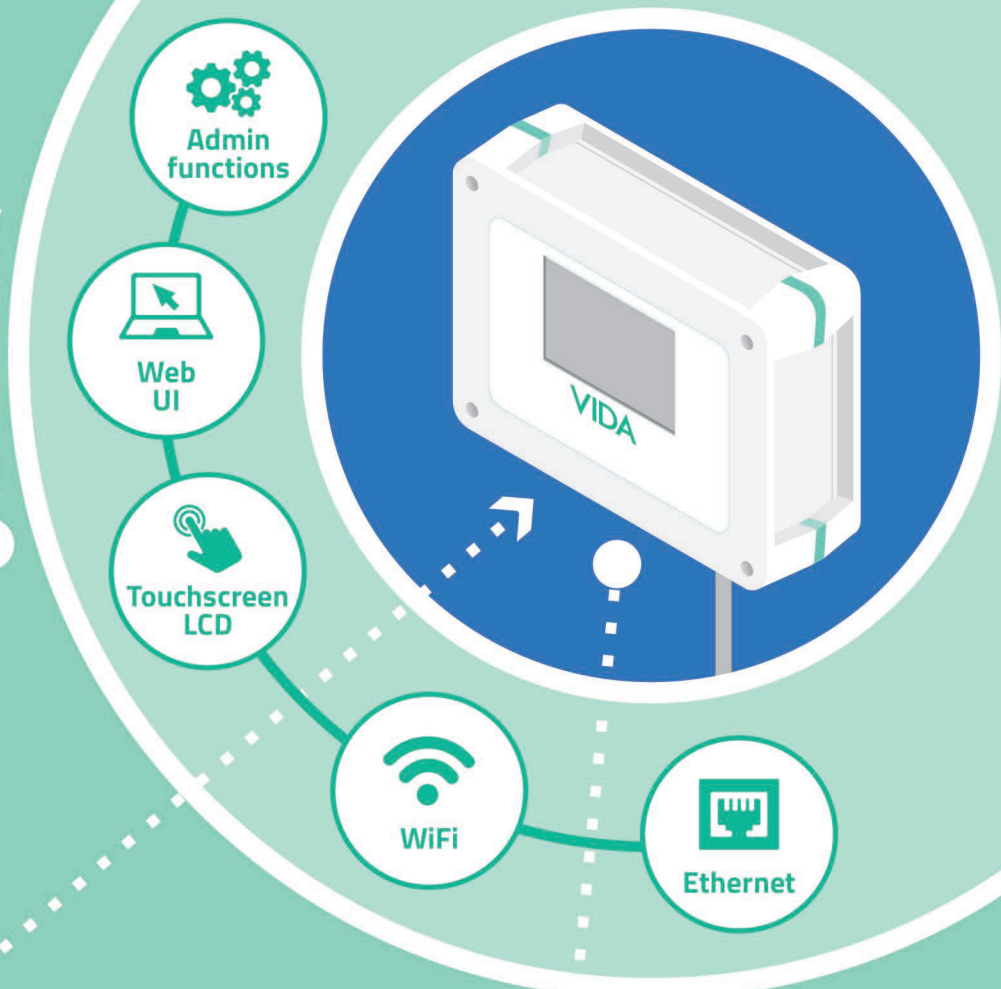

Management

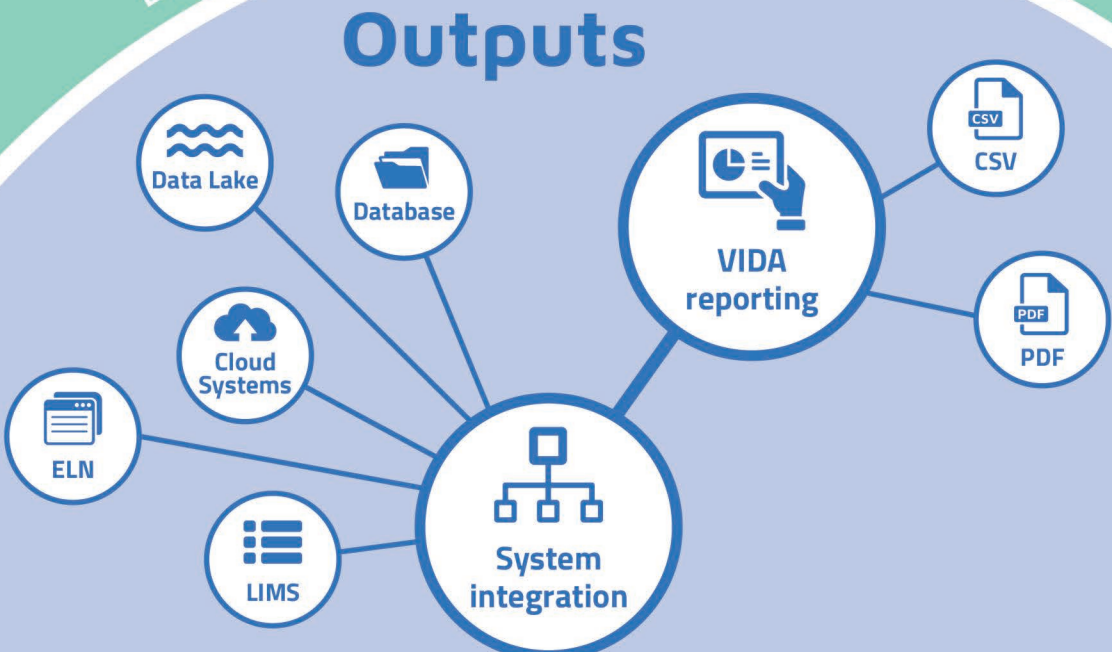

DATA ACQUISITION

INTERFACE

DATA AUTOMATION

A solution for the day-to-day challenges of your lab

