UNLOCK THE POWER OF SPEC-RITE ONLINE

The Spec-Rite Online **Essentials Suite** provides a cost-effective introduction to data management, enabling asset tracking and automated reporting, saving you time, money and effort with your reporting

HDVO: ALL IN ONE STRIPING ASSISTANT

- Minimize downtime with advanced diagnostics.
- Control peripheral functions.
- Customize screens to the driver/operator's preferences.
- Monitor key operating information.
- Increase safety with multiple camera feeds.
- Incorporate a back-up camera.
- Increase safety by consolidating pertinent information into one central location.
- Track tank capacity to better plan refills.
- Monitor the temperature of material with tank temperature widget. (Thermocouples required)

SKIP-LINE LINE PILOT XP

ADJUST CROSS HAIR LINES ON THE FLY

The Skip-Line Line Pilot XP makes it easy to adjust and fine-tune cross hair lines on the HDVO while driving. Operators can use toggles to adjust on-screen line positioning. Adjust location, tilt, and thickness of existing cross hair lines on the HDVO display.

Functionality

- ① Move Left/Right
- ② Move Up/Down
- ③ Increase/Decrease Line Width
- ④ Rotate Clockwise/Counterclockwise
- ⑤ Line Select (scroll through the available lines)
