AMOPPORTUNITIES

Clinical Experiences with AMOpportunities

Clinical experiences through AMO are as short as four weeks and as long as six months. We offer rotations at 200+ U.S. and U.K. clinical sites within 70+ specialties and subspecialties. No matter your area of interest or medical school requirements, we have just the experience for you.

What are the Benefits?

A clinical experience is an educational opportunity generally used to fulfill school requirements or obtain Letters of Recommendation (LoRs) required to apply for residency in the U.S.

Aside from providing an LoR or fulfilling school credits, clinical experiences can help you:

- Gain exposure to medical skills and knowledge that may be tested for during the USMLE
- Become familiar with the U.S. &/or U.K. healthcare systems
- Learn and practice new medical terminology
- Create meaningful personal and professional connections
- Improve English fluency
- Experience a new culture or learn virtually from anywhere in the world

How is AMO different?

AMO offers unmatched service and support through our team of advisors and coaches. Not only do we offer assistance that will help you choose the best clinical experience, we will also help you with enrollment and orientation. AMO also provides assistance with securing a visa, housing, transportation, and insurance or assisting virtual visitors. We're with you every step of the way!

Ready to Apply?   Applying is free and easy. Here's how it works:

1 **CREATE**
Create an AMO User account at *https://app.amopportunities.org/signup*.

2 **EXPLORE**
Explore our experiences, selecting what you need and filtering out what you don't.

3 **APPLY**
When you find the program and start date that meets your needs, click apply.

4 **RESERVE**
Once accepted, pay the down-payment fee to reserve your experience, or pay in full. Submit documents and attend orientation to be fully enrolled.

5 **ROTATE**
When your start date comes, travel to the U.S., to the U.K. or go online and attend your clinical experience!
