CISCO

Simplify your IT with Cisco

Is the complexity of technology holding you back? Let us introduce you to the concept of Simple IT. We can take your complex, expensive multi-vendor environment and simplify it so you can get back to the important things – your business, customers, and innovation.

The Challenges of a Multi-vendor Environment

Trying to create an integrated IT architecture with a collection of disparate point solutions can create many challenges.

These challenges include:

- Building and sustaining relationships with multiple vendors
- Staying up-to-date and knowledgeable on multiple products
- Spending countless hours on maintenance and software updates
- Using interfaces, dashboards, and systems that cannot talk to each other
- Sorting through multiple reporting engines to make routine decisions

Introducing the Concept of Simple IT

IT Today

Network	Aruba® • Jupiter® • HP® • IBM® Solarwinds® • Microsoft Office 365™ Meraki® • Cisco™
Security	Symantec™ • Websense® • AXIS® • Meraki® McAfee™ • Barracuda® • FireEye™ Palo Alto Networks® • Milestone® • Cisco™
Collaboration	Avaya™ • Microsoft® • Polycom® Huaweai™ • Alcatel-Lucent™ • Aruba® Zoom™ • Citrix® • Cisco™
Data Center	Hewlett Packard® • Nutanix™ • SimpliVity™ Piviot3™ • Dell EMC® • Brocade® VMware® • Cisco™

CISCO Simple IT

Network	CISCO Meraki
Security	CISCO Cisco Umbrella
Collaboration	Cisco Spark
Data Center	Cisco HyperFlex™

Simple IT leverages technology that is easy to deploy and manage:

CISCO Meraki
Security and simple cloud-based management of your entire network

Cisco Umbrella
On and off network security that deploys in just minutes and updates automatically

Cisco Spark
Messaging, meeting, and calling managed under one console in the cloud

Cisco HyperFlex™
Data center infrastructure that is fast to deploy, simple to manage, and easy to scale
