Science Lab
Laboratory gas and water fittings, multi-service fittings, and safety fittings

Cafeteria
Workboard faucets, pre-rinse fittings, pot and glass fillers, and dipperwell faucets

Classrooms
Sink faucets, bubblers

Restrooms
Touchless and one-touch faucets, urinal valves

Facility Maintenance
Service sink and sill fittings, hose reels, safety fittings, and repair parts for all our products

A **Single-Source Solution** for Water Flow Wherever It's Needed.

From the stops to the aerator, Chicago Faucets delivers comprehensive solutions, unmatched durability, and the highest performance available. With the broadest selection of plumbing fittings in our industry, we're the one company you can count on for every room in the school.

Why Chicago Faucets Is **The Right Choice** for Your School Project.

Our primary business is and always will be commercial faucets. This focus, combined with our commitment to quality, has made us experts on commercial applications and the number one choice of professionals for over a century. With Chicago Faucets, you can count on the highest quality, innovative features, and unparalleled support.

Look for the symbols below on our products and at chicagofaucets.com. They ensure you're getting the right faucets and fittings for your school.

ECAST Lead-Free brass construction

Durable and safe: one quarter of one percent (0.25%) or less total lead content by weighted average.

TempShield® Scald Protection built-in

Meet code, reduce installation time with products featuring integrated ASSE 1070 compliant scald protection.

Quick Ship program

We're ready when you are with 3-day shipment on many products plus 24-hour and same day shipment availability.

American-Made products

Over 98% of our products are manufactured and assembled in the United States

Built to withstand use and abuse.

Heavy-duty cast brass design with vandal-proof features and backed by the industry's strongest warranties.

Interchangeable design.

Interchangeable components allow you to mix and match to create a faucet to meet your exact needs.

Durability and improved hygiene are essential for any school restroom. Chicago Faucets combines unsurpassed commercial performance with a choice of touchless or one-touch operation to help reduce the spread of germs.

E-Tronic® 80 touchless

The E-Tronic® 80 is a new, contemporary design option for restroom applications. With above-deck electronics, including models with integrated scald protection*, the E-Tronic 80 eliminates clutter below the deck to enhance the overall design of the room.

Saves water

Adjustable run time with vandal resistant outlet options from .35 to 1.5 GPM.

Easy to adjust

Optional Commander™ handheld unit delivers a new level of control from the palm of your hand.

Easy to install

All electronics are above deck for fast installation and easy maintenance.

Added safety

Available with integral ASSE 1070 compliant thermostatic protection* to help prevent scalding.

Versatile design

Single- or dual-supply models available. All dual-supply models include an option to add user-adjustable temperature control.

Options Designed To Make Your School **Safer** and Your Life **Easier**.

Integrated ASSE 1070 thermostatic protection.

Lithium ion cell – maintenance-free power for 15 years or more.

Battery backup on AC models keeps water flowing during power outages.

HyTronic® touchless

- **Easy** installation and maintenance with all components located above deck.
- **Quick** response with dual-beam design, automatically adjusts to environmental changes.
- **Heavy-duty** cast brass construction with a refined polished chrome finish.

EQ Series touchless

- **Smart** outlet integrates electronics module, sensing eye, and aerator for a clean look.
- **Compact** control box houses power, solenoid, mixing valve, and supply.
- **Durable** one-piece solid brass spout and waterproof electronics.

E-Tronic® 40 touchless

- **Reliable** and proven electronics are housed and hermetically sealed above deck.
- **Sturdy** all-metal body for performance that's built to last.
- **Affordable** solution for dependable, commercial-grade touchless operation.

802 and 3600 Series one-touch

- **One-touch** operation with our MVP™ cartridge – closes automatically.
- **Water-saving** design with adjustable cycle time and low-flow outlet options.
- **Classic** styling that complements almost any lavatory application.

Gym & Locker Room

Vandal-resistance and improved hygiene are essential for athletic facilities and locker rooms. We meet these requirements with additional safety features, including anti-scald, anti-ligature, and antimicrobial protection.

ELR Series touchless and ligature resistant

The ELR combines touch-free operation and the durability of a heavy-duty, one-piece cast brass body with the added safety of ligature resistance.

Durable construction

Heavy-duty, one-piece cast brass body with recessed vandal resistant outlet to withstand abuse and tampering.

