

HOW DO YOU SUPPORT AN ELASTIC REMOTE WORKFORCE?

Employees have always wanted remote work options, but many businesses were hesitant. With the world's largest experiment in work from home well underway, businesses are having a change of heart.

IN 2020

74%

of CFOs intend to shift some employees to remote work permanently.²

IN 2019

99%

of 2,471 people surveyed wanted the option to work remotely at least some of the time.¹

Virtual desktop infrastructure (VDI) enables workers to access workspaces and apps using any device, anytime, from anywhere. People need apps that perform the same way they do in the office. You need to support users everywhere and add new users cost-effectively. Data needs to be secure wherever it lives.

Why companies and workers like remote work³

79%

Increased productivity, better focus

91%

Better work-life balance

71%

Higher job satisfaction

78%

Less stress

Everybody saves money⁴

COMPANY SAVES

\$11K

Amount a typical company saves annually for each employee working remotely half-time

EMPLOYEE SAVES

\$4K

Amount an employee can save annually by working remotely half-time

Where are you on your remote work journey?

“

I'm starting from scratch and I need to move quickly.”

“

I need versatile VDI that supports power users and hybrid-cloud connectivity.”

Public Cloud

Run your virtual desktop software on a public cloud to deploy high-priority workloads quickly and easily.

Hybrid Cloud Infrastructure

Build an on-premises solution that can guarantee performance for task, knowledge, and power users and integrate seamlessly with public cloud systems.

VDI APPROACH

LOOK FOR

TRY

Reliable, available, and secure data storage

Simple resource provisioning and independent compute/storage scalability for different workloads

NetApp Virtual Desktop Service
Orchestrate VDI components and storage resources on Azure, AWS, and Google Cloud.

NetApp HCI
Run multiple workloads on the same system, including 3D VDI applications.

NetApp can help

NetApp can help you build an infrastructure for VDI that supports workers whether or not they're in the office, performs consistently everywhere, and keeps your data secure and available.
