

Pre-Med Shadowing Experiences with AMO

WHAT IS A PRE-MED SHADOWING EXPERIENCE?

Pre-med shadowing experiences are similar to clinical observerships. They allow you to follow a U.S. physician during their daily practice over the course of four weeks. During this time, you will become familiar with the U.S. healthcare system and determine if joining the healthcare profession is right for you.

WHAT ARE THE BENEFITS?

As you begin your medical education, a pre-med shadowing experience is extremely valuable. Pre-med shadowing experiences allow you to:

- > Earn a letter of evaluation
- > Enhance your resume
- > Gain a mentor
- > Test your medical knowledge
- > Improve your communication skills
- > Explore a medical specialty

WHAT TYPES OF EXPERIENCES ARE OFFERED?

Like our clinical experiences for current medical students, graduates, and professionals, those offered to pre-medical students enrolled in U.S. educational institutions focus on a specific medical specialty. We currently offer pre-med experiences in:

- Anesthesiology
- Cardiology
- Dermatology
- Family Medicine
- General Surgery
- Internal Medicine
- Neurology
- Obstetrics and Gynecology
- Ophthalmology
- Orthopedic Surgery
- Pediatrics
- Plastic Surgery
- Podiatry
- Preventative Medicine
- Primary Care
- Vascular Surgery

Experiences are offered in three formats, allowing you to select the one that best fits your learning preferences.

- > **IN-PERSON EXPERIENCES**—Rotations take place in clinics/hospitals within the U.S. during set hours.
- > **ONLINE TELEHEALTH EXPERIENCES**—Rotations take place online with physicians providing instruction from a clinic/hospital within the U.S. during set hours.
- > **FLEXIBLE VIRTUAL ROTATIONS**—Rotations take place online with physicians providing instructions from a hospital/clinic within the U.S. The physician's schedule is shared, and visitors select rotation hours based on the visitor's availability and schedule.

WHAT ARE THE ASSOCIATED FEES?

Pre-med shadowing experiences last four weeks and cost between \$1,499 and \$2,799. The cost of a clinical experience covers the rotation, physician fees, and the processing of payments and enrollment documents. It also includes support from a personal AMO Coach and a letter of completion from AMO.

Housing, meals, transportation, airfare, and health insurance are not included in this cost. Once you reserve your experience with us, your AMO Coach can provide recommendation for where to obtain such items at a reasonable cost.
