ABOUT US

Sunshine Lighting was founded in 1980 by Morty Kohn as a one-person operation. It evolved into a multinational enterprise, growing at a rapid pace to become one of the leading lighting manufacturers in the United States. Sunshine Lighting takes great pride in maintaining a personal relationship with each customer.

In 1996 Sunshine Lighting began developing and manufacturing the Sunlite® brand. We are producing many lighting technologies, including a vast selection of LED, Compact Fluorescent, Incandescent, HID, Halogen, Decorative, Miniature, Specialty, Stage and Studio lamps, as well as an extensive collection of electrical supplies and Light Fixtures. The Sunlite® brand has gained a reputation for quality and affordability and keeps up with the latest technologies to provide the most advanced products in the lighting industry.

In today's fast-paced world, we understand that availability is vital. With our 100,000+ square feet of warehouse space, we stock more than 13,000 different products so that we can provide immediate service to all our customers. We also carry all major brands, including Osram-Sylvania, General Electric (GE), Philips, Ushio, Universal, and many others.

Through customer interaction and feedback, we work tirelessly to introduce new and innovative products to the marketplace as well as continually improving our existing line of items to meet the high expectations our customers have come to rely on us.

Our dedicated team of technical and product specialists ensures that our products designed with safety and the environment in mind. Many of our products carry the Underwriters Laboratories and Energy Star certifications. Sunlite® partnered with the U.S. Department of Energy (DOE) Lighting Facts program, the Design Lights Consortium (DLC), and the American Lighting Association (ALA) among others.

The Sunlite logo features the word "sunlite" in a bold, lowercase, sans-serif font. The "sun" is in a dark orange color, and the "lite" is in a lighter orange color. A registered trademark symbol (®) is located at the top right of the "e".
