

WE KEEP IT SIMPLE

Redmond provides simple, back-to-basics products that can help your animals thrive—whether your approach is organic or conventional.

NATURE HAS IT RIGHT

Our unique balance of minerals comes directly from an ancient mineral sea bed—harvested in America and delivered to you exactly as nature intended.

CRAFTED BY FARMERS

Our company was started by farmers over 50 years ago in Central Utah, and we still use Redmond products on our farms today. We feel lucky to be able to share our products with you!

Nature has it right™

**WE HELP
COWS
BECOME MORE
PROFITABLE**

For the past 60 years, **thousands** of customers and **millions** of cattle have used Redmond Agriculture's program and never looked back. Switching to Redmond is a small shift that makes a **huge difference**.

Cost Savings

Everyone claims they can save you money, so we'll just tell you what our customers tell us: Redmond can cut your mineral program cost in half and sometimes even more.

"Our mineral program was \$9,000 per month. We switched to the Redmond Mineral Program. It now costs me about \$2,500 per month."

- T.D. Dairy, Idaho

Better Performance

Our customers tell us cows on Redmond transition more easily after calving and stay on feed more regularly. They see less milk fever and fewer problems with feet.

"With Redmond, my herd's somatic cell count has dropped and their reproductive efficiency has improved as the first service conception rates have increased."

- Jay Yardley, UT

Simple & Effective

Replace your minerals, salt, buffers, and toxin binders with Redmond's salt and minerals. Ruminants have complex natural systems, but your mineral program doesn't have to be complicated to get the job done. Give your herd Redmond and watch nature make improved performance look simple.

LET'S TALK COST SAVINGS

If your mineral program costs more than 15¢-35¢ per cow per day, Redmond can save you money—usually savings of \$100 each year per cow.

“My cows prefer Redmond, and it costs less than the products I had been using. My components have also improved.”

- Quinn Jenson, Montpelier, ID

Reduced Feed Costs

Redmond Agriculture's minerals cost less per cow per day than conventional mineral programs. Redmond's program includes 60+ minerals, a buffer, and a toxin binder for less than 20 cents basically anywhere in the US.

Improved Conception Rates

Redmond customers have seen significant improvements in conception rates since switching to our mineral program. Increased fertility rates means better dairy profitability.

Reduced Veterinarian Costs

Healthier cows means fewer emergency vet calls to your herd. Redmond's program reduces vet costs, drug costs, sick cow labor costs, and lost milk income due to sick cows.

“I like the Redmond Mineral program because it is simple. I give my cows 8-16 ounces of Conditioner and 4 oz. of Redmond salt. Using Redmond I've removed about 1-2 pounds of protein per cow per day from the ration. I watch my M.U.N. levels. Redmond makes my feed efficiency very high. My D.H.I.A. SCC is 135,000 or lower. Milk production is 70 pounds with a 4.1%F & 3.3%P”

- L. Dairy, Pennsylvania

“I went onto Redmond Mineral Program in 2009. The milk prices were low then and money was very tight. I have stayed with Redmond ever since and have been very happy. In 2012 I had liver biopsies done on my cows to check the mineral levels. The results were very good and this gave me even more confidence in the program. Redmond has saved me a lot of money and the cow health, repro, milk production are all very good. The fat is 3.9% and protein is 3.3%. I feed my cows Redmond's SR 65 in the TMR and free choice Redmond Salt. My heifers get free choice Redmond Salt and Conditioner only.”

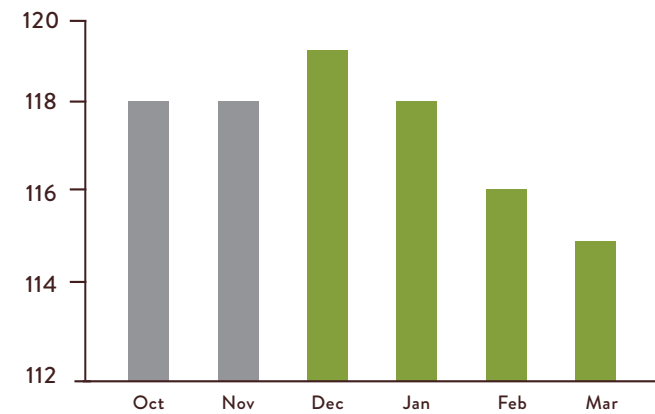

- K dairy, Idaho

IMPROVED REPRO HEALTH

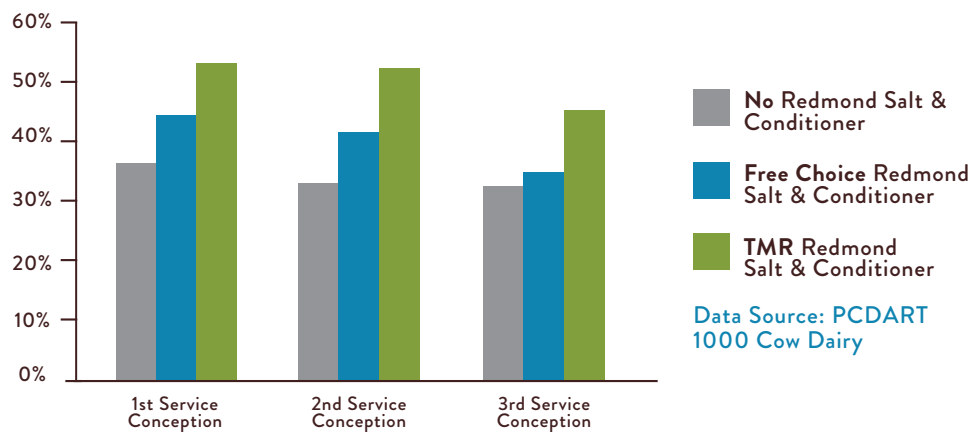

Most dairies report improved conception rates.

