

Cybersecurity Maturity Model Certification (CMMC) Pre-assessment:

Prepare For Your CMMC Audit With Confidence

The New Framework

The U.S. Department of Defense (DoD) has created CMMC to enhance the cybersecurity posture of the Defense Industrial Base (DIB). The 300,000 companies of the DIB will be required to meet specific cybersecurity maturity levels. Previously, companies could self-certify, but CMMC now requires third-party assessors to validate if contractors are enacting proper cybersecurity practices and procedures to be awarded business with the DoD. Our pre-assessment, created with the help of former government security auditors and powered by QOMPLX's data analytics platform, guides you through each CMMC control. Upon completion of the pre-assessment, you will understand what steps your organization must take to pass a CMMC audit.

Remarkably Simple

Easy-to-Use

Our experts clarify requirements and guide you through the steps needed to prepare for a successful audit

+

Level Up

Our pre-assessment tool is applicable to organizations seeking any level of CMMC certification (1-5)

+

Secure

Preparing to pass this audit helps ensure that your company's cybersecurity posture meets DoD requirements

+

Recognizable

All of your results are organized into a standard format for the auditor to easily review

Why Choose Us

Our pre-assessment will help your organization identify areas of concern or that are in need of improvement as you prepare for your CMMC audit. Our assessment tool will pinpoint problem areas before your audit and streamline CMMC certification.

Why Dun & Bradstreet and QOMPLX?

Dun & Bradstreet has more than 9 decades of experience working with government agencies and suppliers to design best-in-class programs for acquisition, supplier management, program integrity and compliance. QOMPLX is a recognized leader and innovator in cybersecurity. Its innovative cybersecurity decision platform offers revolutionary monitoring and protection capabilities to spot and reduce enterprise risk. Together D&B and QOMPLX can bring experience and cutting edge technology together to help companies of all sizes streamline their CMMC compliance.

Key Features

Expert Guidance

Easily navigate through the process of preparing for your CMMC audit, even with little CMMC knowledge or experience

Recognizable Format

Your results are organized and prepared into an all-encompassing format that can be easily downloaded or sent to the auditor for them to review

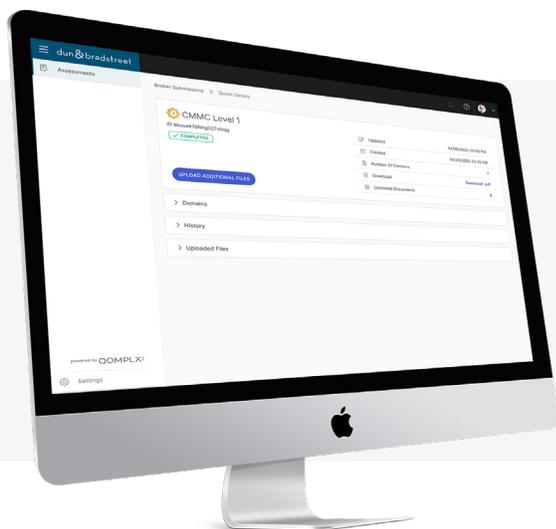

Risk Scoring

Receive a cyber exposure risk measurement of your company backed by the latest open-source intelligence (OSINT) collection and analysis techniques

Prepare to Win

Prepare for your CMMC certification (level 1-5) with Dun & Bradstreet and QOMPLX. Our CMMC tool will focus your compliance efforts and shorten your journey to passing a CMMC audit. That will help you win and deliver on more defense contracts. Visit us using the address below to learn more and get started.
