

Please Read These Instructions Before Installing. Important Installation Notes:

Application Temperature: marker-pattern tape should not be installed in temperatures below 10°C or 50°F.

Will Not Damage Glass Surfaces or Exterior Glass Coatings such as Solar Reflective, Low-E, or other types of glass treatments.

Marker-Pattern Tape Coverage: One 100ft. roll protects a glass surface (2.5' x 6.5' OR 30" x 80" OR 16 square feet) of glass patio door, glass panel railing or equivalent window area.

Step 1:

Clean Surface Thoroughly

See back side for more details

Step 2:

Position the measuring tapes on the top & bottom if your surface is tall, or on the left and right sides if your surface is wide

Step 3:

Unroll using a smooth and constant technique. Cut a length of the tape slightly larger than the width of the window

Step 4:

Use the provided squeegee to flatten the tape, releasing any trapped air.

Ensure to remove the carrier tape from the surface, leaving only the markers

Step 5:

Repeat Steps 3-4

Please ensure to remove the carrier tape, leaving the markers on the glass!

Step 6:

Congrats! You're now protected from bird strikes!

Replicate our **Symmetry** pattern

Mix it up!

OR our **Harmony** pattern

Cleaning Instructions:

Window cleaning products such as Windex, or mild liquid detergent and water mixtures may be used to clean glass surfaces without damaging the marker-pattern. A soft cloth or synthetic sponge are recommended washing tools.

DO NOT apply heavy scrubbing pressure. Hard rubber squeegees and power-washing machines will damage marker-patterns and are not recommended.