Ligature resistant

Rounded and sloped design to minimize ligature points.

Secure, compact control box

Conceals and secures power, solenoid, mixing valve, and supply.

Added safety

Available with integral TempShield ASSE 1070 compliant thermostatic mixing valve to help prevent scalding.

Commander™ Programming Unit Puts You In Control.

Infrared and touch screen technology make it easy to program, maintain, and monitor our touchless faucets.

- **Change** settings, check battery, perform diagnostics.
- **Scan** for faucets requiring attention quickly and easily.
- **Compatible** with HyTronic, E-Tronic, and ELR.

404 Series one-touch

- **Strong** one-piece cast brass spout and shank with one-piece cast brass underbody.
- **Fast** and easy installation with fewer parts.
- **Water-saving** design with adjustable run-time, shuts off automatically.

Tamper and Ligature Resistant shower system

- **Heavy-duty** solid brass construction and vandal resistant design to withstand abuse.
- **Enhanced safety** with valves that monitor fluctuations in temperature and/or pressure.
- **Ligature resistant** design with rounded, sloped edges.

748 Series bubblers

- **Durable** solid brass construction with our time-tested MVP™ cartridge.
- **Flexible** head helps protect against injury by flexing on impact.
- **Antimicrobial** properties inhibit disease-causing organisms.

732 Series urinal valves

- **Adjustable** flow time with automatic shut-off to conserve water.
- **Simple** and easy maintenance, uses same handle and cartridge as our metering faucets.
- **Robust** design with solid brass construction and vandal resistant features.

Commercial kitchens require durable products that can be easily updated without extensive downtime. Our food service products are designed for interchangeability, with replacement components that are always readily available.

923 Series combination pre-rinse/faucet

The 923 Series combines a high performance pre-rinse spray valve with a solid, durable faucet for a workhorse kitchen assistant.

Safe and reliable

Features quarter-turn ceramic cartridges with integrated check valves to prevent cross-flow.

Flexible

Easy installation with supply arms that can adjust from 3" to 8-3/8" centers.

Water conserving

Triple Force™ pre-rinse spray valve provides powerful spray with a low 0.91/0.99 GPM @ 60 PSI.

Durable construction

Heavy-duty brass body with metal, vandal-proof lever handles.

An Integrated Solution Designed to Prevent Cross-Flow

XKC cartridges, included in most of our pre-rinse faucets, prevent cross-flow by incorporating a check valve directly inside the cartridge.

- **Integrated** valve prevents back-flow if water in the line reverses direction.
- **Easy** maintenance with quick, single part replacement.
- **Commercial-grade** ceramic cartridge design with solid brass sleeve for durability and long life.

W Series workboard faucets

- **Fast** and easy installation on stainless steel sinks and basins 1/4" thick or less.
- **Sturdy** all-metal faucet construction with a chrome plated finish.
- **Interchangeable** spouts, outlets, cartridges, and handles for quick and easy updates.

312 and 712 Series glass fillers

- **Durable** solid brass body and heavy-duty metal lever with rubberized coating.
- **Reliable** all-brass piston valve with easy access for simple maintenance.
- **Flexible** for deck-mount or wall-mount installation.

332 and 515 Series pot and kettle fillers

- **Convenient** double-jointed spout design for large area coverage.
- **Heat-resistant** black nylon handle for added safety over cooking area.
- **Stable** and durable performance with solid brass construction.

1366 and 1367 Series twist and rotary drains

- **Built to last** with solid brass body and stopper or rotor mechanism.
- **Versatile** with a choice of twist or rotary designs for 3-1/2" sink openings.

Faculty Lounge/Medical Office

Style and convenience can elevate the overall environment of faculty areas in the school. In the medical office, touchless hand washing adds an additional layer of safety and improved hygiene.

434 Series high arc faucet with pull-down spray

The 434 delivers commercial durability with easy drop-in installation. It's a great new option for teacher's lounges, break rooms, and kitchens – with sleek, contemporary styling.

Contemporary design

Polished chrome finish and clean lines for a fresh, contemporary look.

Dependable and convenient

Simple push-button activation and snap-in docking make it easy to use and secure.

Durable construction

All metal construction, including heavy-duty, chrome plated brass spout and body.

Reliable operation

Time-tested, heavy-duty ceramic cartridge.

