

Compliance Readiness

PRODUCT OVERVIEW

Compliance Readiness applies Artificial Intelligence to convert your corporate policies (InfoSec, Anti-Money Laundering, Code of Conduct, etc) into bite-sized and gamified training modules in just a few clicks, allowing you to train your intended audience, measure their performance, and run reports for visibility into compliance gaps.

BENEFITS

- ✓ **Store, manage and distribute policies:** As your policies evolve, all stakeholders can work together within our platform to develop, edit, approve, disseminate, track and organize all your policies.
- ✓ **Turn months into minutes:** Creating reports for audits and increasing awareness for each of your corporate policies can take months. With Compliance Readiness, it takes minutes.
- ✓ **Avoid reputational damage:** Deliver employee policy training and track their results to mitigate the risk of reputational damage caused by non-compliant employees and behavior.
- ✓ **Satisfy Compliance Requirements:** Satisfy industry and geographical regulations (PDPA, CCPA, GDPR, MAS-TRM) and certifications (ISO 27001, SOC 2).
- ✓ **Increase employee engagement:** Incorporate micro-learning, leaderboards, points and rewards to increase employee participation and knowledge retention.

PRODUCT FEATURES

Unlimited Policy Training

Train your staff on all of your corporate policies, according to your business needs and employee performance.

Extensive Library

If you need to build a new policy, leverage our 100+ policy template library instead of starting from scratch.

SCORM Compatibility

Export all policy training content into SCORM compatible files so it can be imported into your existing Learning Management System.

Risk Score & Analytics

Analyze employee risk scores based on individuals, departments and teams to identify compliance gaps.

Choose Self Service or Managed Service Delivery

Choose to access the SaaS platform and manage it yourself, or have our team of experts manage the SaaS platform on your behalf.

HOW IT WORKS

Import

Import your corporate policy into the platform.

Convert

Convert your policy into a training module using AI.

Train

Schedule policy training for your employees with a click of a button.

Analyze

Run reports at any time for visibility into compliance gaps.

CUSTOMER REFERENCE

"Our organization maintains sets of policies that aim to mitigate risks across our business. But it's hard to measure if employees read, understand and retain the information of every one of our policies. Compliance Readiness solves this critical problem for us with their AI engine."
