COLOUR COLLECTION

La Colour Collection Unopiù se compose d'une ample gamme de 40 tissus de couleurs, de trames et de grammages différents. Grâce à un vaste choix de teintes, sélectionnées avec soin pour satisfaire toutes les exigences, il est possible de créer de riches combinaisons chromatiques, exalter les formes et personnaliser les meubles en créant des atmosphères uniques. Réalisés pour l'ameublement d'extérieur, les tissus techniques sont de qualité supérieure. Teints dans la masse et grâce à une finition innovante, ils possèdent des couleurs résistantes, des fibres anti taches, anti-moisissures, transpirantes et particulièrement résistantes aux rayons UV. Ces tissus offrent au toucher la même douceur que les tissus de fibre naturelle. Le tissu waterproof est le seul tissu composé de polypropylène et polyester. Son aspect est naturel et élégant grâce à sa trame carrée. Il est 100% imperméable à tous les types de liquides et se lave facilement à la main ou dans le lave-linge.

VELLUTO

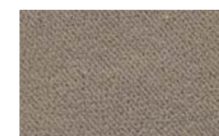

Les nouveaux tissus Velluto Unopiù font partie d'une collection unique, née de la recherche du fabricant Fischbacher sur le recyclage des plastiques. Collection de coussins haut de gamme sur demande pour canapés, fauteuils et baignoires qui dispose de 14 coloris, tous d'une extrême élégance et raffinement. Au toucher ce tissu, chaud, délicat et très doux ressemble à du véritable velours, mais en réalité il est composé de 70% de fils provenant de bouteilles PET recyclées. Le résultat est un produit écologique de haute qualité, résistant aux agents extérieurs et à la lumière, ignifuge et adapté à tous les environnements, intérieurs et extérieurs, publics et privés.