THE RESULTS SPEAK FOR THEMSELVES

Redmond gives cows the minerals they need.

Dairy Liver Biopsy

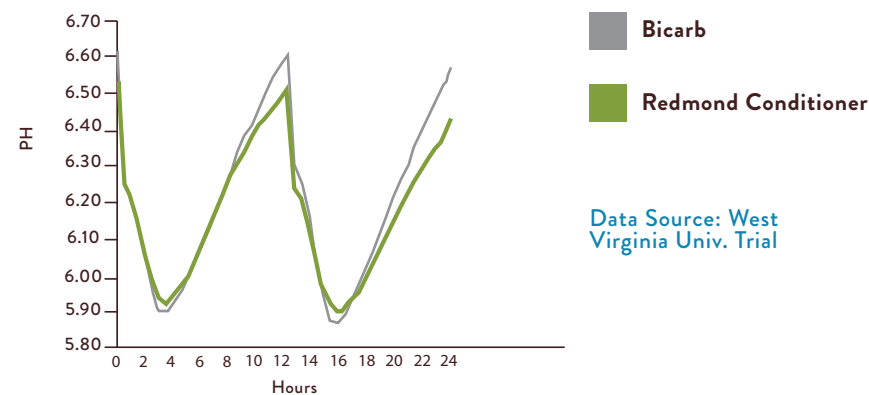

Protecting your cow's rumen is a very high priority, especially for your fresh cows and high producers. Research has shown Redmond Conditioner buffers the rumen as well as sodium bicarbonate while delivering 3x more benefits.

Benefits of Switching to Redmond Conditioner

- Cost savings
- Better energy availability
- Toxin binding
- More complete mineral profile
- Better ADF and NDF usage through enzymatic effect

REDMOND DAIRY PRODUCTS & PROGRAMS

SR 50 (2000 lb Tote, Bulk)

Made from a blend of 1:1 Redmond Conditioner and Redmond's premium mineral salt, SR 50 provides trace minerals that livestock need to be more productive, healthy and profitable. SR 50 can replace your toxin binder, buffer, and mineral supplement. This natural three-in-one product saves you money and time. SR 50 is ideal for dairy cows living in a cool, dry environment. It works best when paired with a high quality feed. [Learn more at redmondagriculture.com/SR50](https://redmondagriculture.com/SR50)

	MAX	MIN
Calcium	2.7%	2.2%
Phosphorous		0.02%
Salt	52%	47%
Magnesium		0.43%
Potassium		0.35%
Sulfur		0.08%
Copper		12 ppm
Iodine		5 ppm
Iron		2,200 ppm
Manganese		203 ppm
Zinc		17 ppm

Feeding Directions: May be fed free choice or mixed in your total mix rations (6 oz for Jerseys and 8 oz for Holsteins) per cow per day in TMR, or according to nutritionist or veterinarian recommendations. We also suggest offering Redmond Selenium 90 free choice to your cows on this program. Provide plenty of fresh, clean water at all times.

Ingredient Statement: Unrefined Salt, Hydrated Sodium Calcium Aluminosilicate*
*Redmond Conditioner

"Over the past 8 years, our Redmond Mineral program has been 8 oz. of SR 50 per cow per day. Our dairy is an open lot with 450 lactating cows in Idaho. The cow health and repro are excellent. Even after an extremely hot summer in 2013, we had only 23 cows that were open over 200 days in milk."

- T Dairy, ID

BULK SALT & CONDITIONER PROGRAMS

SR 65 (2000 lb Tote, Bulk)

Made from a blend of 2:1 Redmond Conditioner and Redmond's premium salt, SR 65 is a great option for animals that experience more stressors—like toxins in feed, high levels of nitrogen (protein), high levels of starch in the feed, summer heat stress, etc. We sell more SR 65 than SR 50 because the higher amounts of conditioner in SR 65 is often a better fit for the typical dairy cow diet. SR 65 has been used for generations to support healthy herds. [Learn more at redmondagriculture.com/SR65](https://redmondagriculture.com/SR65)

"Even though our cows are on a totally wet forage program they have very good foot and udder health. Our fresh cows have very little edema. We've been on a Redmond Mineral program feeding Redmond SR 65 for several years. Our production is 76 pounds of milk with 4.1% fat and 3.4% protein."

- W Dairy, PA

BULK SALT & CONDITIONER PROGRAMS

SR 50 - MVP (2000 lb Tote, Bulk)

This product starts with SR 50 as a base and then we add a mineral and vitamin package: calcium, phosphorous, selenium 30ppm, manganese, cobalt, copper, iodine, zinc and vitamins A, D & E. SR 50 MVP is a great foundation for dairies looking to add an extra boost to our conditioner and salt. [Learn more at redmondagriculture.com/SR50MVP](http://redmondagriculture.com/SR50MVP)

UDDER MUD

Udder Mud (16 oz. Tube, 1 Gallon Bucket)

Redmond Agriculture believes that nature has it right. That's why we offer Udder Mud—a 100% natural clay rub with mint and tea tree oil that can draw heat and swelling out of the udder while increasing circulation to promote healing. Udder Mud is a rub, not a lotion—smear a generous amount on the affected area and repeat after each milking.
