

ALLinONE  
OCS  
product overview

## realtime, highly configurable billing solutions for mobile operators

MNOs | MVNOs | MVNAs | MVNEs | IoT Providers

Lifecycle's cloud ready OCS is a highly available, resilient, supplier agnostic solution with realtime rating functionality, empowering providers to monetise 5G, maximise digital opportunity and enable business growth.

Our solutions automate mission critical billing and are easily integrated and scalable, catering for huge volume increases as your business grows.

Our microservice strategy allows us to quickly build and deploy new monetisation and service propositions, enabling you to win customers with innovative, flexible billing solutions, tailored to your business goals.

# delivering a commercial and competitive advantage to your business

## monetise 5G

This high capacity, high availability 5G ready platform is futureproof by design. Our cloud compatible architecture with adaptive service control helps providers monetise 5G. The OCS is proactively designed and continuously evolving to meet changing industry needs and regulations.

## expand your access to the MVNO market

A cloud ready multi-tenanted solution that can easily be adopted by wholesale partners, simplifying and expanding access to the MVNO market.

## integrate seamlessly

The OCS easily integrates with existing business and third party infrastructure.

## reduce capital expenditure

Our adaptable solutions can be hosted and fully managed by Lifecycle, reducing capital expenditure, optimising operations and enabling providers to focus on business growth.

## minimise financial risk

Extensive realtime control empowers operators to more efficiently manage the rapidly evolving, converged rating and charging of end user activities. Our cutting edge rating capability, coupled with realtime service management gives spending control to end users, whilst delivering revenue protection to providers.

## deploy quickly, in the way that suits your business

There are a range of scalable deployment options; on-premise, private or public cloud accessed via a flexible business API gateway.

## grow faster

Our carrier grade OCS solution automates and optimises rating processes to accelerate business growth.

## disrupt markets

Innovative, flexible rating solutions that are highly configurable to support business goals, are designed to enhance the end user experience and win new customers.
