

# STRENGTHEN YOUR ROADMARKING OPERATION

See real-time equipment location and paint application rates directly from your mobile device. The Spec-Rite Mobile app enables your crew to log time-stamped comments and job-site photos that sync automatically with your Spec-Rite Online portal.

*Sync the Field and the Office*

*with Spec-Rite Mobile*

## Equipment/Labor Tracking

- View real-time equipment location from your mobile device.

## Log Key Information

- Cars driving through wet paint.
- The time and location of material tank refills.
- Discrepancies between job details and real-world conditions.
- “Hand-work” and specialty markings, such as intersection “stop bars” or “turn arrows”.

## Material Usage

See real time rates:

- Mil thickness for yellow, white, and black paint.
- Bead application rates.
- Vehicle speed.
