

# REDMOND CONDITIONER FOR MOLD AND MYCOTOXINS

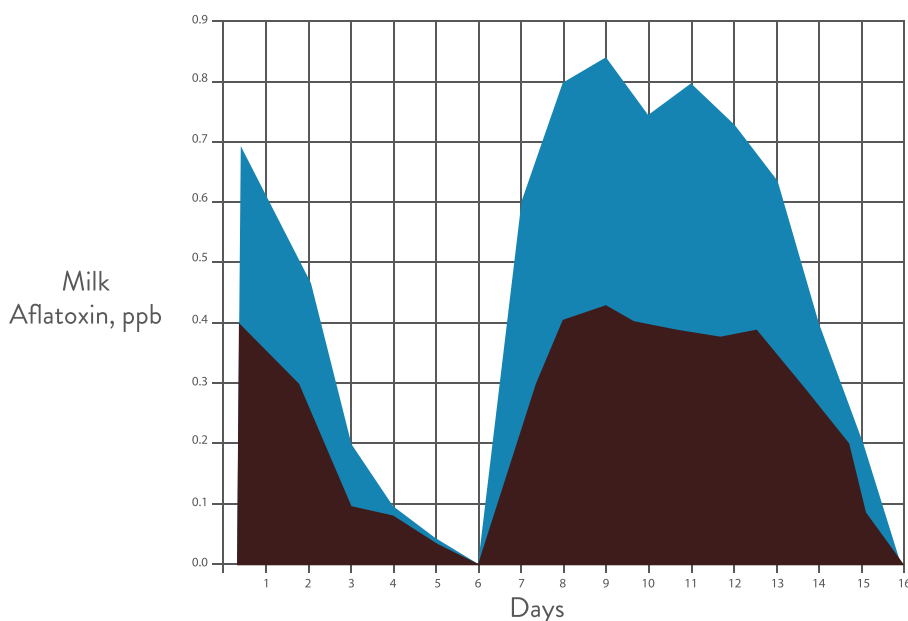

For the past 60 years, **thousands** of customers and **millions** of animals have used Redmond Agriculture's program and never looked back. Switching to Redmond is a small shift that makes a **huge difference**.

## Introduction

Dr. Lon Whitlow of North Carolina University has studies toxins extensively and found Hydrated Sodium Calcium Aluminosilicate (HSCAS) to be effective at controlling them. The following graph is from one of his studies.

### Molds and Mycotoxins - Effects on Dairy Cattle

Clearance & Appearance of Aflatoxin in Milk Associated With Consumption of Aflatoxin Contaminated Corn in Diets With or Without the Addition of Clay Products

Lon W. Whitlow, North Carolina State University

Redmond Conditioner is a HSCAS and we've conducted our own tests on the adsorption of toxins when included in the diet. The following chart shows the results.

ANALYSIS COMPOUND	PERCENT OF BOUND TOXINS
Aflatoxin	99.2
T-2	85.9
Zearalenone	41.3
Fumonisin	11.9
Doxynivalenol	12.8