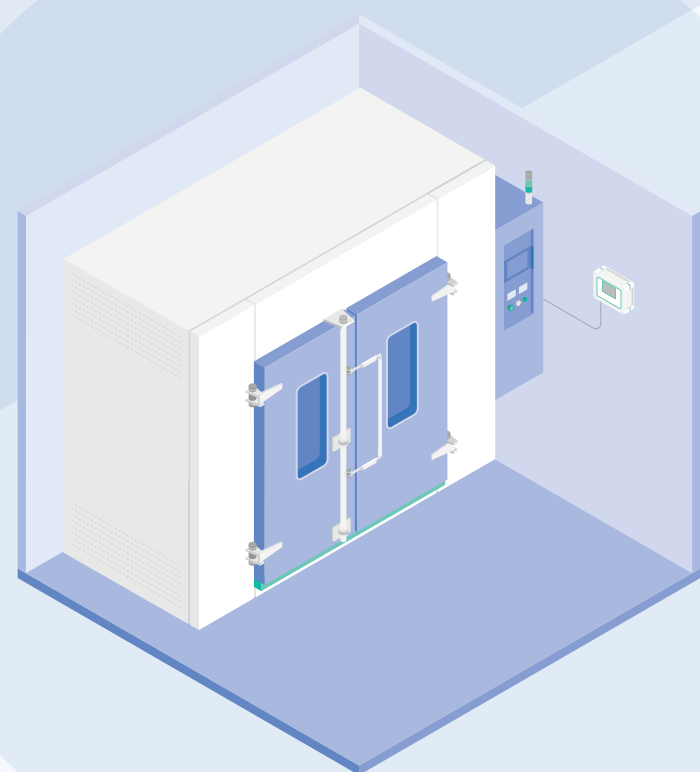

Developed in close consultation with lab managers worldwide, VIDA eliminates the risks that can be associated with manual data collection methods in labs while improving workflow.

