

Adding an authorized user is a perfect way to share the benefits of your ACCU- Visa Signature Rewards Card issued credit card. Authorized users have full use of and access to the credit card account. However, they do not have the authority to add or delete cardholders, request replacement cards, or terminate/modify the existing card agreement. You must pay us for all charges made or allowed by the Authorized User(s). Before adding him or her to your account, you must let the Authorized User(s) know that we may report account performance to the credit reporting agencies in the Authorized User's name. You also need the Authorized User's permission to give us any information about him/her that we request and to allow us to share information about him or her. The Authorized User must agree that in the event of the death of the member cardholder(s), the additional card assigned is no longer valid. Any subsequent charges incurred by the Authorized User, including recurring charges made without the use of the card, become the responsibility of the Authorized User.

To process your request to add an authorized user, please provide the information requested below and return this form to us by:

Mail: 2100 E. Route 66, Glendora, CA 91740

Fax: 626-208-5416

Email: visadesk@americascu.com