Alpina Series touchless faucets

- **Attractive** design with two spout options featuring a slim, timeless, and elegant form.
- **Rapid** maintenance – innovative below-deck control box is easy to service and maintain.
- **Cost-effective** durable and reliable electronics for long-term, economical operation.

405 Series faucets

- **Style** meets commercial quality – sleek, solid brass spout with integrated shank for durability.
- **Precise** alignment and extra strength with solid, one-piece cast brass body.
- **Adjustable** centers available for handle placement within 6" to 26" from spout center

HyTronic Series gooseneck touchless faucets

- **Easy** installation and maintenance with all components located above deck.
- **Quick** response with dual-beam design, automatically adjusts to environmental changes.
- **Heavy-duty** cast brass construction with a refined polished chrome finish.

625 and 626 Series remote spout and foot pedal

- **Hands-free** operation with hot and cold foot pedal control.
- **Flexible** with multiple spout options and single pedal operation available.

Facility maintenance sinks require durable faucets with safety features that protect the water supply. Our products include safeguards that help prevent siphoning and cross-flow contamination of the drinking water system.

445 Series with spill resistant vacuum breaker spout

Designed for use on continuous pressure lines, the 445-PVBCP is recommended for systems connections or shut-offs downstream.

Safe and reliable

Vacuum breaker features a spring-loaded poppet that helps prevent contaminated water from entering the water supply.

Durable construction

Heavy-duty brass construction with extra support from both spout and riser braces.

Flexible

Easy installation with supply arms that can adjust from 3" to 8-3/8" centers.

Easy maintenance

Supply arms feature integral stops and time-tested Quatern cartridges that are easy to renew or replace.

A Reliable and Serviceable Way to Stop Cross Flow.

The 1017-CSTABCP features an integral spring check valve to help eliminate cross-flow. Cross-flow can allow dangerous bacteria to migrate from the hot supply into the cold supply and back into the plumbing system.

- **Added Safety** with a check valve before the mixing valve and its potential cross-flow problems.
- **Reliable** performance – heavy-duty brass spring check cartridge with high temperature washer.
- **Easy** to service affordably and quickly.

897 Series with atmospheric vacuum breaker spout

- **Dependable** ceramic cartridge with color-coded seats that indicate hot or cold operation.
- **Durable** heavy duty, one-piece spout with forged pail hook.
- **Easy** maintenance with integral service stops.

305 Series with short atmospheric vacuum breaker spout

- **Versatile** with options that include supply arms with integral service stops.
- **Reliable** and smooth ceramic cartridge operation.
- **Flexible** installation with supply arms that can adjust from 3" to 8-3/8" centers.

952 Series with atmospheric vacuum breaker spout

- **Excellent** protection against backflow for non-pressurized systems.
- **Improved** water volume adjustments from slow compression cartridge.
- **Heavy-Duty** one-piece brass body to withstand years of use and abuse.

537 Series hose reels

- **Durable** 2.5 GPM spray with brass stem valve, brass handle, and stainless steel activation spring.
- **Complete** systems with fitting, vacuum breaker, and exposed stops available.

Durability, accessibility, and space-saving design are essential for classroom applications. From our classic gooseneck faucets to combination gas and water lab fittings, we offer versatile, space-saving solutions.

8450 Series combination emergency eyewash and gooseneck faucet

This space-saving design combines an independently operated eyewash with a durable, solid brass gooseneck spout. The eyewash features a large, intuitive push handle for activation and a completely separate supply line for tempered water.

Dual spray heads

Dust caps flip off automatically when activated to release soft and wide streams for both eyes.

Large push-handle

Intuitive stay-open push operation, easy-to-locate during any eye emergency.

Durable construction

Cast brass construction and time-tested, heavy-duty ceramic cartridge operation.

Separate water supplies

Independent supply line for eyewash allows connection to an ASSE 1071 thermostatic mixing valve to meet code and provide user safety.

350 Series classroom faucet

- **Accessible** design with gooseneck spout and single lever handle.
- **Sturdy** brass construction with vandal proof handle design.
- **Flexible** installation with ability to install spout in a fixed position or freely rotating.

1332 Series dual-service combination lab fitting

- **Versatile** with dual water/gas service and built-in check valve to prevent backflow.
- **Durable** heavy duty, one-piece brass spout.
- **Ideal** solution when space is limited for lab work stations.

Configurable lab faucets and fittings for your school