Preserve the integrity of your data with VIDA which captures results directly from your studies to eliminate the loss of raw data, making your research more accurate and your recordings guaranteed.

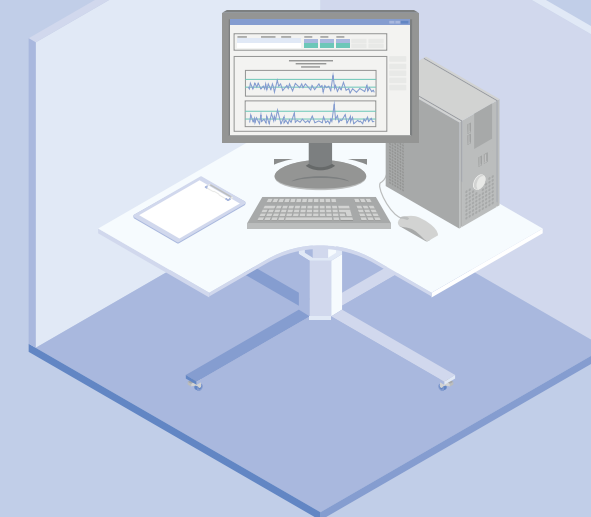

Paperless and Reliable

- No need to rely on paper records, minimise lab time lost on repetitive manual operations
- Meet regulatory and compliance standards with reliable, error-free measurements
- Assist in downtime by planning and scheduling maintenance through time based calibration management

Automatic and Electronic

- Combine with user and equipment metadata and give different access levels to your team
- Electronically reads and captures data, sending it directly to an ELN or LIMS
- Compatible with all major equipment manufacturers

Responsive and Accurate

- 100% accuracy on scientific raw data collected
- Your team can work on lab data instantly and securely, even if they're not onsite
- Improve response time with the equipment status overview dashboard for real-time updates

VIDA

by Martel Instruments

Excellence in customer service and support

VIDA is an innovation by Martel Instruments, a leading equipment manufacturer, committed to customers for the long-term. Martel Instruments conceptualised VIDA as a solution for laboratories using nearly 40 years of manufacturing experience.

With dedicated in-house manufacturing capabilities, Martel Instruments makes its bespoke hardware to customers' exact specifications and offers full technical support.

VIDA is a product for an international market, and Martel Instruments offers trials for laboratories to experience the positive impact of this revolutionary data collection technology. The team will work with you throughout the design, manufacture and supply process.

"We have gotten to know the laboratory market very well and understand the ways in which we can help with our bespoke manufacturing expertise. We have produced a responsive, electronic technology that enables labs to more securely and effectively transfer data. We do whatever it takes to help our customers get the most out of our products."

Keith Walker, CEO of Martel Instruments

Trial VIDA in your lab for 30 days

It's easy to set up a trial of VIDA in your lab and discover its capabilities first-hand.

SETUP

- Step 1** Select a balance, PH meter or spectrometer that you would like to use for your VIDA trial.
- Step 2** Send us your equipment's full make and model number.
- Step 3** If your equipment is not already a part of our vast library, we will create the necessary protocols.

INSTALLATION

- Step 4** We arrange a date with you to install VIDA in your lab.
- Step 5** Our team arrive to install VIDA in your lab. Installation takes approximately 10 minutes.
- Step 6** We provide full training on using VIDA. Training takes approximately 30 minutes.

TRIAL

- Step 7** Use VIDA as much as possible during your trial to experience the benefits of this revolutionary technology.
- Step 8** After 30 days, a member of the VIDA team will be in touch for your feedback.

During your trial, contact the VIDA team at any time for questions or support.

Start your **trial** with VIDA today:

Joanne Hockaday – Project Manager
joanne@martelinstruments.com

Tel: +44 (0)1207 290 266
www.martelinstruments.com/vida

The trial is conducted under a free of charge sale and return basis. No payment is taken until the trial is completed and you wish to move forward in purchasing the product.
