# PS300

## The Fastest BAG CLOSER

The PS400 is the fastest packaging bagging machine used for an efficient and streamlined bag closing system. This bag closing machine can be easily integrated into an automated bag closing line and/or a manual feed system sealing bags with a pinch or a double-fold seal.

# PS300

**Seal Types:**  
**Pinch Closure & Back Seam**

## Technical Specification

<b>Voltage:</b>	230 Volts - Three Phase - 60 Amp. 480 Volts - Three Phase - 40 Amp.
<b>Air Requirements:</b>	30cfm @ 90psi
<b>Power Consumption:</b>	Approx. 18kW
<b>Maximum Temperature:</b>	788°C (1,450°F)
<b>Dimensions:</b>	Width: 1.52m (60") Length: 3.1m (120") Height: 2m (78")
<b>Weight:</b>	1,200kg (2,650 lbs)
<b>Seam Width:</b>	25- 38mm (1-1.5")
<b>Welding Cycle:</b>	Up to 100 m/min (328 ft/min)*

\*Depending on the application, the seam width and the type of material used

## Features and Benefits

- Digitally controlled for quick production start up
- Servo controlled enabling synchronization with converting line
- Precision folding system for clean- straight folds
- Recipe management system for easy recall of different batches
- Quick change folding system for size and type of fold
- No glue, adhesives or hot melt
