The future of diagnostics

Lunch Break: Wellevate® Labs Demo & Holistic Primary Care Interview

Jaclyn Smeaton

ND

Dr. Jaclyn Chasse, N.D. is a licensed naturopathic doctor who is passionate about applying her clinical knowledge, strong communication skills, and leadership skills to advance the fields of nutrition, health technology, and functional medicine. She is a sought-after writer for both peer-reviewed journals and lay publications and speaker at national and international conferences, presenting on topics across regulatory affairs, health technology and clinical practice, specifically in the specialty areas of women's health and integrative and functional medicine.

Introducing Wellevate Labs

Why Wellevate Labs?

- Specialty and conventional labs at your fingertips
- Labs, order history and results in a central and secure place
- A physician support network for expanded provider access*

- Personalized labs tailored to fit your patient's specific needs
- Free Ask the Doctor consultations for support with choosing labs and interpreting results
- Text notifications for instant updates when results are ready
- Specialty lab kits sent directly to patients which mean less inventory to manage
- Consolidated lab partner communications handled in one central place

- Mobile phlebotomy services for comfort and convenience
- Appointment scheduling directly with patients
- Specialty lab kits sent to your patients with instructions and pre-paid envelopes
- Results automatically added to your portal

- Order specialty and conventional labs more conveniently
- Search your patients' results in record time
- Build custom protocols
- Schedule appointments with HIPAA compliant telehealth service

TESTING

Now that you have selected to assign testing to your patient, here is an overview of the steps to complete the process:

- 1. PICK A TYPE OF TESTING.** You will then need to select the type of testing, Conventional Labs or Specialty Labs.
- 2. CHOOSE A PHLEBOTOMY OPTION.** You will then be asked to indicate if you need Phlebotomy Services if applicable.
- 3. CHOOSE YOUR TESTING.** If you choose Conventional Labs then you would select a Panel or Individual Test for your patient. If you choose Specialty Labs you would find and select a test by laboratory partner.
- 4. PREVIEW OR EDIT ORDER, and PLACE ORDER.** Review your order to make sure everything is correct or edit it as to your liking. Agree to the terms of service, place your order, and you're done.

1. PICK A TYPE OF TESTING

Product or Test Code	Panel or Test Name	Price	Remove
452	NutrEval FMV	\$399.00	
6998	DUTCH Cycle Mapping	\$325.00	
2 Tests in Cart		Cart Total: \$724.00	

Please accept the terms below to complete the order.

- Draw Fee: Please note that a \$7 draw fee will be charged if blood draw is performed at LabCorp Patient Service Centers.
- Lab Order Requisition Fee: Evexia Diagnostics charges \$15 for each requisition placed by non-licensed practitioners. Specialty test(s) would incur separate requisition fee(s) from blood tests based on the number of test kits ordered.
- Lab Order Restrictions:
 - Patients must be 6 years old or older for tests that require any blood draws. Patients under the age of 18 require the parental/guardian consent form to be completed electronically when a lab order is placed by non-licensed clinicians or licensed clinicians ordering for out-of-state patients.
 - We do not support lab ordering for patients in NY, NJ, and RI.
 - Specialty test orders are applicable to Patient Pay only. Test kits must be ordered in advance and kept in stock. Provide the test kits to patients after payment completion.

I agree to the terms and conditions agreement of this service.
