Ally

PRODUCT OVERVIEW

Ally is a gamified mobile app that delivers autonomous and adaptive employee training based on a user's knowledge gaps and individual risks.

If you're spending too much time, resources, or money on a security awareness program that underdelivers, Ally is the solution for you.

BENEFITS

✔ **For the Business:** Quantify and reduce human risk to positively impact your business objectives. Ally preserves budgets and revenues and drives more informed security strategy decisions with actionable analytics.

✔ **For Security Teams:** Automate and personalize your human risk management program like never before. Easy onboarding, personalized content to your needs, extensive reporting, and learning that sticks will help security teams focus on what is important.

✔ **For Employees:** Ally offers a training approach that employees actually enjoy and lean into. Employees will enjoy the freedom to set their schedule and receive training nudges and personalized content in a fun and gamified way.

THE SCIENCE BEHIND ALLY

Adaptive learning
Ally's AI Engine learns from users' performance and delivers content tailored to their needs.

Learning from anywhere
Ally offers engaging, bite-sized content in a device-agnostic experience.

Real-world scenarios
Deliver real world scenarios that reflect daily habits and decisions.
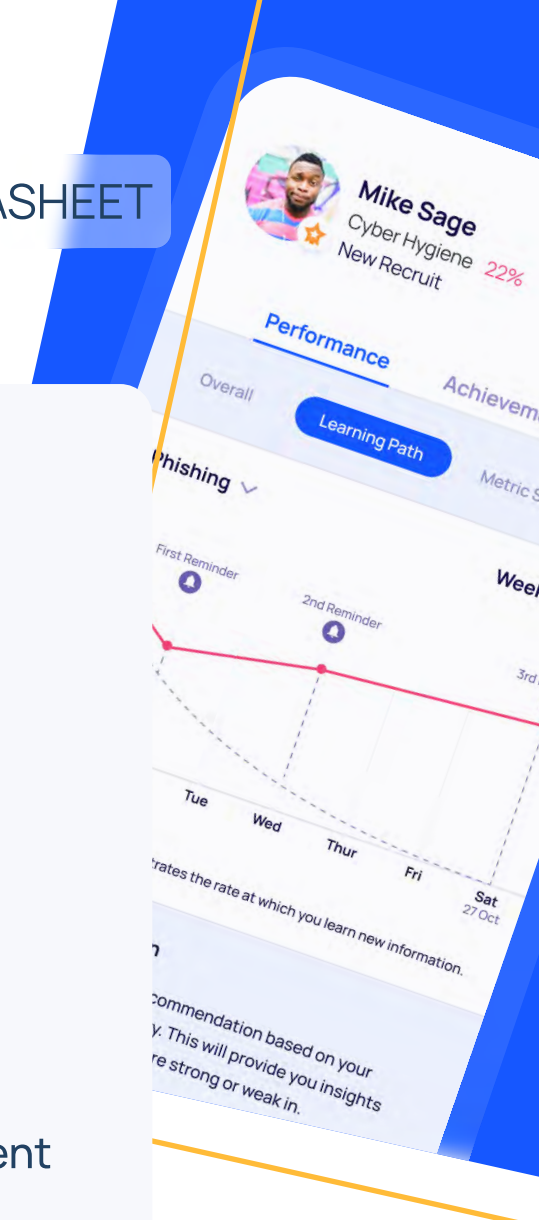

Gamification
Incorporate competitions, recognition and rewards to build a security culture.

Spaced learning
Help your users beat the Forgetting Curve with just in time reinforcement.

Automation
Automate everything, from onboarding to ongoing delivery in minutes.

HOW ALLY WORKS

Configuration
Configure Ally to meet your organization's requirements.

Launch
Kickstart user enrollment, app downloads, and benchmark assessments.

Analyse
Evaluate user performance and engagement in real-time.

Adapt
