

OPEN BOTTOM PLUG TRAYS

Our open bottom plug trays encourage optimal air root pruning, for healthier, naturally pruned root systems. These trays are designed to be used with a bonded media or plug. We have several open bottom tray options with various cell count, trim and weight options to match your growing requirements.

PRODUCT		DIMENSIONS				QUANTITY	
CODE	DESCRIPTION	CELL FOOTPRINT	VENT HOLE	DEPTH	TOP	TRAYS/CASE	CASE/PALLET
720595C	PL-72-STAR-NET-VH-OB*	6 x 12	0.25"	2.16"	1.56"	50	56
720480C	PL-098-SQ-NET-VH-OB**	7 x 14	0.25"	1.92"	1.34"	100	24
720490C	PL-128-SQ-HW-NET-VH-OB**	8 x 16	0.19"	1.92"	1.17"	100	24

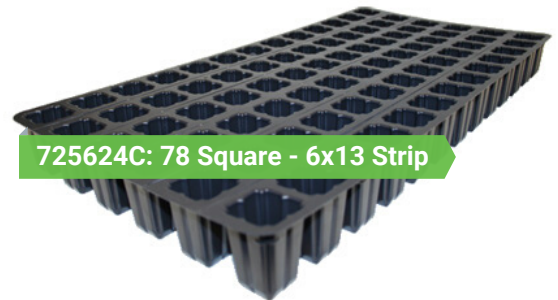

*Minimum Run: 112 Cases
**Minimum Run: 48 Cases

OPEN BOTTOM PROPAGATION TRAYS

Our line of open bottom propagation trays are square with slightly tapered cells and 100% open bottoms. Proven success for geranium, poinsettia, hemp, and cannabis plant propagation. They are strong for stacking and available in three configurations with tray splitting options:

Great for Geraniums

Great for Poinsettias
