ENTERPRISE SOLUTIONS

WORK **REIMAGINED**

at home | at the office | anywhere in between

Due to the recent pandemic, the workplace has dramatically changed – forcing many businesses and its employees into new work-from-home environments. As the world attempts to return back to work, each organization is left to define its “new normal.” Some are completely returning to the office, some are working from home indefinitely, and some are practicing a hybrid approach – alternating employees in and out of the office. Regardless of where your employees work, the need to keep your employees protected and productive and your data and equipment secure is paramount.

We can help. At Targus, we simplify your life without complicated products. Our solutions seamlessly integrate into the lifestyle of your employees, working wherever they are. No other company offers enterprise employees the confidence and the reliability to work anytime, anywhere. At home. At the office. Anywhere in between. See how Targus can help your employees reimagine the workspace.

**INCREASE CONNECTIONS.
MAXIMIZE PRODUCTIVITY.**

Today's enterprises consist of a wide range of computer hardware platforms, software applications, and operating systems. Add in hoteling, hot desking, or any form of remote working, and you have a challenge to accommodate a diverse workforce and make sure work happens. If your goal is to maximize efficiency and throughput, Targus productivity solutions – from docks to keyboards and mice – can meet your most demanding requirements.

WHY TARGUS DOCKING STATIONS

A Solution for Every Application

From USB-A to USB-C, Alt. Mode to Universal, Targus offers an array of docking stations to help you maximize productivity and withstand even the most demanding workdays.

Universal Compatibility

Our universal docking stations are fully tested and proven to work with varying platforms and operating systems, including Windows, MacOS®, Chrome™ OS, Android™, and Linux®. This broad flexibility means you don't need to replace your docking solutions during every laptop or OS refresh – making Targus the preferred future-ready solution.

Global Support

With Targus, your road to full productivity is easy – and one you don't need to traverse alone. Our global team of field applications engineers are there to provide complete pre-and post-deployment guidance to ensure your success and provide peace of mind.

Industry-Leading Warranty

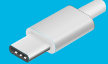

We stand behind our product quality. Targus offers an industry-leading warranty so you've got full confidence that our docking stations will perform and deliver for years to come.

Exclusive Enterprise Software

Enhance security and improve overall user experience of your Targus docking stations with the Targus Enterprise Docking Software Suite - available on most Targus docking stations. Our software, a free benefit to our enterprise clients, aims to fix common laptop / tablet end-user problems and addresses the often-complex issues (like preventing registry bloat) faced by IT, infrastructure, and project delivery teams. Windows compatibility available for all Targus software utilities. Mac compatibility available on select Targus software utilities.

	Wi-Fi Autoswitch 	MAC Address Cloning 	Audio/Video Configuration 	Ghost Device Removal 	Easy Script Generator 
Overview:	Improves network connection speed and users experience	Improves security around network access	Automatically saves icon and application window configuration	Automatically purges Targus UDS Windows registry records	Enables easy deployment of any/all Targus Dock Utilities via SCCM
What it does:	Automatically disables/enables Wi-Fi card when docked	Automatically clones the MAC address onto a Targus docking station Automatically disables Wi-Fi adapter	Automatically stores user icon and application window configurations used on external monitors. The settings are automatically restored the next time they connect to a Targus docking station.	Utility purges devices used on TUDS in a first in first out (FIFO) manner so that the registry cannot get too large to work	Creates PowerShell script for deployment of Targus Dock Utilities in an enterprise
Why it matters:	Improves user's network connection speed Reduces unnecessary Wi-Fi traffic	Enables tighter security access controls for IT departments. Devices are connected at the fastest speed.	Improve user satisfaction Increase productivity	If the registry becomes too large users will not be able to add new devices Important in Hoteling/Hot-Desking environment where users frequently connect	Saves IT time and money versus developing custom deployment scripts

KEEP YOUR BUSINESS

YOUR BUSINESS

As dynamics in the workplace change, whether that's more remote workers, fewer meetings in conference rooms, the need to secure devices and the data on them is becoming more vital. Thus, solving **physical IT security** challenges is now just as critical as managing the complex digital ones that dominate

most tech agendas. That's why Targus has created the industry's broadest and most affordable range of high-quality **privacy screen** and **universal laptop locking** solutions – to help keep your business, your business by effortlessly protecting what matters.

