

Redesign work. Reimagine the future of retail.

Today's changes and tomorrow's uncertainties are redefining your organization and how you work

According to CFOs surveyed in the June 2020 PwC US CFO Pulse Survey:

The changes are so large, so fast, so many, and in some cases, here to stay.

Your organization is faced with:

Acceleration of existing trends

Such as:

- Massive migration to a remote workforce overnight
- Increased security concerns
- Expansion of cloud services and applications

Evolving business processes

Such as:

- Prioritization of worker safety and wellness
- Evolving supply chains
- Flexible fulfillment and omni-channel customer journey

Achieve business resilience

You need retail solutions that can scale quickly and securely across your organization, to gain the right insights for your business and remain agile despite ongoing challenges. Cisco securely connects your workforce, automates your processes, and engages your customers with the right digital touchpoints.

Cisco® Business Resiliency Solutions

It's time to provide an adaptable, productive, and trusted experience for your employees, customers, and partners. From remote office spaces to curbside store locations, here's how our solutions help you reimagine and redesign your workforce and workplaces.

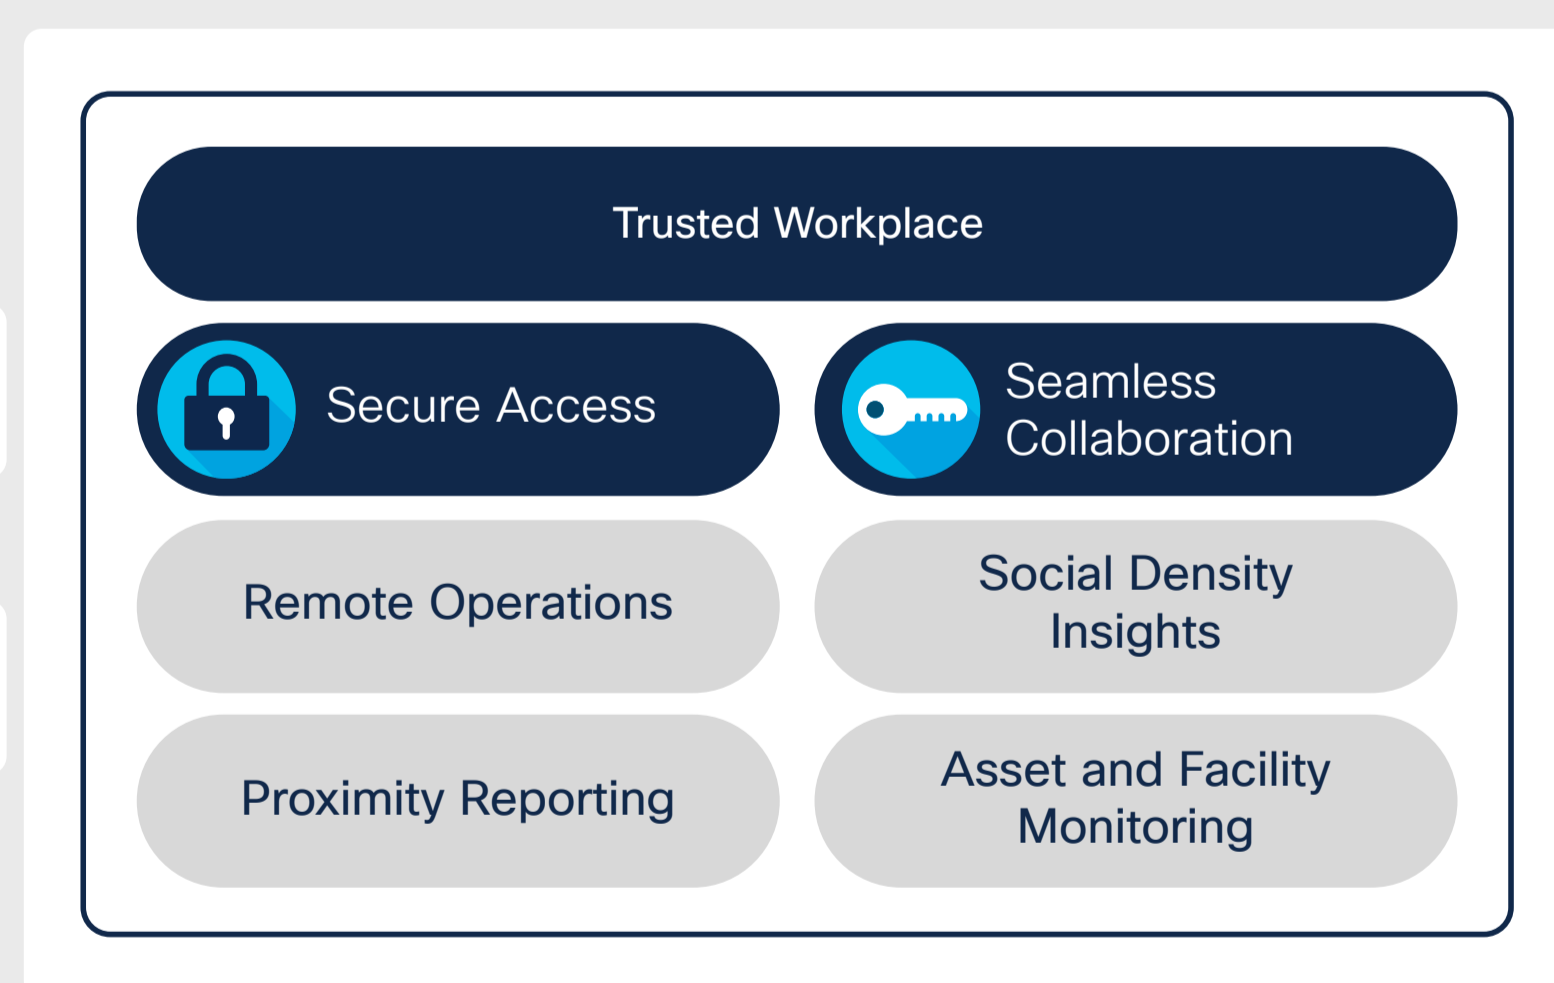

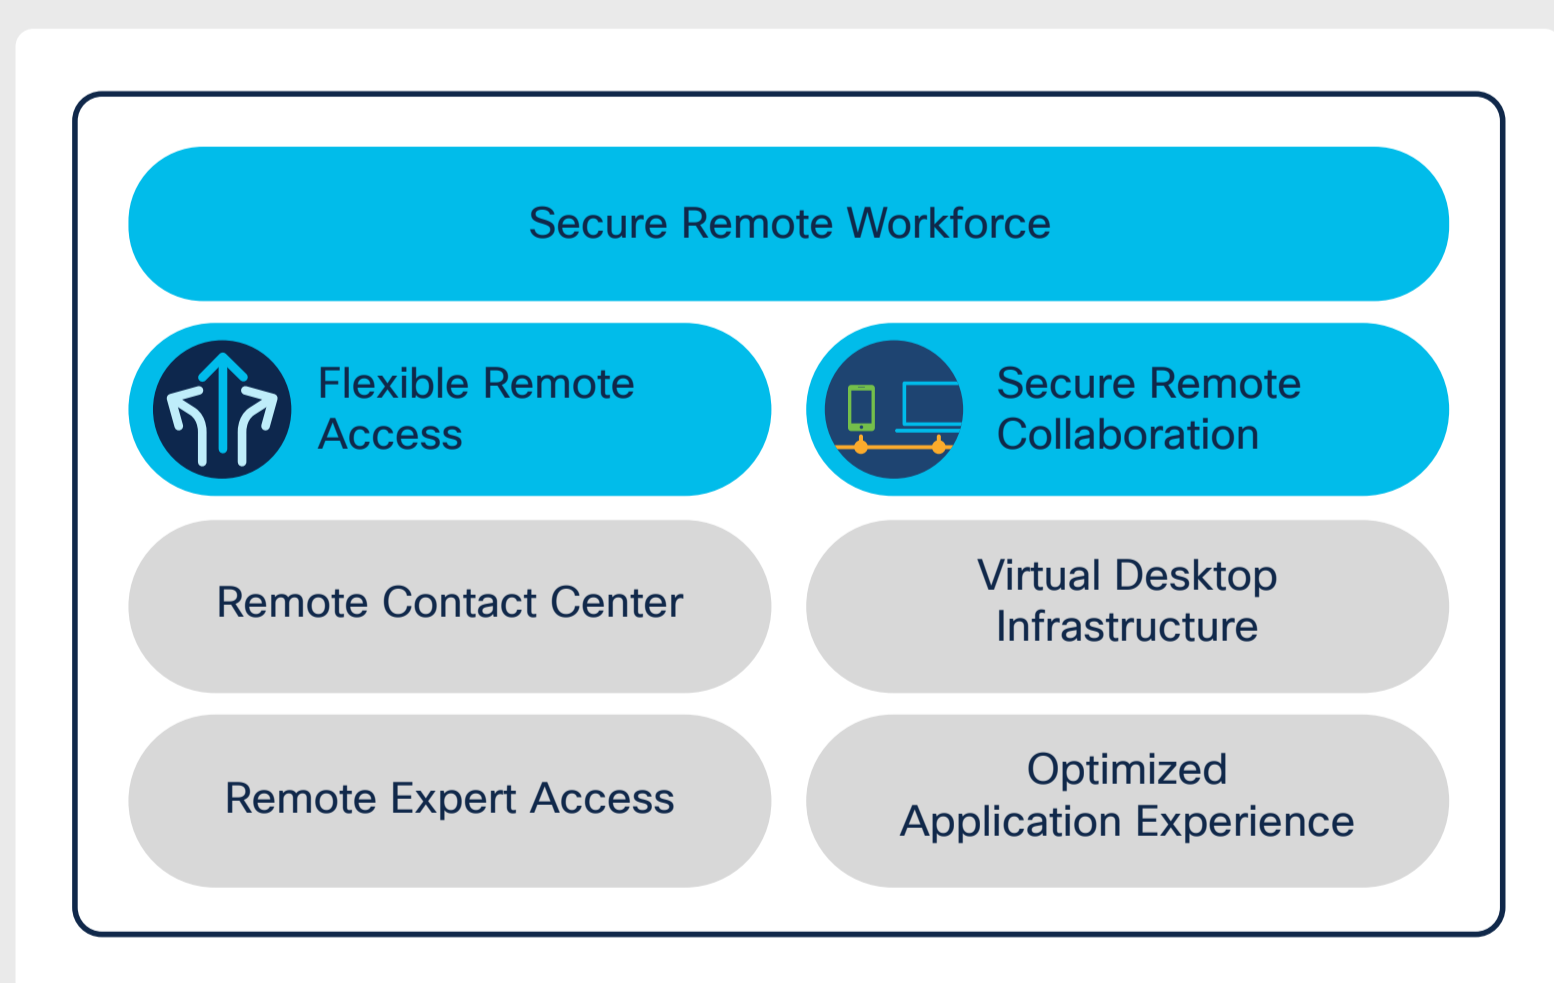

Cisco Secure Remote Workforce helps you:

- Empower workers with mobile tools and secure access
- Optimize IT investments and employee experiences
- Extend HQ and enterprise-class operations to the home

Cisco Trusted Workplace helps you:

- Ensure workers' physical safety and protect workers' data
- Evolve to a secure and seamless distributed work model
- Expand operational consistency across environments

Explore our retail use cases for Secure Remote Work and Trusted Workplace
