

Sarah Aijaz, PhD

Dr. Aijaz joined Cerilliant as an Analytical Chemist in 2012 after she received her Ph.D. in Analytical Chemistry from the University of Texas at Austin. Her doctoral research focused on single molecule sensing and identification by Surface Enhanced Raman Scattering (SERS) and super resolution imaging techniques. She earned her B.S. in Chemistry from Texas A&M University, College Station, in 2007. Sarah joined Cerilliant in the Quality Control group supporting production of catalog and custom projects through the application of NMR, UHPLC, and LC MS/MS analytical techniques. She joined the R&D team in 2014 and was promoted to R&D Manager for Reference Materials in 2019. Her primary focus is the design and development of certified reference materials for use in pharmaceutical, clinical, forensic, and food and beverage quantitative applications. She has presented CRM development work at several conferences with an emphasis on certification methodology.