4VU™ PRIVACY SCREENS

Without compromising screen clarity or user productivity, Targus privacy screens work by narrowing the viewing angle of a screen, so data is only visible directly in front of the monitor up to 30° away from the center of the screen. Onlookers will only see a dark unclear screen when attempting to view the information from a side angle.

ORDER NOW

Available for tablets, laptops, and monitors from 9.7" to 30". Find online at: us.targus.com/pages/accessory-finder or custom order** yours today!

Low-Reflective Coating

Reduces glare; improves light transmittance

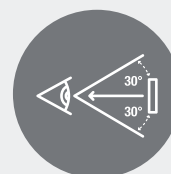

Anti-Microbial

Helps prevent bacteria growth on the privacy screen*

Easy Installation

Adaptable, hassle-free installation with patented under-bezel tabs. Magnetic options available

60° Angle Viewing Window

Data only visible directly in front of the screen and up to 30° on each side

Filters Blue Light

Lowers blue light transmittance to reduce eye strain

CUSTOM PRIVACY OPTIONS:**

Two-Way: Restricts viewing angles on left and right.

Four-Way: Restricts viewing angles on left, right, top, and bottom; ideal for tablets and 2 in 1 devices.

Magnetic: Sleek, easy magnetic strips for easy on/off attachment; ideal for non-touch screen devices.

Narrow Arc: Tighten your viewing angle to 25° on each side for more privacy; ideal for in flight or public transport.

Extra Touch-Sensitive: Up to 18% more touch sensitive than a standard screen; ideal for tablets and 2 in 1 devices.

Anti-glare only: Ideal for bright conditions and window seats.

Spyguard: For security against webcam hackers. Includes patented, integrated webcam cover.

*Anti-microbial properties available on select privacy screen models. See targus.com for product details.

**Custom options available for orders of 100 or more.

CARRYING CASES

About 18% of a company's notebooks require repair of some kind during a year, due to accidental damage.*

The average cost to repair the notebook is \$3,411.

While you've invested in the right devices for your business so that your employees can be productive wherever, you still need to ensure it's protected.

Targus built its reputation providing the world's best protective gear. For over 35 years, we've been perfecting our array of protective solutions – laptop bags and tablet cases – developing quality products that help protect devices from the inevitable bumps, drops, and rough handling that occurs in the everyday commute or business trip. We stand behind our products (and back all bags and most cases with a **Limited Lifetime Warranty**) so you can feel comfortable your devices are protected.

Exclusive SafePort® x D3O® Impact Protection

Combines vented air cushioning and high-density foam padding to provide superior side and vertical impact protection, protecting your supplies from even the toughest drops.

Patented SafePort® Air Bar

A specially engineered cushion lines the bottom of the laptop compartment, providing vertical impact protection against drop damage.

SafePort® Sling Protection

Minor drops and bumps are no problem with the SafePort® Sling. It safely suspends your laptop in case it's dropped, and its ultra-thin design keeps bags compact.

Patented DOME Shock Dispersion

DOMÉ protection works harder than ordinary padding by dispersing the impact away from your laptop screen.

Logoable

Add your corporate logo to your Targus product through our Custom Logo Program.

Patented Checkpoint-Friendly Design

Designed to meet airport standards, the checkpoint-friendly feature allows the laptop to remain inside the case for a clear X-ray scan.

TABLET PROTECTION YOU CAN COUNT ON

Whether your organization is supplying tablets for use in the field or as a secondary device to an employee's ecosystem, it's important to protect that investment from dust, drops, and scratches.

An innovator in tablet cases, Targus offers an extensive line-up of cases that meet your device needs and that are built to enhance your tablet's functionality by combining protection with patented features and advanced technology. Not to mention style.

COUNT ON TARGUS FOR...

Quality

We stand behind our product. That's why we offer a Limited Lifetime Warranty on most tablet cases.

Protection

We know device protection. That's why nearly all our cases are designed to meet the Mil-Spec drop-testing standard. Some situations require even more protection, that's why we have a line of Rugged and Field-Ready solutions for those demanding environments.

Innovation

Our patented 360-degree rotation feature offers nearly infinite viewing angles – and ultimate productivity. Plus, our multi-generation trays, available on most SKUs, allow the case to work on multiple versions of a device – so you can upgrade your tech without updating your case.
